WALKING By A. D. McSweeney

TWENTY-FOUR year-old John Ridley, of Queens Park, tackling "the hundred" for the first time, pulled off a really astonishing victory over a number of experienced and seasoned men at this form of athletic enterprise, and none more so than Vic Stone, confidently predicted as the winner, and Hugh Neilson who beat Stone in the last Brighton and Back race. Then there was Resta, the Italian long-distance crack, Dick Ditchfield, third in the Sheffield "100" and Joe Barraclough, of Lancaster.

John Ridley stood up to the varied conditions, without having a really rough time at any period, and outwalked the field to increase a 5m.30s. lead over Vic Stone at 50 miles to one of over 43mins. at the finish. In fact, although 33 mins. outside Rex Whitlock's winning time of 1952 for the full distance, Ridley walked as fast as Whitlock over the second half of the course—a great display of stamina by this thin leggy young man who is not long since married. There's no doubt that he benefited greatly from the advice of the incomparable Billy Baker, record-holder for Brighton-and-back, who, although topping 65 years now, cycled the full 100 miles to "manage" his team of three Q.P.H. men—spread over almost 20 miles of the Bath Road before the end—and to stroke them to a fine team win over Coventry Godiva, the only other Club to close in.

A hot-house temperature at Bath at the start at 4 p.m. on the Friday forecast the scrapping of many time schedules, carefully prepared, and so it proved. By Hungerford, only forty miles out, 16 of the 60 starters had retired altogether and the field were well behind expected times. About midnight, when the leaders were nearing halfway, a thunderstorm broke and a three-hour heavy downpour brought some relief to the walkers, although most unwelcome to the all-night officials and helpers. But early on the Saturday morning it warmed up again and the field gradually dwindled to 28 at 70 miles and to only 18 at the finish at Chiswick Town Hall.

For the story of the race. Neilson went out at 6 mph and was four minutes ahead of Stone and Barraclough at 10 miles, with Hayward (Enfield) Ditchfield and Resta within the next minute. At 18 miles Neilson's lead was the same over Barraclough, with the rest having dropped a couple of minutes and Resta, greatly troubled by the heat, four minutes further back. Soon after Neilson, who had unwisely taken some suspect egg-and-milk drink, ran into stomach trouble which put him on the

floor for some time, and, after several stops and starts, out of the race altogether at 54 miles. Little Jesse Hayward saw his chance and stepped into the lead just before 25 miles and at Hungerford it was Hayward, Stone, Ridley. In the next five miles Ridley passed Stone and overhauled Hayward.

In pouring rain and inky blackness, frequently interrupted by vivid lightning, I found a spot on the lonely road just west of Newbury which I had decided would be the 50 miles mark and, armed with a megaphone, watch, torch, pencil and score card—all in two hands, gave the halfway times for over two hours during which only thirty competitors passed, so strung out was the field. The result here was—1, Ridley 8h.55m.; 2, Hayward 8.57; 3, Stone 9.00; 4, Ditchfield and Barraclough 9.13; 6, Hooper (Poly) 9:50, with the Italian right back in twelfth place in 10.04.

The 70 miles check just east of Reading showed that Ridley was going away every mile—1, Ridley 12h.30m.; 2, Stone 12.50; 3, Ditchfield 13.01. A telephone call later from Maidenhead, 9 miles up, said that Ridley was then 30 mins. ahead and it was "in the bag." And indeed it was, because Stone, no doubt affected by the suspected cartilage trouble which had put him off training for some weeks, never showed the fight we expected and he actually lost ground to the third man, Dick Ditchfield in the last ten miles. Space does not permit the mention of several who overcame great odds and of the numerous incidents

EVERY SATURDAY — NINEPENCE

SOME of the performances in the Southern and Midland Junior and Youth Championships last week-end were most pleasing.

It is difficult to single out a few of many outstanding performances, but Kilford's 880 in 1:56.5 and W. C. Cornell's mile in 4:17.0 were two of the best. Peter Radford's sprinting in the Midland events was also remarkable, though I must admit to a doubt about the Southern sprinters proving some 4 yards slower than their Midland counterparts when they meet in the A.A.A. Junior Championships later on—as would appear to be the case from the times recorded. Other excellent performances were Churchill's long jump of 22ft. 7½ins. and Blaxhill's 22.8 for 200 yards hurdles.

I cannot let these meetings pass without mention of the excellent starting of Bill Hallums at Hurlingham. Just when so much criticism has been heard of starting in some of the more important events this season, it is good to be able to report the opposite. Bill Hallums gave a faultless performance with the gun and, if this is a sample of his usual work, he deserves the chance to show what he can do at some of the White City meetings.

This week it is once more a case of trying to get a gallon into a pint pot, and several results will have to be left until next week, including the A.A.A. v Welsh A.A.A. meeting, Scottish Junior Championships and a number of reports from abroad. The rather lengthy Women's A.A.A. Championships have also meant the exclusion of other women's results.

Next week's main feature will be the report and full results of the A.A.A. Championships. Incidentally, at the time of writing this we have been unable to obtain the results of the Youths' weight putting on the first day of the Southern J. and Y. Championships at Battersea Park (not Hurlingham, as given last week), or the W.A.A.A. junior javelin last Saturday, when Reg Kerslake tells me these details were not announced, and the recorders and announcers gone and the box demolished before they could be obtained. Reg was given to understand that we received the full results from Mrs. Amies automatically, but this is not so. In actual fact we receive practically no co-operation from the W.A.A.A. at all, except that Miss Hartman always sends us tickets for their Championships and Mrs. Leslie is always most helpful. We get far more co-operation from the Midlands and North, in fact, and like Norman Easlea, their Publicity Officer, we seldom know what is taking place in the future. However, when these results come to hand we will publish them.

U.S.A.

Although a number of performances of the highest calibre were recorded at the American Championships at Dayton, Ohio, on June 21st and 22nd the meeting, as a whole, was a little disappointing. Reasons for this included the unfavourable climatic conditions (although no worse than the weather we usually have to endure) and the large number of scratchings by prominent athletes.

One of the best performances, and certainly the most astonishing, was Reggie Pearman's victory in the 440 yards in his best ever time of 46.4. At the age of 34 Pearman, renowned for his kick in the half-mile, is running better than ever and is certainly capable of bettering 1:48 in his former speciality.

Pearman was followed in by John Telford (47.8 last year), who clocked 46.7, and Charlie Jenkins, the Olympic 400 metres champion. Jenkins is steadily working his way back to top form and may well be at his peak for the 440 yards in the London v. New York match in which he partners Pearman.

Another athlete who has been in the top flight for the last decade, Bob Richards, won the pole vault—in the absence of Bob Gutowski. Richards cleared 15'1½" to top Don Bragg by three inches.

The 100 yards final promised to be the greatest mass sprint race of all time, despite the absence of Bobby Morrow, but the wind

and rain slowed Leamon King, the winner, to a modest 9.7. Second was Dave Sime and third Ira Murchison, who had clocked 9.3 only the previous week.

Could it be that the margin between American and British sprinters is not as wide as might be expected from a comparison of their best times? Remember, four sprinters returned 9.9 against the wind in the inter-counties final last month.

Major upsets occurred in the mile, three miles and javelin, in which the respective favourites, Don Bowden, Max Truex and Bud Held were defeated.

It was pleasing to note the return of John Bennett, the greatest white long jumper in history, and the regaining of form by Ernie Shelton in the high jump.

Only record breakers were Doug Kyle, who set an unofficial Canadian six miles mark, Glenn Davis, who broke both the U.S. record and the listed world mark for 440 yds. hurdles, and J. Lawlor, who set an Irish hammer best of 200'1". Lawlor threw 175'5" for fourth place behind Peter Allday, Don Anthony and Ewan Douglas in last year's A.A.A. Championships.

Results—

100: Leamon King 9.7, Dave Sime, Ira Murchison; 220: Ollan Cassell 21.0, Ed Collymore, Preston Griffin; 440: Reg Pearman 46.4, John Telford 46.7, Charlie Jenkins; 880: Tom

Jack Heywood (Herne Hill) leading from clubmate Tony Towl in the early stages of the Brockman Trophy 3 miles, won by Roland Langridge (S.L.H.), No. 127 from Ken Norris, who is almost obscured from view.

Late note by Melvyn Watman:—

Some astonishing comments on the A.A.U. Championships by Corder Nelson, the American athletics authority, have reached me via Peter May, the Wigmore Harrier residing in Los Angeles.

Mr. Nelson described the officiating at the championships as hitting "an unparalleled level of lousiness."

Blunders mentioned by Mr. Nelson included the sixth placing in the 100 yards of Willie White (who was in a photo finish for first place), atrocious announcing and programmes and generally poor judging and timekeeping. Worst of all, the staggers were incorrectly measured in the 220 and 440 events. For example, Reggie Pearman ran only 432 yards in the final—yet was awarded the championship and a meet record of 46.4! John Telford's time for second place can also be discounted. On the other hand, Mike Larrabee (7th) and Bob McMurray (6th), who were drawn in inside lanes, probably ran the correct distance.

FRANCE

Three recent international meetings held in France yielded several top-class results, with the 800 metres as the centre-piece each time.

Roger Moens (Belgium) returned to his speciality at Paris on June 21st and, after following the Hungarian Lajos Szentgali's 53.3 pace for 400 metres, streaked into the lead to win comfortably in 1:47.5. Szentgali clocked a commendable 1:48.9, Scavo (Italy) returned 1:49.2, and Ludvik Liska (CSR) 1:50.4.

Other results: 100m: Berruti (Italy) 10.9; Swatowski (Poland) 10.9; 200: Swatowski (Pol.) 21.5; Laurer (Germany) 21.6; Toursil (CSR)

21.7; 400: Trousil (CSR) 47.7; 1500: Zimny (Pol.) 3:46.8; 5000: Szabo (Hung.) 14:13.4; J. U.A.U. 96pts. SCOTTISH UNIVERSITIES 58

At Hull University, June 29th

The annual match between the U.A.U. English Universities and Scottish Universities unfortunately clashed with the A.A.A. inter-District fixture, the French tour of Manchester Universities and the contest between South Wales and Loughborough Colleges, with the result that most of the outstanding university athletes were absent.

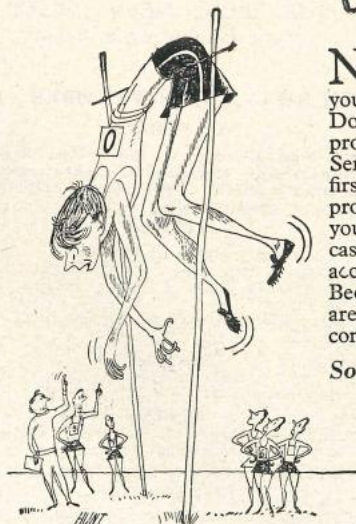

There was, however, some very keen competitions, with ground records set up in the 440 yards hurdles in which the Scottish AAA champion, Hannah, was a little lucky to beat Roe; the 880 yards in which Boyd won a well judged race, with an "inches" finish for second place between Thompson and the French Universities 800 metres title-holder, Lockwood, and in the hammer, in which Scott beat the existing distance by 16ft. 1in. The only dual winner, Rains, had a close furlong finish, his time being the same as that of Jarvis and K. A. Robertson. High hurdler Ashibende returned his best time this season. The match result, 96-58 in favour of the U.A.U. was a larger margin than appeared possible, but this was largely due to the disappointing running of some of the Scottish Universities title-holders,

notably sprinter McDonald and high hurdler, J. T. Johnston.

Bad approach.....!

NOT enough speed—or too much—before the take off! But what kind of performance can you expect from silly chaps who don't take Bemax. Don't even know how to approach their training properly. Seriously, you'd be surprised if you knew how many first-class athletes swear by this natural vitamin-protein-mineral supplement . . . unless, of course, you're a Bemax man (or woman) yourself, in which case you'll know that it's the most *repaying* dietary accompaniment of all training exercises. And why? Because Bemax is so rich in the B vitamins, which are essential for muscular efficiency and nervous control.

THE BELGRAVE "20"

By SAM FERRIS

WHAT manner of men are these? On July 6th, in a shade temperature of 88 degrees with a high humidity content, 76 competitors essayed to run the 6th Annual Belgrave "20"—which, on this occasion, incorporated the Southern 20 Miles Championship—and 41 kept right on to the end of the road; kept right on to the end.

Alive to the needs of modern distance running during heat waves, Belgrave Harriers called in, from another sphere — you've all heard of Hell's Bells—a new team of organisers headed by popular County Champion Bill Bird and Club President Tom Carter; Tom's attractive sartorial off-white ensemble must have impressed Deputy Mayor, Councillor N. S. Clarke, burdened by a red-hot chain of office when he exploded the H-bomb contraption which heralded the start and simultaneously scared every living thing, from man to mouse, on Wimbeldon Common.

Most prominent competitor was Len Jones, Southend's answer to Mr. Wonderful. At 41 years of age Len had won the Inter-Counties 20 Miles Championship—and that was only a month ago. The way this athletic veteran set about adding the Southern title to his sideboard was nobody's business; indeed the early pace suggested that Len was not using his uppermost extremity but eventually he proved us wrong by an excellent piece of brain-work for which he must now be ordained Mr. Wonderful.

It was only 16 minutes on the stop-watch

when Mr. W. saw the indicating board for 3 miles; Gebbett, Elkerton, Vivian and Honney were then bunched 45 seconds behind. By five miles the first nine had emerged from the general groups who had settled down to a moderate pace consistent with the heat and their own inclination. "The Champ" clocked 27.45 and was exactly one minute ahead of Elkerton, Honney and Vivian who were 80 seconds up on Richardson. Next came the Butler-Dennis partnership only 20 seconds away, then McCalla, 15 seconds later, and equal distance in front of Gebbett.

The torrid atmosphere, of necessity, introduced extreme caution amongst those who hoped to complete the three circuits; consequently there was an appreciable slackening of pace which accounted for large gaps in the field and the fact that only the first five were inside standard time. Apparently unperturbed by the heat, Len Jones rolled past the 10 miles point around 56.30 and was now 1min. 45secs. ahead of Phil Vivian, who was being hard pressed for second position by Ken Honney, with Ted Richardson a further 1½ minutes in rear. Another full minute elapsed before Syd Beale, Geoff Winchester and Reg Butler came along in close formation and out of sight of any others.

Fifteen miles in 1.25.50 gave "Chief Breadwinner" over 3½ minutes lead; a gap which he made impossible for any rival to close—a "Cumberland Gap" forsooth—and he went on to record a time which only those present could appreciate. Meanwhile the persistent Ken Honney had drawn level with Phil Vivian but later forged ahead to take his second consecutive Southern "20" runner-up medal and lead the consistent Walton team to their fourth successive Southern "20" team title.

Ted Richardson and Geoff Winchester made it a field day for Walton by adding handicaps to their collection.

Devotion to bounden duty is an inherent trait in the English character and the British Red Cross Society are imbued with this distinction. It is comforting to have them around even when one feels good—and a Heavenly blessing if one is in need of succour. Nice "cups of tea" in more senses than one—and how their mobile Canteen was appreciated by the many thirsty and most grateful spectators!

WOMEN'S A.A.A. CHAMPIONSHIPS 1957

White City, London, 5th and 6th July

IN uncomfortably warm, humid conditions, the W.A.A.A. in a period of just over nine hours spread over two days, carried through with commendably smooth organisation, a long programme extended by the inclusion of Intermediate and Junior events.

It is true that there were gaps in the progress reports from the arena and that some of the spectators complained of lack of advance information, but there was no lack of interest in most of the events and ample evidence, particularly in the intermediate and junior events, that there will be many aspirants, well coached and trained, for places in our 1960 Olympic team. The attendance was, unfortunately, depressingly low, mainly no doubt because of the clash with the sound and T.V. Broadcasts from Wimbledon, Henley and Trent Bridge.

The Senior Events, in which nine titles changed hands, provided three "Best Cham-

pionship performances," and some very keen competition.

The sprint title holder, June Paul, defended both, but it was apparent in the preliminary rounds that she was hardly fit enough to retain either with Heather Young (Armitage) so well tuned up. She did eventually have to be content with fifth place in both races, won convincingly by the Longwood athlete, whose 100 time was only 1/10th sec. outside record and 2/10ths better than that of the runner-up, Madeleine Weston.

For the second year in succession, Janet Ruff, set up British All-Comers', British

National and English Native records for the 440 yards, clipping 1/10th second off her 1956 time of 56.5secs. As this distance was recognised last December by the I.A.A.F., presumably in due course that organisation will ratify a first world record, for which the contenders would seem to be the Russian, Itkina, with 53.9, the Australian Nancy Boyle, with 56.3, and Janet, with 56.4. The existing "championship best" was, incidentally, equalled by G. V. Murphy, who had the best heat time of 58.1 and deserved the honour of "runner-up."

Diane Leather's attempt to add the half-mile title to her mile honour succeeded with comparative ease. In the shorter distance she was soon at the front, completing the first quarter in 62 seconds and beating Phyllis Perkins by some 10 yards in a time 2/5th sec. outside her record. The mile field of 13 was headed at the first bend by A. Oliver and the Turkish athlete, G. Giray, but Leather was soon challenging and, taking over from Oliver at the quarter distance, strode out to lead M. Bonnano by 10 yards at the half-mile, increasing this distance to 35 yards by the finish. With lap times of 71.6, 73, 76.9 and 73, she beat by 4.8 seconds the existing "best performance" of 5 mins. 1 sec. which, greatly to her credit, was equalled by the runner-up, M. Bonanno; Roma Ashby was never challenged over the last half-mile for 3rd place, but the Turkish runner "came again" in the last furlong, to take fifth place.

The mile walk title was retained by D. Williams, not surprisingly in the oppressive conditions in a slower time than last year.

Scratching from the long jump, in which Sheila Hoskin failed to qualify, Thelma Hopkins concentrated upon the high jump and

D. I. R. Hoppit (Ilford) winning the Southern Junior high jump Championship at 5ft. 10in. at Battersea Park. E. D. Lacey

hurdle titles. Her heat and second round running with 11.8 and 11.7 secs. in the hurdles, undefended by Mrs. Elliott, was an obvious challenge to Iris Pond and Carol Quinton, and indeed, she won the final fairly comfortably in 11.4. The Belfast student did not, however, have things all her own way in the jump, in which five competitors cleared 5ft. 3in. In company with Mary Bignall, eliminated at the next height, and a newcomer, Mary Etherton. Thelma cleared 5'4". Both the remaining jumpers cleared 5'5" with their last attempt and failed at 5'6", but the University girl gained the title because the Isle of Wight schoolgirl had had one more jump throughout the competition than she had done.

Mrs. Persighetti set up a third "Championship Best," with a 19'3½" long jump and with her last jump, J. Whitehead replaced C. Hamby as "runner up."

With Suzanne Allday and D. Orphall not defending their throwing events titles, the shot, weight and javelin produced no outstanding results, the distances for each of the placings in each event being less than the corresponding ones in 1956.

In the Intermediate events "best performances" were set up in the 100 yards, 440 yards relay, won by Selsonia through a terrific last leg by M. Weston, in the discus and in the javelin, and in Junior Events in the 70 yards hurdles and high jump, while both J. Gaunt and V. A. Bird equalled that for the intermediate high jump, as did C. Theaker for the junior 100 yards. Last year's Junior title winner, D. Hyman (Hickleton Main), justified her sprinting promise by winning the Intermediate sprint in a time which, like that of Heather Young, was only one-tenth off the English Native record!

Youths and Senior Events next week

WALKING (contd.)

which occur on such an expedition, but we must hand out praise to the little Smethwick foundry worker, Billy Watson, of Lozells, who finished last but became the first man to complete eight successive "hundreds" — and he accomplished the task with no attendant!

New Centurions were Ridley, Resta, V. T. Webb (Godiva), H. Hooper (Poly.), L. Soane (Met.) and H. Martin (Trowbridge).

To-day's event. 55 entries received for the Birmingham Outer-Circle 25 Miles, Aston Villa Ground, 1.30. This is below average but no doubt affected by last week's Centurion effort.

Walking Results held over until next week.

THE ROSICKY MEMORIAL MEETING

By Armour Milne

TWELVE nations, in addition to the pick of Czechoslovakia, had representative athletes in the line-up for the sixth Evzen Rosicky

Memorial Sports Meeting in Prague, on June 16th-17th.

There is always a thrill when two or more

athletes hurl themselves across the finishing line in a cluster, and that brand of excitement was certainly forthcoming in the final of the 110 metres hurdles, where Eamonn Kinsella, of Eire, who had shown 14.3 seconds in winning his heat, was edged out of the decision by Stanko Loriger, Yugoslavia, by what could not have been more than a couple of inches, in precisely the same time.

But for sustained thrill one must select the 5,000 metres in which for four of the five kilometres five men were always there with the semblance of a chance, Petr Bolotnikov, the most improved Soviet runner of the year, Mirko Graf, Emil Zatopek, and Miroslav Jurek, all of Czechoslovakia, and Gunter Havenstein, of the German Democratic Republic.

Havenstein was the first to show signs of wear and tear. Then Jurek peeled off the bunch, showing that he is not yet ready for the toughness of international competition, but it was all Graf over the last lap, where this gutty runner showed that last season's running was no fluke by running Bolotnikov into the ground to win by 30 yards, while Zatopek, coming along too late at the finish, got to within a dozen yards of the tiring Russian. A time of 14:06.2 by the winner was exceptionally good on a very warm day. Bolotnikov, to my mind, paid the penalty of trying to do a Kuts on the field with a spectacular racing first quarter. Zatopek, never able to hold fast starters, lagged as much as 40 yards down within a lap and a half, then quickly closed the gap despite the determined pace being set by the leaders. The form of Zatopek showed that the old warhorse is by no means done and even Zatopek would not be surprised if he himself ran even faster than the 14:12.0 he did behind Graf and Bolotnikov.

Stanislav Jungwirth once again showed how good he is as a front runner when he ran away with the 1500 metres after a local runner had cut out an over-fast first 400 in 57 seconds and Jungwirth himself had passed the 800 metres mark in 1:59.0.

The marathon, in which Fred Lester, Australia, was the only foreigner to start, was a disappointment. The day was exceptionally hot, but the heat was tempered by a strong, gusty wind, blowing most of the time against the runners. Lester, lacking racing fitness, packed up at 20 kilometres after running well up fourth, his thighs giving out on him. The winner was Valter Bednar, the only man to beat 3 hours, something unusually slow for marathons these days.

The high jump was remarkable for the fact that 13 men cleared 6ft. 0 $\frac{1}{2}$ in. or higher, 11 of them being Czechoslovak athletes. Australian Barry Donath in the shot put had impressive

company and it was not surprising that, although he did 52ft. 3 $\frac{1}{2}$ in., he was only sixth. He had throws of 50'5 $\frac{1}{8}$ ", 52'0 $\frac{3}{8}$ ", 51'2 $\frac{3}{8}$ ", two successive no-puts, and 52'3 $\frac{1}{8}$ ".

Czechoslovakia have unearthed another highly promising hammer-thrower in Karel Muzicek, 20, a tall, barrel-chested, red-headed athlete, who gave the Soviet thrower Tkatchev something to think about with throws of 185, 191, 187 and 189 feet with two no-throws in between.

"Two-Ton" Tamara Tyshkevich, the 17-stone Soviet women's Olympic shot put champion, had matters all her own way in her event, her six puts being all better than the best by the runner-up, Tyshkevich, always smiling, got in these distances: 51'6 $\frac{1}{4}$ ", 52'3 $\frac{1}{4}$ ", 51'1", 50'11 $\frac{1}{4}$ ", 51'10 $\frac{1}{4}$ ", and 49'11 $\frac{1}{4}$ ".
