SURREY A.C. WIN THEIR OWN C.C. RELAY

SURREY A.C., led by John Snowden, won their own annual Open Cross-Country Relay in Richmond Park last Saturday. With only a few yards separating him from P. Banner (Thames H. and H.) Snowden strode round the sixth lap of the 16½ miles course, passed Banner on the way and brought his team home first in 95.07, his time of 15.03 being two seconds outside the record of 15.01 which was equalled on the fourth leg by Belgrave's W. Kerr.

Robinson (Guildford) led on lap 1 in 15.30, with Mitcham's "B" team heading their "A" squad, then St. Alban's "B," Thames H. and H. and Herne Hill.

R. Bell (15.43) took Thames in front on lap 2, with Belmore (16.19) keeping the much improved Guildford second and O'Gorman (15.57) bringing St. Albans "A" into the picture. On lap 3 Surrey A.C. (Fuller 16.00) moved up from 8th to 6th, but Thames were still out in front.

Kerr was the highlight of lap 4, bringing Belgrave from 11th to 7th with his record-equalling 15.01. Les Presland took Surrey up to third with a fine 15.22 behind Thames (Gordon), who were now second, Williams (15.53) having taken Guildford into the lead. Holders Mitcham were sixth.

Thames H. and H. enjoying a great run, fought back on lap 5, Burnett (16.01) taking them up to first place once more, but Surrey's Keith Hazeltine had closed the gap to a few yards with a grand 15.53 lap. St. Albans came within striking distance as Wilkinson returned 15.55.

Despite a great run by Banner, Snowden brought Surrey home to win by 35 yards in 95min. 7sec. from Thames, who had moved right away from St. Albans, chased hard by Herne Hill, Guildford and Mitcham.

Cambridge University, who "guested" in the event, led from the second lap and finished in 94.14, well ahead of Surrey, their team being: Brennan 15.52, Lawson 15.32, Thorneycroft 15.44, Lach 16.01, Johnston 15.34 and Heath 15.31.

Veterans 4 x 2½ Miles

Veterans A.C. led all the way to win the first Open Veterans' event from a field of eight teams. They took the lead on lap 1 through Downes 18.22 but only 1 sec. behind came Westminster Bank (Martin 18.23).

On lap 2 B. Foster ran third fastest time of 17.56 to open a lead of 1½ mins. from the V.A.C. "B" team, brought up from 4th by Lee (18.54). Surrey A.C. went from 6th to 4th through Jackie Hunt, who arrived late and missed the first leg.

R. Piles, of Aylesford, the day's fastest man, pulled his club up from 5th to 2nd with a great run of 17.07, which will stand as a vets' lap record, on the third lap. Jack Charlesworth narrowed the gap still more with 17.30, second fastest of the day, to bring Aylesford home 31sec. behind the Veterans "A" team for whom E. Flowers turned in a lap of 18.23. G. M. Pearson brought Westminster Bank home third with a fine 17.59.

ASSOCIATION FOR COACHES

THE formation last week-end of an Association for Amateur Coaches will be welcomed by Coaches throughout the country. It is a move which can do nothing but good and, perhaps most important of all is the fact that all concerned will be people who are in constant touch with the athletes and their point of view.

This new body, which will undoubtedly work in close and sympathetic collaboration with the International Athletes Club, could become a very important and influential factor in British athletics. The vast majority of the members of the new Association will be former athletes of varying events and ability, and should provide a wealth of experience and "know how" which will not be lost upon the athletes, and should be appreciated by our officials.

Mr. J. Polkinghorne, Hon. Secretary of the Spalding & Dist. A.C., writes to challenge any school or club to beat the time of 49min.28sec. for a 10 miles relay by a team of *three* boys under 16 years of age on Oct. 1st, 1961. Maurice Bratley, Michael Goodson and David Ingle achieved that time as part of their training under club coach John Elliott. At the same time, I feel I should warn any boys, or those in charge of them, that even with three boys taking part, such an event is only suitable for those with a background of middle or long distance running and who are in training and very fit. These events can be very exhausting, as any runners who have taken part in them will know, and are more suitable for seniors than boys.

I see our old friend Brian Frost has been at it again. He even managed to get on B.B.C. Sportsview and has more recently achieved a small piece in the *Telegraph* under the heading "A5 Marathon a Near-Record" in which 2hr. 55min. 09sec. was described as being within 15mins of the world record. One thing he must be given credit for, he's a trier! But 18 years of age!!

My apologies to any readers awaiting replies to their letters—I was a 'flu victim last week-end and had to let correspondence go for a few days.

KEN MATTHEWS' SIXTH WIN IN BELGRAVE OPEN 7 MILES

WITH six wins in a row Ken Matthews cracked back with a 49m.51s. performance after his 52.30 of last year to show us that he is in no mood yet to start easing off. With 100 yards lead after a mile Ken seemed to be satisfied but on the up-hill climb from two to three miles he soon increased that. George Williams and Arthur Thomson, next, were never more than a yard apart and the Belgrave man looked pretty sure of staying with his Met. rival. Bob Clark was fourth. Leaving the Common at 4 miles after a restful level $\frac{3}{4}$ mile stretch, Matthews was about 220 yards in front, Thomson and Clark were still together, then followed Clark, Middleton, Northcott and Wallwork, Nihill, Thompson D. J., Hall Eric, Meadows, Godbeer and Young.

With four in 16 (total 30) Belgrave were safe for the "Berman" Cup. Way back were Essex Beagles 62, Highgate 66, Met. 70, Surrey W.C. 81 and Woodford 89. In the individual race Matthews shot away over the last three miles while George Williams faded and Arthur Thomson had a clear lead for second. Nearing home Bob Clark, walking confidently and in the best style for some time, cut down Williams and went after Thomson. The end came with Matthews 49.51 (32 secs. outside his 1958 record), Thomson 53.07; Clark 53.10; Williams 53.45 and Middleton 53.48. In this same period however the fight for second and third team places received a big shake up. Essex Beagles and Highgate were both set back by disqualifications and Surrey Walking Club "crowded on sail" to pass Met. and take second place. A keen race and very fine weather for the Bels. 42nd Annual. 177 started, 162 finished.

AMERICA SEEKS RACE WALKERS' ASSOCIATION

Walking in the U.S.A. is under the general jurisdiction of the Amateur Athletic Union of the United States and Walking clubs and District organisations have no body such as our Race Walking Association to represent their interests or to further the sport on a National basis. The American Walkers who have been over here, in particular Jack Mortland, have been impressed by our set-up and are anxious to put the sport on a better level

back home. Chris McCarthy, lively editor of the "Midwest Walker," and Hon. Sec. of the Mid-West Walkers' Association, of Chicago, is taking the lead in the matter and has drawn up a set of Articles to form the basis of "The Race Walkers' Association" of U.S.A., and copies have been distributed throughout the States. All organisations seeking membership are required to be members of the A.A.U. or of its District Associations.

The good wishes of Britain's enthusiasts go to Chris McCarthy and his fellow men.

After 3 miles Pettitt made a strong effort to reduce his colleague's lead but although, he did reduce it for a time, Mayatt finished strongly and drew away to win by half a minute. A keen tussle for third place saw McLaughlan and Foxley level with 300 yards to go, the Maidstone man getting away on the last slope to give his club second place behind Aylesford.

OXFORD UNIVERSITY BEAT R.A.F.

AT Oxford on the 25th November the second of the Royal Air Force's two trial sides was no match for a full-strength University team which ran right up to form and showed a solidarity which could well offset their lack of 'star' performers in the University match.

Several of the R.A.F. side were clearly lacking in top-class race experience this season and after dealing with the fast start and being nicely placed as they hit the towpath section, they were dropped as the pace was maintained.

However, Tony Sunderland was one who strode home looking as though he could easily manage another seven miles, and he was followed home by John Lindsell who is showing a classy consistency these days. After these two came the Oxford pack—seven runners with only 94 seconds between first and seventh—and with Bill Rigby the only R.A.F. runner to split them.

LETTERS TO THE EDITOR

Views expressed in readers' letters are not necessarily those of the Editor or the publishers

BE PREPARED

Dear Sir,

Referring to A.W. dated November 18th, I would like to express my surprise that an athlete should write such a letter as the one which appeared from Roy E. Morrey.

In one breath he congratulates Redhill & Reigate A.C. on their race and in the next expresses such a childish opinion that I wonder why he is an athlete at all!

In the South of England where we have such opportunity to obtain a well organised Saturday afternoon run, is it beyond this athlete's capabilities to present himself to the line in time for the start?

If Mr. Morrey continues to miss the start of races I would suggest he invest in a reliable timepiece, get to the changing rooms and warmed up in good time, and keep an eye on the time for obvious signs of an impending start.

As a matter of interest, has he ever tried spending his time organising (or officiating in) a race before so impertinently presenting his advice? Before he starts to criticise and present more advice to clubs I would suggest that he sit down and write a letter of apology to the club concerned.

Yours sincerely,

P. G. Underhill

HELP THEMSELVES

Dear Editor,

I would just like to add a little to Eddie Kirkup's letter. While I would wholeheartedly support his suggestions, I would like to point out that Road Runners should also be able to help themselves.

For years the talk has been of sending our top ultra-long distance men to the comrades' Marathon in South Africa and with this in mind the Road Runners Club sent out an appeal for donations.

The response to this is disgusting; there are (supposedly) 1,600 members of the R.R.C., yet only 90 persons have been kind enough to make donations.

What about all the other 1,500, have they retired or are they not interested in the long distance man and his dreams? John Smith (Epsom) has the promise of going to South Africa, but what about Tom Buckingham (Leamington)? He has given yeoman service to athletics for some years, I think he also should be rewarded with the trip to South Africa. So what about it, Road Runners, there are 1,500 of you who could make the trip possible by making a donation. Five shillings is not going to break anyone.

In closing, may I mention that I am leaving the country and going to live in Denmark, and would like to say how much I enjoyed my period of Road Running and the comradeship that went with it. I intend to keep running and to help to foster running in Denmark in any way I can, as there is no doubt that Road Running is the Greatest Sport.

Yours on the road,

J. Grundy,

ex-Haltemprice R.R.C. & Wakefield.

INITIALS

Dear Sir,

When I wrote the letter concerning the wearing of initials on vests it was intended to amuse as the heading inferred.

However it seems that the advocates of this "gimmick" have taken it much to heart and rushed forward in a literary surge to defend their "cult". Since the question is being taken seriously I am led to pose the following questions:

- 1 Does the wearing of such insignias give the athlete a psychological boost?
- 2 Who sews for the athlete with the "grasshopper" mind who is wont

to change his Coach as often as he does his socks?

- 3 If, as one irate letter writer penned, he is not a champion but likes to look like one—a champion what?
- 4 When competing, are you representative of your Club? Or coach? If both, in what order do you place them?

To sum up briefly, this matter has proved controversial and for that no apologies are required, for it is from

controversy that new ideas and thinking emerge.

The "fors" and "against" of this could be debated to great length, but seeing that the season of goodwill is upon us remove your pens from the acid pot, and enjoy your bran mash pudding (for which I am not an agent).

Yours faithfully,

P.N.,

Hon. A.A.A. Coach.

(The initials are mine.)

FORMATION OF NEW COACHES' ASSOCIATION

ABOUT 30 A.A.A. Hon. and Senior Coaches were present at the meeting on Saturday, November 18th to form an Association of Coaches. At this meeting, held at the L.C.C. College of Physical Education, Paddington Street, London, W.1., it was unanimously decided that such an association be formed, and that it be called "The Athletics Coaches' Association."

A constitution was discussed and passed. The aim of this new Association, which it is hoped will bring together all Amateur Athletic Coaches throughout the country, is to promote the coaching of athletics, by acting as a source of information on coaching matters, by publishing literature on athletics' coaching from time to time, and by generally co-operating with any other bodies that have similar interests.

The Association, membership of which is open to all qualified A.A.A. and W.A.A.A. coaches upon payment of an entrance fee of 5/- and an annual subscription of 10/- (after 1st September only 5/-), will be run by a Committee elected annually. For the present however, until the first Annual General Meeting in the Spring, the new Association has two officers; D. G. Evans is acting as Secretary, and will be pleased to give any information required by coaches. His address is 6, Manor Drive, Great Baddow, Chelmsford, Essex. It is hoped that many A.A.A. and W.A.A.A. Coaches will join

and help to make strong the new Association, and intending members should contact the acting Treasurer, E. F. Housden, 123, Bessborough Road, Harrow, Middlesex.

The specialist clubs have proved how useful they can be in promoting the interests of their particular events, and we hope that coaches all over the country will want to join and contribute to the success of their own Specialist organisation, the Association of Athletics Coaches.

Birchgrove (Cardiff) H. elected the following at their A.G.M.—President, J. D. B. Williams, Esq.; Chairman, J. G. Thomas; Secretary, J. P. Collard, 9 Heol Dyfed, Birchgrove, Cardiff; Treasurer, M. Litchfield; Capt. D. Williams; Jnr. Capt. W. Stiffall; Youths/Boys' Capt. J. Mitchell; Press Officer, K. Bennett.

Feltham A.C. elected the following at their A.G.M.—President, G. Sands Esq.; Secretary, C. H. J. Bennett, 162 Clare Road, Stanwell, Middx.; Treasurer, H. Cooke; Track Fixtures Secretary, D. T. Hare; Cross Country Secretary, B. Forey; Men's Captain, A. Prior; Ladies' Captain, F. Atkinson; Chairman, P. Hitchcock.

With Mr. T. R. Billington moving to Birmingham for business reasons, the post of Hon. Secretary of Rhyl & Dist. A.A.C. will be taken over temporarily by J. R. Harrison Jones, "Meifod", Brighton Road, Rhyl, N. Wales, who will also be making the arrangements for the St. Asaph-Rhyl Road Race on Feb. 10th, 1962.

NEW INDOOR TRACK

The facilities at the new indoor track at R.A.F. Feltwell, Norfolk, have been described by those who have seen them as "the best in the country." Though not yet complete, the draught-proof hangar which houses a four-lane track of 198 yards, two jumping pits, shot putting circle and facilities for javelin practice, has so far taken 20 months to build at a cost of £8,000. It will also be used for many other sports, football, cricket, tennis, basketball, badminton, etc. There are also new dressing rooms complete with showers and toilets.

R.A.F. Bomber Command have invited the Eastern Counties to take part in matches at Feltwell on January 25th, February 22nd and March 29th.

NORTH MIDLANDS C.C. LEAGUE**At Melton, November 25th**

Mike Bullivant came through strongly in the later stages to register his third

successive win. Don Keily, N. Clarke (Lincoln) and P. Leake (LCAT) had a rare struggle for the minor places but had little hope of holding the leader.

Derby had the first two teams home over the course to be used for the Midland Championship. The last race in January should see a tight finish for second place behind Derby "B" and Art & Tech. who are only one point behind.

In the Youths' event Lincoln, handicapped by the absence of 'flu victims, were beaten into second place but still retain their league leadership.

CAMBRIDGE UNIVERSITY BEAT R.A.F. 39-41

At Cambridge, November 18th

AT Cambridge on the 18th November, with the going heavy rather than muddy, and with a nice nip in the air, the University defeated a R.A.F. side after a hard struggle.

The R.A.F. packed 6 in 11, and although the University's last counter was in 14th position, the fact that Mike Turner and Tim Johnston occupied the first two positions was sufficient to swing the contest their way.

Both sides were below strength, Cambridge mainly because of their heavy fixture list and especially the University Cuppers which had taken place only two days previously, and the R.A.F. fielding only a half-strength side.

BOOKS RECEIVED

Running Wild by Gordon Pirie, published by W. H. Allen and Co., 43 Essex Street, London, W.C.2, at 21s. One may not agree with all that Gordon has to say in this book—it would be far less interesting if one did—but few would disagree with the view that this is one of the most absorbing books ever written by an athlete. The writer's strong feelings against governing bodies generally, and Britain's in particular, can be sensed throughout, but there is nevertheless a great deal of commonsense in some of his views and statements. Most readers will probably consider Gordon's graphic descriptions of his many races from the athlete's point of view, with the "behind the scenes" happenings which seldom get into print, the best of a very interesting book.

Basketball the Modern Way by J. G. Garstang, published by Souvenir Press Ltd., 34 Bloomsbury Street, London, W.C.1, at 15s. A very comprehensive book by a qualified and experienced coach which covers the development of individual skills, team-work, tactics and training, as well as a section on rules, organisation of tournaments and competitions.

Winter Sports and Resorts, 1962, by Harry Stone, published by Kenneth Mason Publications, Ltd., 167 Victoria St., London, S.W.1, at 6s. Something new in books. Everything about skiing and other winter sports, from dry skiing in Britain to buying or hiring equipment, where to go, how to get there, what it costs, etc., in Scotland, Scandinavia, Austria, Germany, France, Italy and Switzerland.

Athletics Wall Charts published by Educational Productions Ltd., East Ardsley, Wakefield, Yorks., at 6s. per set of six. A set of charts suitable for school or club and covering all track and field events except the steeplechase.

Report of the SENIOR COACHES' CONFERENCE held in London, on November 18th-19th

by RON JEWKES

PROBABLY due to the convenient venue the Y.M.C.A., Great Russell Street, London, W.C.1.—the support was better than ever, some 70 Senior Coaches attending. The time was divided into seven periods and at least half of each was assigned to the speaker or speakers after which the subject was thrown open for discussion.

In the first session on "The long term building up of an athlete," Ron Bowden described his work with David Jones, from which it was concluded that results had been obtained from quality work in good company. Bruce Tulloh then told how he had planned for years ahead, loving every moment of his hour a day training, but hating his opponents. He considered the emotional factor most important.

Harry Wilson came out strongly on the side of dedication and thought that only that, together with the psychological drive of the coach, could bring success. This brought a sharp conflict in the ensuing lively debate when the interesting opinion was expressed that a man should wait until he had won a couple of A.A.A. Championships before he decided whether to become dedicated or not, and that thereafter, however many records he broke he could not be regarded as completely successful unless he won an Olympic title!

ACCLIMATISATION

The second session was devoted to the vast subject of acclimatisation and Dr. H. Evans Robson commenced by detailing the many different factors to be considered. He pointed out that at the Perth Empire Games, apart from the 24 hours actually spent in planes, our athletes would be called upon to compete in what is to them not only the depth of winter, but in the middle of the night as well. He considered it imperative that the Team Doctor worked in close touch with the Team Manager and concluded that a fortnight was the minimum acclima-

sation period, though warning that the medically desirable was often the financially impossible.

Dr. R. H. Fox concentrated on the heat acclimatisation aspect and told of the research conducted at the Medical Research Council at Holly Hill, Hampstead. He thought that acclimatisation was not so important to sprinters and jumpers but said that *they desperately needed more athletes to come forward to be tested and that, in particular, they hoped that marathon men would agree to temperature tests on the run.*

Dr. R. Goldsmith expounded this theme and described how the difficulties of taking such tests had been partly overcome by the invention of a temperature-sensitive pill only three-quarters of an inch long and three-tenths of an inch thick which the athlete could swallow without the slightest ill effects. The pill contains a radio transmitter and battery, and makes continuous broadcasts of the inner body temperature which can be picked up by a receiver in a car as much as 200 yards behind the runner.

In the subsequent discussion Wing Commander Peter R. Travers, the R.A.F. medical expert, and Col. C. J. Reidy supplied invaluable information on their own investigations into acclimatisation.

RUNNING THE 440

In the session on "How to run the 440 yards" Adrian Metcalfe took only eight light-hearted minutes to tell the Conference everything he knew about athletics! Lionel Pugh showed how he believed that Otis Davis had set a new pattern so that sprinter-types would reduce the world record still further. John Salisbury agreed but thought that considerable over-distance training would still be required.

Sunday's proceedings opened with Peter Travers dealing with the vast subject of athletic injuries. He emphasized that prevention was better than cure and that the athlete should be 100 per

cent fit before he attempted any specialised training. Preparation of the cardiovascular system (erroneously known as "warm-up") was essential. Few doctors had the necessary time to devote to rehabilitation and this very responsible task devolved upon the coach, who should ensure that there was no recurrence due to defective training or faulty technique. It was interesting to hear that he considered skilled massage still had an important place in an athlete's preparation for competition, even if occasionally psychological.

WEIGHT TRAINING

In the next session W/Cdr. Travers was joined by Lionel Pugh to discuss weight training. Apparently most of the injuries suffered occur whilst performing squats and "good morning" and these should therefore be omitted from any schedule.

The sixth session found a strong panel with Arthur Gold in the chair to consider the future of the Coaching Scheme. Pat Sage wanted to see a sub-committee set up to deal with the Cinderella events under a 5 year plan and also a system of scholarships whereby a good young athlete and his coach could be sent abroad to learn the skills of the event in good company. Shortage of money, as ever, was the chief barrier.

Ron Pickering thought that Senior Coaches, and not athletes, should be sent on such athletic scholarships. Les Golding said that no less than 203 men had run for the A.A.A. last year and he paid tribute to the National Coaches who had been attached to the teams and had supplied so much helpful information. He said, however, that *only 48 replies had been received to the 150 questionnaires sent to near-internationals over a month ago* and appealed for an improvement in this generally unhelpful attitude.

Phil Gale said that the financial situation was slowly improving and thought that any surplus should be spent on equipment, indoor facilities and a bigger coaching scheme, in that order. He was very pleased to see such a happy spirit and hoped that we might soon be able

to afford a further National Coach. But we must produce good athletes to attract the public to our meetings. Col. Reidy here urged the importance of using the White City announcers to educate the public in the skills of the field events.

Ernest Clynes welcomed the formation of the Amateur Coaches' Association which John Evans, the provisional secretary, assured him would serve to link coaches closely to the A.A.A. Ernest added that the A.A.A. was not a remote body in London but was composed of every coach, official and administrator. He asked that every member seeing something wrong should write to the committee concerned, rather than indulge in controversy which the public disliked. The session concluded with some very frank exchanges of views and opinions which were much appreciated by the coaches.

Lionel Pugh was the principal speaker in the seventh and final session covering special training ideas. There were many interesting points though nothing very revolutionary emerged.

(A more comprehensive report will be circulated to all Hon. Senior Coaches in due course).

MIKE FREARY WINS BRAMPTON-CARLISLE RACE

WITH Gerry North unable to make the journey, Mike Freary had matters pretty well all his own way in the 11th. Brampton to Carlisle Race on November 25th. Going into the lead soon after the start, Freary romped away to win by some 400 yards in a time of 44 min. 11.9 sec., well outside Gerry North's 43.04 last year.

A close fight for minor placings found J. D. Plewes (Hull) taking second place with David Spenser (Barrow) third. Barrow and Bolton tied in the team race with 29 pts. each, Barrow getting the verdict on the position of the third counters. Strangely enough, Morpeth did likewise in taking third place from Blackpool, both with 44 pts. The first 39 beat standard time of 49 mins.

F. Reeves (Barrow) had a good win in the Youths' event from T. Alder (Morpeth) and the Gateshead trio of Forster, Mikell and Prudham, who took the team awards.

The only race to go to Scotland, the Boys' Inter-School race, was won by D. Smith (Kirkcaldy YMCA) and Longlands Boys had a very easy win in the team event.
