NORRIS SMASHES BELGRAVE "20" RECORD by SAM FERRIS

IN spite of two other road races in London on 20th August the popular Belgrave "20" was well supported with a large entry of 103, 77 of whom faced the starter—Deputy Mayor of Wimbledon (Alderman G. Waller)—whose "thundering blunderbuss" seemed to catapult Fred Norris into an immediate lead. It was obvious that Fred, in this determined mood, meant to "take the lot" and he accordingly set about this task by "tearing off a strip" of 3 miles in 14.45. No one doubted Fred; no one questioned his supremacy, so he was left to plough his own furrow around the three-lay course which, in all honesty, could not be termed easy or even of moderate severity.

Space-buster Fred took only 25.17 to cover 5 miles. "A bit fast" was one comment but I am never surprised at what a fellow of Fred's calibre can show when in the right mood. Turning to the other competitors, who were having something like a race, we found Tony Llewellyn—tackling his first "20"—37 seconds in arrears but only 9 seconds ahead of Pawsey, Towl and Elderfield. Terry Wray 26.34, was a lone figure, then came Honney, Linstead, Davis, Stairs, Edwards, Buckingham and George Hopcroft—all 27.16.

With a second 5 miles only half-a-minute slower than his first we were looking at 51.04 as Fred passed 10 miles. "Good time for 10 without going any further." It was 59 seconds later before we spoke to Llewellyn who was exactly one minute ahead of a happy trio—Pawsey, Towl and Elderfield. Lonesome Wray went by in 54.11 and 44 seconds later Ron Linstead rather shook us with the possibility that he would take his Club Championship—held in conjunction. I can hardly wait to tell you that Ron not only took his Club title but held his prominent position and also pulled in the handicap prize in a "Club picnic"—the Bels do find them!

There was no time to dither in our efforts to keep Fred Norris in our sights for he was now threatening the course record and oozing honest sweat as he belted past 15 miles in 78.13. Tony Llewellyn was still going strongly with 80.17 to his credit. Training partners Pawsey and Towl—81.21—had dropped Elderfield (81.37) and settled down to a private "blood-test" over the last 5 miles. Remember that Pawsey was the winner last year (1:51.06) and a fellow likes to better his time. There was incentive enough for the popular "Dinky" as he ran into second place to edge out a tiring Tony Llewellyn; indeed Pawsey was in

happy mood with a "clock-off" just over a minute inside record — 1:49.58 by Ron Clarke in 1958—and was full of praise for Fred Norris who shaved 2 mins. 32 secs. from the old record. Pawsey said that he was more pleased at finishing 2nd to Fred in good time than winning in slower time.

Almost as regrettable as Fred's absence in Rome is the news that this great-hearted athlete is emigrating to the United States very shortly. The likes of Fred contribute much to the English way of life and I feel that we in the South will miss Fred as much as his native Lancashire.

There was a sad atmosphere in the Belgrave dressing rooms when it was learned that Johnny Green (T.V.H.) had been knocked down by a car and was suffering from a fractured leg. Fairfield of the Bels, also had the misfortune to meet with an accident and has a fractured arm. As ever the British Red Cross Society were in attendance with their excellent organisation which, on this occasion, was severely tested and worked admirably. It is comforting to have these folk around.

1. F. Norris (Bolton) (rec.) 1:47.26
2. W. Pawsey (Mitcham) 1:48.56
3. A. Llewellyn (Walton) 1:50.07
4. A. Towl (Herne H.) 1:50.31; 5. E. Elderfield (TVH) 1:50.48; 6. R. Linstead (Belgrave) 1:51.49; 7. T. Wray (Bris'l) 1:52.57;

EVERY SATURDAY—NINEPENCE

WHEELER AND NORRIS

JUST when space is at a premium a spate of letters has deluged into our office. If we are to clear outstanding results before our first Olympic issue on September 10th, I regret that I can do no more than refer to points raised in some of them.

The most lengthy is one from the consistent Elizabeth Wheeler, who does appear to have good reason for feeling badly treated by her omission from the Olympic team. As Len Gebbett, Chairman of the N.U.T.S., says, the selection of Ann Jenner is peculiar, and certainly not based on current form. The only other real criticism one can make of the selections is the omission of Fred Norris—a real tragedy this—though Ian Ward writes while on his Scottish tour to deplore the absence of a pole vaulter—"the ageing Porter or promising McManus would have benefited and helped British pole vaulting"—and Colin Andrews from the decathlon. Len Gebbett, too, points out that a third woman high jumper would have stood far more chance than many of those sent, men and women. Incidentally, despite press reports, Fred Alsop is in the H.S. & J.

Other points from letters—Martin Hyman wonders if the spirit of the Games may not be lost in a flood of nationalism; W. H. Coppin of Croydon, suggests road races on motor racing circuits and a two-part javelin (!); S. Bennett of Newark, feels that Fred Alsop has been far more neglected by the national press than David Jones or John Wenk; but the strangest letter of all comes from an old favourite of mine in Ken Wood, who complains most bitterly that A.W. has a bias against Northern athletes in general and himself in particular, because we have failed to publish the results of five events he has won recently, including those at Staveley and the Rangers Sports. The two mentioned have, of course, been published, but there are many Northern events which we do not even know are taking place, and others where a request for results is either ignored or they are sent many weeks after the event has taken place. As so many Northern officials know, we give them every possible co-operation—I am glad to say this now applies both ways in most cases—and I can only assume that Ken's outburst is due to sour grapes because of his failure to gain selection for Rome. A pity, because I have always been a great admirer of Ken's running in the past.

News for the A.W. Party members bound for Rome—the time of the train back from Rome has been altered to 19.50 hours; some stadium tickets which should be in pairs have not been numbered consecutively, but in "odds or evens"—I understand this can be disregarded. And now—Rome, here we come!

OLYMPIC GAMES PREVIEW (Part 2)

An event-by-event assessment of Olympic Games prospects

by MELVYN WATMAN

THE following preview of the Olympic athletics events, to be held in Rome from Wednesday, August 31st, to Saturday, September 10th, is designed to provide the most information in the least space. This second of two parts deals with the 18 "standard" men's events.

The athletes ranked in list form are not necessarily the world's best performers this year, but are on 1960 performances the top competitors likely to participate in the Games. Thus, in the 100 metres, several Americans who clocked 10.2/10.3 and who in an ordinary list would have qualified for inclusion, but who failed to make the U.S. team, have been omitted. At the time of writing several national teams, including the Soviet and German formations, had yet to be announced, so some of the listed athletes will not in fact compete in Rome.

Key to records: WR—World Record (including pending marks); OR—Olympic Record; RC—Reigning Champion (listed separately only when not Olympic Record holder).

100 METRES

(1st & 2nd rounds—Aug. 31st; semi-finals & final—Sept. 1st).

WR: 10.0—Armin Hary (Ger) & Harry Jerome (Can) 1960.

OR: 10.3—Eddie Tolan (USA) & Ralph Metcalfe (USA) 1932, Jesse Owens (USA) 1936, Harrison Dillard (USA) 1948, Bobby Morrow (USA) & Ira Murchison (USA) 1956.

RC: Bobby Morrow (USA) 10.5.

- 10.0 Armin Hary (Ger)
- 10.0 Harry Jerome (Can)
- 10.1 Ted Jefferys (SA) (in h'cp)
- 10.1 Dave Sime (USA)
- 10.2 Livio Berruti (It)
- 10.2 Leonid Bartenyev (USSR)
- 10.2 Paul Winder (USA)
- 10.2 Abdou Seye (Fr)
- 10.2 Manfred Germar (Ger)
- 10.3 Peter Radford (GB)
- 10.3 Tom Robinson (Bah)
- 10.3 Ray Norton (USA) (& 10.2w)
- 10.3 Santiago Plaza (Mex)
- 10.3 Heinz Muller (Switz)
- 10.3 Mihail Bachvarov (Bul)
- 10.3 Aleksandr Matsko (USSR)

10.3 Nikolay Politiko (USSR)

10.3 Jocelyn Delecour (Fr)

100 yards times:

9.3 Ray Norton (USA)

9.4 Peter Radford (GB) (& 9.3w)

9.4 Harry Jerome (Can)

Prospects: A big question mark hovers over Hary. Ever a source of controversy, the European champion's start will be subjected to the closest possible scrutiny and that in itself might prove unsettling. Recent tests showed that Hary's average reaction time from the moment the gun sounds to his first movement is three-hundredths of a second, compared with the normal sprinter's 12 to 15-hundredths. Thus, his abnormal reflexes can carry him 0.1 sec. ahead before a muscle is moved by anyone else!

Nevertheless, even if Hary gets away to his usual "blitz" start, the issue is far from settled. Provided he has fully recovered from a recent back injury, that grand competitor Norton should be a match for the German, while Sime is fast recovering his great form of early 1956. Jerome has done quite well in U.S. meets since his sensational 10.0 clocking in the Canadian Olympic trials and must be considered a potential medallist, as must his Commonwealth colleague Jefferys (if recovered from injuries received in a car crash) Europe's leading challengers, apart from Hary, are likely to be Radford, Seye and Berruti, although the Italian will probably concentrate exclusively on the 200m.

Radford's wonderful burst of speed over the last 30 or 40 metres is unmatched by any sprinter other than Norton and, provided he gets off to a decent start, a coveted medal could be his. Britain's second string, Dave Jones, won't reach the final but he will probably defeat several faster (on paper) men on the way to the semi-finals.

Forecast: 1, Norton (10.2); 2, Hary; 3, Radford.

200 METRES

(1st & 2nd rounds—Sept. 2nd; semi-finals & final—Sept. 3rd).

WR (turn): 20.5—Peter Radford (GB), Stone Johnson (USA) & Ray Norton (USA) 1960.

OR: 20.6—Bobby Morrow (USA) 1956.

- 20.4* Peter Radford (GB)
- 20.5 Stone Johnson (USA)
- 20.5 Ray Norton (USA)
- 20.6 Santiago Plaza (Mex)
- 20.6 Marian Foik (Pol)
- 20.6* Seraphino Antao (Kenya)
- 20.7 Abdou Seye (Fr)
- 20.7 Milkha Singh (Ind)
- 20.7 Livio Berruti (It)
- 20.8 Ted Jefferys (SA)
- 20.8 Tom Robinson (Bah)
- 20.8 Armin Hary (Ger) (& 20.5½t)
- 20.8 Les Carney (USA)
- 20.9 Jocelyn Delecour (Fr)
- 20.9 Yuriy Konovalev (USSR)
- 21.0* Dave Segal (GB)
- 21.0 Csaba Csutoras (Hun)
- 21.0 Frantisek Mikluscak (CSR)
- 21.0 Marcel Wendelin (Ger)
- 21.0 Vilem Mandlik (CSR)
- 21.0 Manfred Germar (Ger)
- 21.0 Dave Jones (GB)

*220 yards time less 0.1 sec.

Prospects: Norton is without doubt the greatest specialist the world has yet seen at running 200 metres fast around a turn and I look to him to become the seventh man (sixth American) to score an Olympic sprint double. Although five other competitors have faster times to their credit, I cannot see anyone except Norton defeating Berruti on his native soil, although Radford and Johnson (running this event only) are unlikely to be more than a few inches behind. With Seye unlikely to compete, the two remaining places in the final should be fought out between Jefferys, Robinson, Foik, Hary and, if he shows a late return to form, European champ. Germar. Dave Jones' recent defeat of Radford stamps him as a possible candidate for the final, with Segal having an even chance of making the semi-finals.

Forecast: 1, Norton (20.5); 2, Berruti; 3, Radford.

400 METRES

(1st & 2nd rounds—Sept. 3rd; semi-finals—Sept. 5th; final—Sept. 6th).

WR: 45.2—Lou Jones (USA) 1956.

OR: 45.9—George Rhoden (Jam) & Herb McKenley (Jam) 1952.

RC: Charles Jenkins (USA) 46.7.

- 45.4 Karl Kaufmann (Ger)
- 45.6* Mal Spence (SA)
- 45.7 Earl Young (USA)
- 45.8* Gordon Day (SA)
- 45.8* George Kerr (WI)
- 45.8 Otis Davis (USA)
- 45.8 Manfred Kinder (Ger)
- 45.8 Milkha Singh (Ind)

- 45.9 Abdou Seye (Fr)
- 46.0 Jack Yerman (USA)
- 46.1 Jerzy Kowalski (Pol)
- 46.4* Mal Spence (WI)
- 46.5 Robbie Brightwell (GB)
- 46.5 John Wrighton (GB)
- 46.5 Joachim Reske (Ger)
- 46.6 Malcolm Yardley (GB)
- 46.6 Cliff Bertrand (WI)
- 46.8 Csaba Csutoras (Hun)
- 46.8 Kevin Gosper (Aust)
- 46.8 Josef Trousil (CSR)

*440 yards time less 0.3 sec.

Prospects: On paper, the most open of any event, with 10 competitors ranged between 45.4 and 46.0 (although Kerr will probably run 800m only). Despite a strong trio (slowest: 46.0), I fancy the Americans will lose the title they and the Jamaicans have hoarded in the New World these past 32 years. This time, the European-Commonwealth axis seems superior, with Kaufmann, the South African Spence, Seye and Milkha Singh the chief protagonists. There seems precious little to choose between them, but an unruffled competitor like Milkha Singh, the Empire champ., seems the type who could produce an unbeatable run when it really counts. Each member of Britain's well matched trio stands an even chance of reaching the semi-finals and Brightwell, perhaps, could come very close to making the final.

Forecast: 1, Milkha Singh (45.1); 2, Kaufmann; 3, Seye.

800 METRES

(1st round—Aug. 31st; semi-finals—Sept. 1st; final—Sept. 2nd).

WR: 1:45.7—Roger Moens (Bel) 1955.

OR: 1:47.7—Tom Courtney (USA) 1956.

- 1:46.4 George Kerr (WI)
- 1:46.5 Paul Schmidt (Ger)
- 1:46.6* Ernie Cunliffe (USA)
- 1:46.7 Tom Murphy (USA)
- 1:46.7 Roger Moens (Bel)
- 1:46.8 Jerry Siebert (USA)
- 1:46.9 Manfred Matuschewski (Ger)
- 1:47.1* Tony Blue (Aust)
- 1:47.1 Jorg Balke (Ger)
- 1:47.3 Christian Wagli (Switz)
- 1:47.9 Michel Jazy (Fr)
- 1:48.0 Tom Farrell (GB)
- 1:48.4 Rudolf Klaban (Austria)
- 1:48.4 Abram Krivosheyev (USSR)
- 1:48.5* Peter Snell (NZ)
- 1:48.5 Zbigniew Orywal (Pol)
- 1:48.6* Brian Hewson (GB)
- 1:48.6 Joe Mullins (Can)
- 1:48.6 Peter Parsch (Hun)

*880 yards time less 0.7 sec.

Prospects: If experience and consistency count for anything, then the man to succeed Courtney as champion must be 30-year-old Moens, who missed the 1956 Games through injury. The world record holder is running better than ever and seems well able to take care of such "orthodox" rivals as Kerr, Schmidt and Murphy. His severest test might come from Cunliffe, a man who habitually runs the first lap in around 51 sec. and then fades. But what if he does not weaken this time? Converted hurdler Farrell, whose terrific stretch drive has accounted for all his opponents this season—except Moens—will be in a strong position if the pace is slow, but with Cunliffe running that is unlikely. Elliott and Delany have both been nominated for this event, but will probably save themselves for the 1500m. Hewson, one of the favourites on last season's form, has been hindered by injury and will start as an unknown quantity. Wenk may find himself in over his head, but the experience must help him for the future.

Forecast: 1, Moens (1:45.2); 2, Murphy; 3, Kerr.

1500 METRES

(1st round—Sept. 3rd; semi-finals (provisional)—Sept. 5th; final—Sept. 6th).
WR: 3:36.0—Herb Elliott (Aust) 1958.
OR: 3:41.2—Ron Delany (R of I) 1956.

- 3:38.8 Istvan Rozsavolgyi (Hun)
- 3:40.5 Zoltan Vamos (Rum)
- 3:40.6* Dyrol Burleson (USA)
- 3:40.8* Al Thomas (Aust)
- 3:40.9 Siegfried Valentin (Ger)
- 3:41.2* Herb Elliott (Aust)
- 3:41.4 Roger Moens (Bel)
- 3:41.5 Lajos Kovacs (Hun)
- 3:41.8 Peter Parsch (Hun)
- 3:42.0 Michel Bernard (Fr)
- 3:42.1* Jim Grelle (USA)
- 3:42.2 Michel Jazy (Fr)
- 3:42.7 Yevgeniy Momotkov (USSR)
- 3:42.7 Pete Close (USA)
- 3:42.7* Brian Kent-Smith (GB)
- 3:42.9 Mike Wiggs (GB)
- 3:43.4 Olavi Vuorisalo (Fin)
- 3:43.5 Zbigniew Orywal (Pol)
- 3:43.8* Laurie Reed (GB)
- 3:43.8 Lajos Szentgali (Hun)
- 3:43.8 Andrei Barabas (Rum)
- 3:44.0 Dan Waern (Sw)

* mile time less 18 sec.

Prospects: Four great figures dominate the possible entries for the metric mile, which to many followers of the sport is the blue riband event of the Olympics. Elliott (22, 6'0", 152lb), 1500m and mile world record holder, double Empire champ. and a four-

minute mile addict (14 "shots" to date); Rozsavolgyi (31, 5'9½", 126lb), 2000m world record holder and fastest man over 1500m last season and this; Valentin (24, 5'8", 139lb), world 1000m and European mile record holder; and Waern (27, 5'11", 150lb), another habitual four-minute miler carefully biding his time this season. Elliott has not run well since his American tour, but reports drifting from Portsea tell of wondrous feats in training. It can surprise no one if the Aussie once again wreaks havoc with the cream of European middle distance talent. Moens (if he runs) and Burleson look the best bets to complete the first six. Unless Wiggs and Kent-Smith surpass themselves, Britain will be without a placing for the first time since 1904. At time of writing, the plans and form of Delany and Australians Thomas and Lincoln were unknown.

Forecast: 1, Elliott (3:37.0); 2, Valentin; 3, Waern.

5000 METRES

(Heats—Aug. 31st; final—Sept. 2nd)
WR: 13:35.0—Vladimir Kuts (USSR) 1957.
OR: 13:39.6—Vladimir Kuts (USSR) 1956.

- 13:39.4* Murray Halberg (NZ)
- 13:45.2* Bruce Tulloh (GB)
- 13:49.2 Hans Grodotzki (Ger)
- 13:51.6 Zdzislaw Krzyszkowiak (Pol)
- 13:51.6 Gordon Pirie (GB)

- 13:59.8 Sandor Iharos (Hun)
- 14:00.4* Al Thomas (Aust)
- 14:00.8* Dave Power (Aust)

* 3 miles time plus 28 sec.

Prospects: Nurmi was second in this event in 1920 and won it in 1924. Ritola was second in 1924 and won in 1928, Zatopek was second in 1948 and won in 1952, Pirie was second in 1956 and . . . in 1960? After a decade at the top no one would begrudge Pirie his first international title, but on the track there is no room for sentimentality. It will take an extraordinary combination of speed, endurance, track craft and self confidence to win. Without doubt, Pirie possesses everything necessary for victory,

but so too, does Halberg, the runaway Empire 3 miles champ.

Pirie has shown repeatedly this season that no man can outsprint him after a moderately fast pace and Halberg must realise that his only chance lies in setting such a blazing tempo that Pirie's fearsome kick will be scorched out of existence. Yet by leading at such a pace, Halberg runs the risk of cracking himself instead of his rival. A dilemma indeed! Ready to take advantage of the slightest weakening will be a group including Grodotzki, Salvat, Tulloh and, possibly most dangerous of all, Beatty. Unless last minute efforts to allow him to compete "unattached" succeed, potential medallist Tabori will be a non-starter. World record three-miler Thomas was not included in the recently announced Australian team, but may yet be selected. Forecast: 1, Pirie (13:32.6); 2, Halberg; 3, Grodotzki.

10,000 METRES

(Heats (provisional) — Sept. 6th; final — Sept. 8th).

WR: 28:30.4—Vladimir Kuts (USSR) 1956.

29:20.8 Hamoud Ameur (Fr)
29:22.6 Hedwig Leenaert (Bel)
29:29.0 Stanislaw Ozog (Pol)
* 6 miles time plus 60 sec.

Prospects: Pirie has yet to prove himself in a super-fast 10,000m and his sprint will be of little avail unless he can remain in contact with the leaders. The newly crowned 5000m champ. (I hope!) may find the task just beyond him and I look to Krzyszkowiak to add this title to his two European gold medals. A very dangerous contestant will be Power, the Empire 6 miles champ., who recently covered 4 miles in 18:24.3, while Halberg should always be in contention. Bogey and Merriman will renew rivalry, this time with Olympic medals at stake. If fully fit, Hyman is capable of pulling off a big surprise.

Forecast: 1, Krzyszkowiak (28:44); 2, Power; 3, Pirie.

- 8:49.0 Vlastimil Brlica (CSR)
- 8:49.7 Deacon Jones (USA)

Prospects: Assuming that world record holder Krzyszewski concentrates on the flat events I feel that his compatriot Chromik will add this title to the European championship he already holds. Chromik recently turned in an astounding 4:02.8 for 1500m steeplechase. The Russians field a strong trio, but the big danger to Chromik is probably Buhl, a very good flat runner. The U.S.A. and Britain have in recent Olympics provided some great shocks in this event, and Coleman and Shirley, in particular, could continue the tradition.

Forecast: 1, Chromik (8:31.6); 2, Buhl; 3, Rzhishchin.

110 METRES HURDLES

(1st round—Sept. 3rd; semi-finals & final—Sept. 5th).

Prospects: Five men only have a realistic chance of snatching the gold medal; the three closely-matched Americans, world record holder Lauer, and Mikhailov. The British athletes have no real chance of

reaching the final, but the U.K. best of 14.3 should be clipped by at least one of them in the heats.

Forecast: 1, Calhoun (13.4); 2, Lauer; 3, Jones.

*440 yards time less 0.3 sec.

Prospects: What promised to be one of the most stirring duels of the Games — the clash between reigning champ. Davis, and 440 yds. hurdles record holder (49.3) Potgieter—will not come about after all. The unlucky South African was badly hurt in a car smash in Germany and is out of the Games. Only two men have any chance of preventing Davis from becoming the first man to successfully defend an Olympic hurdles title—his American team-mates. One of the British runners might just edge his way into the final, which would be a grand achievement.

Forecast: 1, Davis (49.1); 2, Howard; 3, Cushman.

Prospects: Despite young Brumel's new European record, Thomas is still a burning hot favourite. Although he has never competed in a big international meet, Thomas has shown many times that he is unaffected by nerves and that the height he jumps is governed more by the quality of the take-off area than any other factor. Russians and Americans should battle for the other medals, with perhaps Pettersson intervening. Miller and Fairbrother, on a good day, should qualify for the final.

Forecast: 1, Thomas (7'2 $\frac{5}{8}$ "); 2, Dumas; 3, Brumel.

Prospects: Bragg, who on occasion has started vaulting at a height greater than the Olympic record, looks a good bet to continue his country's unbroken run of success in the event. Morris is a reliable second string but Krasovskis, Preussger or Roubanis (Greece) should be able to prevent an American clean sweep.

Forecast: 1, Bragg (15'7"); 2, Morris; 3, Preussger.

Prospects: Boston, who in the space of a few months has developed from a promising all-rounder into a super-wonder long jumper, is unusually consistent and it will need close to 27' to beat him. Steinbach looks to be his strongest rival, with Ter-Ovanesyan a solid contender for a medal ahead of Visser and Watson. A dangerous outsider, if fully fit, is Pan-American champ. Roberson. Alsop and Howell at their best have even chances of reaching the final.

Forecast: 1, Boston (26'7"); 2, Steinbach; 3, Ter-Ovanesyan.

OLYMPIC PREVIEW—contd.

holder Schmidt. Even the Soviet coach has predicted victory for the spring heeled Pole. Einarsson could add another silver medal to the one he gained in 1956, but two outsiders who could cause a stir are Davis and Baguley. Alsop will have to set a personal best to reach the final.

Forecast: 1, Schmidt (55'1½"); 2, Einars-son; 3, da Silva.

SHOT

Prospects: Nieder, who replaces Dave Davies (injured hand), is in such tremendous form that one cannot envisage his defeat in Rome. There was little to choose between O'Brien, the 1952 and 1956 champion, and Long in recent meets. As for Rowe, he has the habit of hitting the headlines for the wrong reasons, but there is no doubting his vast ability. Nevertheless, I cannot see Rowe splitting the Americans, none of whom is likely to fall below 62'. In the absence of the Hungarian Varju (broken leg), Meconi is Europe's only other great threat. Lindsay and Lucking should qualify without difficulty.

Forecast: 1, Nieder (64'11½"); 2, O'Brien; 3, Long.

182'7"	Carol Lindroos (Fin)
182'7"	Fritz Kuhl (Ger)
182'3½"	Adolfo Consolini (It)
181'6"	Mike Lindsay (GB)
181'1½"	Zdenek Cihak (CSR)
180'7½"	Zenon Begier (Pol)

Prospects: Piatkowski has shown indifferent form this season and, on paper, it looks a three-way clash between the 267lb Babka, co-holder of the world record, defending champ. Oerter, and Szecsenyi, very consistent in small meets but until now a poor championship competitor. The crowd's favourite, of course, will be Consolini, the G.O.M. of athletics. At the age of 43 he is once more a contender for a place in the first six. Lindsay, at his best, could scrape into the top dozen.

Forecast: 1, Babka (195'2½"); 2, Oerter; 3, Szecsenyi.

HAMMER

(Qualification, 196'10¼"—Sept. 2nd; final—Sept. 3rd).

WR: 230'9"—Harold Connolly (USA) 1960.

OR: 207'4"—Harold Connolly (USA) 1956.

230'9"	Harold Connolly (USA)
228'1½"	Gyula Zsivotzky (Hun)
222'10"	Vasily Rudenkov (USSR)
218'3½"	Anatoliy Samotsvetov (USSR)
218'3"	Yuriy Nikulin (USSR)
218'3"	Aleksey Boltovskiy (USSR)
216'0¼"	Tadeusz Rut (Pol)
215'4¼"	Oleg Kolodiy (USSR)
214'7"	Al Hall (USA)
214'6"	Zvonko Bezjak (Yug)
213'10"	John Lawlor (R of I)
210'11"	Mike Ellis (GB)
210'8½"	Jozsef Csermak (Hun)
210'5½"	Heinrich Thun (Austria)
210'5½"	Birger Asplund (Sw)
210'0½"	Noboro Okamoto (Jap)
209'4"	Ed Bagdoras (USA)
209'0"	Sverre Strandli (Nor)
208'11"	Josef Matousek (CSR)
208'9½"	Takeo Sugawara (Jap)
208'8"	Olgierd Cieply (Pol)
207'1"	Muhammad Iqbal (Pak)

Prospects: In common with Calhoun and Glenn Davis, Connolly starts favourite to retain the laurels won at Melbourne. His recent world record places him a good way ahead of his nearest rival and his defeat

would be a major shock. The remaining medals should be fought for with great zest by the Soviet trio, European record holder Zsivotzky and European champ. Rut, with Hall a good outsider. Ellis is consistent around 205', but will have to match his best to reach the top dozen.

Forecast: 1, Connolly (229'0"); 2, Rudenkov; 3, Zsivotzky.

JAVELIN

(Qualification, 242'9½"—Sept. 7th; final—Sept. 8th).

WR: 283'8"—Bill Alley (USA) 1960.

OR: 281'2½"—Egil Danielsen (Nor) 1956.

283'8"	Bill Alley (USA)
277'7"	Al Cantello (USA)
274'3½"	Carlo Llievre (It)
269'10½"	Charles Vallman (USSR)
265'8½"	Janusz Sidlo (Pol)
264'4"	Michel Macquet (Fr)
263'11"	Viktor Tsibulenko (USSR)
261'8½"	Mart Paama (USSR)
260'10"	Egil Danielsen (Nor)
260'2"	Gergely Kulcsar (Hun)
259'7½"	Vladimir Kuznyetsov (USSR)
257'2"	Veikko Laine (Fin)
256'1½"	Walter Kruger (Ger)
255'11"	Terry Beucher (USA)
255'10½"	Knut Fredriksson (Sw)
255'10½"	Mikko Paananen (Fin)
254'4½"	Hermann Salomon (Ger)
254'1½"	Alexandru Bizim (Rum)

Prospects: Danielsen defends his title with only a slim chance of success. Both Alley and Cantello seem the type who on the big occasion will either throw over 280' or flop completely. By the law of averages, one of them should click, while the other medals could go to more consistent throwers like Sidlo, Llievre, Macquet or Tsibulenko.

Forecast: 1, Alley (282'2"); 2, Sidlo; 3, Llievre.

WALKING

by A. D. McSweeney

EVERYONE is glad, but particularly in the North of course, that Albert Johnson of Sheffield—but now working in Nottingham, has been able to make the grade at the 11th hour and will go to Rome. He certainly put up the performance when the opportunity was provided but must thank those who got him his last chance. I would suggest to Albert that he subscribes to one or more Athletic publications so that he is more aware of what is going on.

Of our six walkers, **Ken Matthews**, with his recent 10,000 metres track performance and fastest European 20km. time of the year; **Stan Vickers**, probably the fastest sprinter in the World today and, of course, the European Champion; plus hard-as-nails **Don Thompson**, are all capable of getting in the medal placings. The toughest task, I think, will face the 50 km. holder, **Norman Read**, the ex-Stepping boy, who is again representing New Zealand—it is easier to win a Championship of this class than to hold it—but we wish him well. It is pleasing to see also that **Frank O'Reilly** has been recognised by Eire and will compete in the 50 km. event.

Ken Matthews Wins Leicester "10"

Matthews had an easy journey in the Enderby 1st Annual 10 Miles and, without rushing it at the start, clocked 72m.14s. Arthur Thomson (Met.) and Bob Clark (Poly.) put up very good performances to finish second and third in 77.04 and 77.13 respectively, but then there was a surprising gap of six minutes before the rest of the field, led by John Edgington, appeared. Early on John Godbeer and Maurice Greasley were close contestants for a place but in the last three or four miles both faded out. Surrey's much improved Junior, Maurice Fullager, finished 7th and won the handicap with something to spare.

Birmingham W.C. 220 Miles Relay

This year Birmingham Walking Club is 50 years old and apart from the more stereotyped methods of celebration the club members are going to walk by Relay to the Mansion House, London, and Back, over this week-end, starting from Birmingham at 8 p.m. on Friday evening. Their 13 members taking turns hope to average six miles an hour all the way and finish in Birmingham at 8.35 a.m. on Sunday morning. The arrival in London at the Mansion House is timed for 2.17 p.m. on Saturday afternoon.

The Youths' Best Performances List,

published recently, was incomplete and a revised list will be published soon.

Highgate's "One-Hour" Meeting, which has drawn an average entry of 270 walkers over the past ten years, is at Parliament Hill Track, London, on September 24th. This race is held in four sections, graded according to known form, and any athlete, or non-athlete, interested in gaining an RWA Badge for walking six miles within an hour should contact me for forms and particulars. Address: 50 Manor View, Finchley, London, N.3. Note: that a Boys' Individual and Team race at a Mile is also in the programme.

This Saturday. In the South the Vidarians have their Inter-Club 25 miles at Mitcham Common and Highgate H. have their Luton to London 31½ miles. At Manchester Lancashire W.C. hold their 10 miles.

(Results will be included next week)
