Brilliant Sprinting In Welsh Championships

DESPITE the dismal conditions, ten records were broken or equalled in the 49th Welsh Senior Championships at Cardiff last Saturday. Ron Jones scored a brilliant victory over Britain's No. 1 sprinter, Lynn Davies, in the hundred yards with a 9.6 clocking. Terry Davies also pushed Lynn, finishing third in the same time. Peter Walker, after a number of disappointments during the past two years, finally showed what he is capable of with a great 49'4½" triple jump and disposed of International Graham Webb in the process.

In the ladies' events, Liz Parsons was head and shoulders above her rivals in the sprints, recording an excellent double. The other highlights were the new hurdles record set jointly by Wendy Palmer and Chris Jenner; Gloria Dourass' new quarter record; and Hazel Andow's usual shot/discus double.

Dissatisfaction In Wales

SELECTIONS are always liable to upset someone, but I cannot recall such widespread annoyance as the omission of Graham Webb and John Lister from the Welsh Empire Games team has caused in the Principality. Thirty-three athletes and officials have associated themselves with a letter written by Clive Williams, club captain of Birchgrove H. in which the inclusion of a women's relay team (Misses Parsons, Dourass, Gill and Appleby) at the expense of Webb and Lister is strongly criticised.

This body of opinion—including many well-known athletes—considers that a team which has never raced or trained together and contains two athletes who, on current form, do not deserve their places, should never have been selected, particularly so when no reserve has been named and indisposition of just one member could put the whole team out. On the other hand they cannot understand how the omission of Graham Webb or John Lister could even have been contemplated.

THESE Welsh men and women are not the only ones who are hopping mad, for a meeting at Erith last Saturday has had a similar effect down South. Erith A.C. have done much good work for a small club in putting on open events in recent years, but this time they apparently tried to bite off more than they can chew, and an inter-club meeting embracing something like 15 clubs got completely out of control, due, I understand, to there being too few officials to cope with the large number of competitors. Reader Jeff Matthews, of Cambridge H. has written a strong and lengthy letter about the "diabolical lack of organisation," and I have heard many similar comments from other athletes. A wet afternoon did not help matters and many went home without competing, so far were the organisers behind time. Mr. Matthews writes "This sort of thing

will really have to stop, it not only gives the sport a bad name, it is also disheartening to young athletes who travel perhaps 50 miles or more to race in pouring rain against weakened fields, due to disgusted athletes having gone home without competing long after their event was due to be held."

THE English Schools A.A. also come under fire for their clash on July 8th/9th with the A.A.A. Championships. Better this than with the A.A.A. Junior Championships, and it is not easy to avoid clashing these days. So I cannot go along with David Cocksedge who writes: "It is high time the E.S.A.A. stopped hypocritically insisting that there is any sort of liaison between themselves and the governing body." There is liaison between the E.S.A.A. and the A.A.A., but it is not easy for the E.S.A.A. to avoid clashing with either the A.A.A. Senior and Junior, and the Women's Senior and Junior; they also have the Schools International to fit in, and there are those who feel that their Championships should not clash with some "A" level examinations. Hardly surprising if they tend to feel that whatever they do, they can't win.

EVENTS this week-end include the A.A.A. Decathlon at Welwyn Garden City; Women's A.A.A. Championships at White City; Southern Junr. and Yth. Champs. (Pt. 2) at Hurlingham; Midland Junr. Champs. at Stafford; Northern Junr. and Yth. Champs., at Middlesbrough; Inter-Area at the Birmingham Games, Salford Park; Junr. Commonwealth Games Appeal by the A.A.A. Hon. Secretary

Dear Sir,

At the last Commonwealth Games, held in 1962 in Perth, Australia, English athletes won 20 medals (7 gold, 8 silver and 5 bronze). Now we are all looking forward to this year's Games in Kingston, Jamaica. The rest of the Commonwealth will provide formidable opposition in all events, especially now that African athletes are going from strength to strength, but if we send our best possible team to Jamaica we can surely expect many successes to come their way.

Although the England team which travels to Kingston will cover 9 sports, athletes will account for about 40% of the competitors. For the first time the Government has made a contribution towards the cost of sending the team—but the bulk of the money needed must still be raised by public subscription. Commerce and industry, the Services, etc., are responding to the Appeal organised by the Council for England, but it is only right that the sport itself should make its own contribution.

The target which athletics has been set is £4,000. A number of Clubs raised useful sums soon after the Appeal was first launched, but the number of contributions sent in recently has been disappointing.

We realise that Clubs have no money of their own to spare these days. But collections taken at major Club fixtures or at social events all over the country can bring in sums which together will enable us to achieve our target. We hope that every affiliated Club which has not so far contributed to the Appeal will organise a collection during the next few weeks, and thus help ensure that every athlete worthy of the honour is able to compete at Kingston.

Yours sincerely,

Barry Willis,

Hon Secretary, A.A.A.

Donations should be sent to Appeal Secretary, B.E. and C.G. Council for England, 12 Buckingham Street, London, W.C.2 (from whom collecting boxes can be obtained).

DANGERS

Dear Editor,

Some of your readers may have heard of the recent attempt on the "Three Peaks record" by a couple of Birmingham students with its tragic results.

For the sake of relatives or friends who may read this letter I won't go into details. What I would like to stress to any future participants in this type of event is for them to contact someone or some organisation who has knowledge and experience of this form of athletics. They could start by writing to me, I will certainly give them all the help and assistance I can.

Yours sincerely,

Desmond Oliver,

SELECTION

Dear Mr. Editor,

So once again, Brian Nott has led the crusade in defence of a poor, downtrodden athlete, who has been cruelly victimised by evil, uninformed selectors! And who is better informed to provide impressive evidence as to why one runner is infinitely better than another and then publicise it through every possible media, in the name of justice, than good old Brian!

However, just in case readers have forgotten, this is not the first time Mr. Nott has criticised selectors, in fact he does it quite often, for-

tunately not always in *Athletics Weekly*. Woe betide any selector whose views differ from those of the highly-knowledgeable Hon. Statistician of the Road Runners Club.

Most people differ in their opinions of relative athletic performers and, in the case of Bill Wilkinson and Derek Graham, the final choice must have been very difficult. Perhaps events will prove that they have made a mistake but, by and large, our selectors do an adequate job.

I have personally felt the lash of Mr. Nott's verbal and written criticism recently, so may I respectfully ask him to save vital space in an excellent magazine by keeping most of his thoughts to himself, so preventing much unnecessary bad feeling. If he cannot repress the urge to put pen to paper, how about an apology when he is proved wrong?

Like the selectors, Mr. Nott, you are not always right.

Yours sincerely,

J. S. Page

Graham finished second with a personal best time.

Dear Mr. Editor,

It is a common failing to be wise after the event, but having just received my copy of *Athletics Weekly*, dated 18th June, I have read with interest Mr. Nott's attack on the selection of Derek Graham in preference to W.

Wilkinson for the recent U.S.S.R. v. Gt. Britain and N. Ireland match and it would now seem that in view of Graham's performance in the 5,000 metres the selectors were fully justified in their choice.

It would be easy for me to be prejudiced in this case as Graham is a fellow Irishman, but, I would raise these two valid points in answer to the various criticisms levelled by your correspondent.

Unfortunately, home-based Irish competition does not extend Graham to the full, whereas Wilkinson, being resident in England, is assured of top-class opposition at virtually all the meetings he attends, which, at this time of the season are numerous—thus Wilkinson has many more opportunities to improve upon his time than does Graham.

Mr. Nott seems to have conveniently forgotten Graham's cross-country achievements of last winter when he met and defeated the leading English runners, rounding off the season with a second in the International Cross-Country Championships at Rabat. I feel that this proves my theory that when the opposition is available Graham will more than justify his selection.

Until such times, however, as these two athletes come into direct opposition the arguments for and against will be rife—perhaps the forthcoming Empire Games in Jamaica will provide us with the answer.

Yours faithfully,

David C. Seaton

UNFORTUNATE

Dear Sir,

As one who is concerned with athletics at both club and school level, I find it very difficult to be patient with (a) club officials and parents who decry schoolmasters and what they do for the sport, and (b) schoolmasters and mistresses who show not the slightest interest in the sport outside school affairs. Both parties do the sport a dis-service by sniping at each other, and would be well-advised to make more effort to see each other's point of view, and above all, to help each other.

Mr. Daniels' letter is a typical example. He quite obviously has no conception of the problems involved in selecting a county team for the English Schools' meeting. After reading it, I contacted our Herts. Schools' A.A. secretary about it. He had heard from the local press and Annette's headmaster, who was most considerate and understanding about it, but nothing from Mr. Daniels. Surely it should have been common courtesy for Mr. Daniels to have approached our secretary first, to make sure that it was not possible to obtain any satisfaction, before rushing into print?

The Herts. S.A.A. must unfortunately take the responsibility for the mistake, but somewhere along the line between Annette's school

and the Herts. S.A.A. selection committee meeting, an individual must be held responsible for the error. Although a great deal is known about many of the boys and girls who compete, the selectors cannot be expected to know everything if they are not told. Nothing was said by anyone at the selection meeting about other performances by Annette, when her name came up for consideration. The cold fact to us was that she had not reached the county standard, and was not only nowhere near the national standard but was also outside last year's sixth place performance! With no other information to go upon, what else could we do but omit Annette?

It is unfortunate that a parallel case be quoted. Another discus thrower was selected, although her performance was below county standard. A letter from her coach was produced at the selection meeting, outlining her previous performances this season and mentioning her third place in the 1965 All-England. After due consideration of all the facts, she was put in the team. If this had been done for Annette, she would now find herself with a ticket for Blackburn.

Yours faithfully,

S. J. Caffall

A FAIR CHANCE?

Dear Sir,

Now that most teams have been chosen for the All-England Schools, let us reflect on the method of selection.

We hear tell of selectors taking into account weather and such-like at the Area Schools Championships but we notice that all athletes must do very fast times and very good distances. They seem to forget that an athlete is

This Was A Night To Remember

AMONG my most treasured memories in athletics are those almost invariably successful relay world record attempts that were a feature of the White City floodlit meets of a decade and more ago. In many cases the records achieved were pretty feeble but that did not detract from the excitement of the occasion. Athletics is essentially an individual's sport but there is no more thrilling sight than *your* relay team beating off the opposition—and if that team is found to have run faster than any previous formation, then that is even more of a reason to stamp and cheer. Cherished memories of such glamorous nights and their heroes—Gordon Pirie, Bill Nankeville, John Parlett and Roger Bannister among them—came flooding back at the Crystal Palace on June 22nd when I, one of nearly 10,000 deliriously happy fans, rose to the four British half-milers who knocked spots off the world two mile relay record. The prolonged roar of approval by the crowd, so rarely encountered these days at the White City, produced that tingling sensation of actually participating in a little bit of history.

Graeme Grant, the 20-year-old Scot who was unknown to the British athletics public at large prior to Whitsun, laid the foundation for ultimate success with a fine opening stage of 1:49.5, two yards down on West Germany's Walter Adams but a dozen yards clear of the USSR, Czechoslovakia and Belgium, with the Republic of Ireland trailing a further ten yards back. Mike Varah (21) ran with splendid judgment on the second leg. He dropped down to 4th along the back straight of the second lap but produced a scintillating burst of speed 50y from the end to hand over in first place, four yards ahead of the Germans with the Czechs a close third, followed by Belgium, the USSR (15y behind Britain) and Ireland seemingly right out of it 40y behind the leaders. Varah's time was an excellent 1:48.9.

Chris Carter (23) shot away to the accompaniment of a deafening roar of encouragement, his lead immediately augmented as the Germans had dropped the baton. He sped around the first lap in 52.0 but one man was beginning to pick up ground, even at that speed. It was none other than Olyeg Raiko, the brand new Soviet 1500m record holder. In all, Raiko made up about eight yards—he completed his stint in a startling 1:47.0 against Carter's 1:48.0—but John Boulter took over with a seemingly safe enough lead of six yards over Vadim Mikhailov. West Germany was third, 20y behind the Russians, while a spirited 1:49.0 leg by Derek McCleane had brought the Irish back into the picture although still last.

Boulter, veteran of the team at 25, raced away like a quarter-miler. Literally... for he covered the first lap in a sensational 49.8, perilously close to his best flat-out 440 time of 48.8! Coach John Le Masurier acted quickly and shrewdly: "Fifty-two" he called out to Boulter, who a little later was to reflect on the fact that a 52 lap had never before felt quite so bad. At the bell, Boulter's lead over Mikhailov was 20y but inevitably it dwindled over the final furlong. Such is Boulter's tremendous form at present, though, that he managed to complete the distance in an heroic 1:48.2—ten yards clear. There was a colossal dust-up for third, with Germany's Herbert Missalla narrowly holding off Noel Carroll, whose 1:47.4 anchor was the second fastest leg of the race and re-established him as one of the prime contenders for the European 800m title.

The world record of 7:17.4 set in May by the University of Southern California was shattered. The British quartet was timed at 7:14.6 (1:48.65 average)—exactly four seconds per man faster than when Bill Nankeville, Albert Webster, Frank Evans and John Parlett set their record in 1951. The Soviet team was also inside all previous figures with 7:16.0, while all six squads bettered Ireland's European record of 7:21.8. Britain's time also beat Belgium's 10-year-old 4x800m record of 7:15.8 (the oldest of all men's world records) and Boulter was unofficially timed at 7:12.0 as he passed the 3200m mark.

Earlier in the evening we had been privileged to watch one of the greatest mass distance races in history, with Anatoliy Makarov (USSR) gaining the possibly unwanted honour of becoming the first man ever to finish 7th in a 5000m race with a time of under 13:40! The race was somewhat reminiscent of the Tokyo final, for Ron Clarke tried unsuccessfully to shake off the opposition with a series of murderous bursts only to be run out of it in the closing stages. The first mile was covered in 4:21.9, with 13 of the 14 starters packed tight (John Coyle, presumably unwell or injured, had already been tailed off and he dropped out soon afterwards). The position at 1½ miles (6:35.2) was that Clarke led narrowly from Mohamed Gamoudi and Keisuke Sawaki, with Bill Wilkinson a couple of strides behind in 4th spot ahead of Makarov, Tony Cook and Lajos Mecser. Clarke and Sawaki (a 2:16:06 marathoner who has run a 7:57 3000m) came up to 2 miles together in 8:46.4, followed by Gamoudi (8:46.8), Mecser (8:47.0), Wilkinson (8:47.4), Makarov (8:47.6), Henk Altmann and Mike Wiggs (8:51.0), Geoff North (8:51.2) and Jim Hogan (8:51.4). What a field!

The bell rang in 12.39.6 with seven men

still in contention and the excitement was intense. Just one second covered the seven still as they flashed past the 3 miles mark. Entering the straight it looked like Gamoudi's race, for it was clear that Clarke couldn't match his finish, but—just like Billy Mills in the Olympic 10,000m—it was 23-year-old Sawaki who tore past the Tunisian in the final few yards. His 56.6 last lap carried him to victory in 13:36.2, fastest ever in Britain and an Asian record. Gamoudi and Mecser broke their own national marks, while fifth-placer Altmann was clocked in a staggering 13:39.0—a cool 28 sec. inside the previous South African record. Bill Wilkinson ran magnificently also to finish in 13:39.6 for third spot on the UK all-time list behind Wiggs and Pirie. Wiggs, himself, was never really in the hunt and finished only just ahead of Jim Hogan, who set a personal best of 13:57.0 only 11 days after his marathon exertions. Allan Rushmer finished 12th and last with personal bests at both 3M and 5000m; it was that sort of race.

Utterly overshadowed by these two epic events was the match between Oxford and Cambridge and Cornell and Pennsylvania, won by 9 events to 7 by the home side. Even Wendell Mottley's superb quarter in 45.9, equalling both the Commonwealth and UK all-comers' record and an incredible achievement in view of the knee trouble Mottley has been suffering all season, went practically unnoticed. Also of note was a fine junior mile and a prolonged pole vault competition (it ended after 11 p.m.), in which Mike Bull not only finished 2nd with an Irish record of 15'1½" but added to his collection of vanquished 15'9" or better performers the scalps of Pavel Jindra, Klaus Schiprowski and Aulis Kairento. A very fine meeting, sponsored by the *Daily Mail* with the *Evening News*, and my own congratulations go to Terry O'Connor who made such a success of organising and presenting the invitation events. He proved that athletics, in the right hands, can still be a top-ranking spectator sport. My thanks also to the NUTS for the

detailed relay "splits" and 5000m intermediate times.

McStocker Surprises In Uninspiring Southern Championships Meeting

IT was a grey, rainy afternoon at Welwyn Garden City last Saturday and there was little at the Southern Championships to dispel the gloom. The soggy track had something to do with it but the meet as a whole never really came to life; after the richness of the Russian match and the Crystal Palace affair we were back to the mundane, with a vengeance. An area title is still something worth winning, however, and it was pleasing to see two possible stars of the future seizing their opportunity. Bob McStocker (19), last year's Southern junior 220 champion, defeated a clutch of internationals in the 100y in 10.2 against the wind. This small (5'6", 132lb) and nimble Ilford runner, who is coached by Alf Pells—the man who helped Pat Morrison to the top—has run 9.8 and a windy 9.7 this season. He scratched from the furlong final, in which Dick Steane got the better of John Adey and Dave Jones. The other promising new champion was 9.9 sprinter Mike Bell (22), who in his first season of quarter hurdling ran 53.3. Ray Roseman, who has been around for a long time (he ran 4:08.2 in 1959), won a major title at last. A third lap of 57.7 carried him 30y clear of the field in the manner of Peter Clark at his best and he was still 15y ahead of John Thresher at the end in 4:06.0. **M.W.**

Championship Bests by Barrington, Payne & Holmes in Midland Championships

A CLEAN sweep by North Staffs runners in the 880; another polished performance by David Hemery; and career bests by David Barrington in the 440 hurdles and Ken Holmes (19) in the javelin. These were the highlights of a rain-affected Midland championships meeting at Smethwick last Saturday. The results also showed the lack of an outstanding sprinter or quarter-miler and depressingly, the ever-green 51-year-old Dr. Konstanty Maksimczyk was still good enough to win the discus for the eighth time in ten years.

Championship & Personal Best by Ron Wallwork in Northern Championships

JOHAN WATERHOUSE (20) was an outstanding winner of the three miles at a rain-sodden Hull track last Saturday. After withstanding some sharp bursts from Chris Fay and John Hillen, the Oxford University athlete decided the race by running the last three laps in 3:16.0. Alan Simpson was with the pack at the bell (59.9) in the half mile but quickly broke away and won the race with a 53.8 second lap. Other notable winners included: Ernie Pomfret who set a championship best in the steeplechase, after falling on the last lap; Bruce Fraser who had three throws of over 180 feet in the hammer; and Ron Wallwork who broke a 55-year-old record in setting a new championship best in the two mile walk.

not a machine capable of great performances on every big day; consequently prospective All-England winners are not even selected as their times in these Area champs. were not considered very good. I could quote several instances but I will not embarrass any committee, even if their decisions do seem rather harsh.

Surely if an athlete is capable of a performance comparable with the All-England standard, then ample opportunity should be given him or her to expound it.

A questionnaire should be devised by all counties to allow even as many as the first four in each event to give their best times and distances. By this I do not mean that a fourth placed man should take preference over the winner of a particular event, but give these young athletes at least the chance to let you know what their best performances are, so that nobody is overlooked and prospective medallists are included in the county team.

Western District 98, Eastern District 94, at Pitreavie, June 8th. The half-mile was the high-spot of the meeting. In this Dick Hodelet leapt into an early lead followed by Mike McClean and Adrian Weatherhead. This was still the the order at the bell (53.2) and 660 but with 200 yards remaining McClean moved to the front and Hodelet looked beaten. In the home straight however Hodelet came again to edge past McClean and break the Scottish National record of 1:50.7 set in 1957 by J. R. Boyd. The three miles saw a terrific duel between Fergus Murray and Ian McCafferty. The twenty-one-year-old McCafferty led for the first nine laps, but then Murray moved to the front and broke away over the last lap. **100:** 1, B. Nottage (E) 9.8; 2, L. Piggott (W) 9.8; 3, J. Scientifically designed to meet the requirements of the discerning modern sportsman, Apollo tubular sporting equipment is light, strong, reliable and long-lasting. Time and again club committees have found that Apollo equipment is as valuable to the beginner as it is essential to the expert. This is why more and more leading coaches recommend Apollo.

JAZY NEARS HERB'S RECORD

EUROPEAN

MICHEL JAZY traditionally strikes great form in June and this year is no exception. He set out to break Josef Odlozil's world 2000m record (5:01.2) on the 333m track at Anzin on June 11th but was foiled by the faulty pace judgment of the hare, who whizzed through the first 500m in a ridiculously fast 1:11.2. Michel Bernard, running on his home track, led past 1000m in 2:29.0 but Jazy was on his own from 1100m onwards. He passed 1500m in 3:47.0, three seconds slower than Odlozil, yet finished so fast that he was merely 0.2 outside at the end. The all-time list now reads:—5:01.2—Odlozil, 5:01.4—Jazy, 5:02.2—Rozsavolgyi. Four days later, at Rennes, he deprived Jurgen May of the European 1500m record (3:36.4) with a 3:36.3 clocking for second spot on the all-time list behind Herb Elliott's 3:35.6. Again, his once bitter foe but now close friend, Michel Bernard, came to his assistance by setting a hot pace between 700 and 1100m. Intermediate times were: 400m—58.5, 500m—1:13.6, 800m—1:58.5, 1000m—2:27.4, 1200m—2:55.6. Jazy covered the last lap in 54.2. Jazy, who turned 30 on June 13th, estimates he is capable of 3:34.5 (breaking his Rome conqueror's record remains his foremost ambition) and confirms that he will be going for the 1500-5000 double in Budapest.

DANEK SHATTERS RECORD—UNOFFICIALLY

LUDVIK DANEK shattered his own discus world record with an amazing throw of 216'9"/66.07 at Long Beach, California on June 7th, but the mark is unlikely to be approved. The occasion was an unsanctioned all-comers' meet and reportedly only one qualified discus judge was on hand. The throws were marked by another competitor. Before the meet, the Czech predicted a world record "as a gift to the people of Long Beach. They have been so nice to me." The 'record' came on his sixth throw, his previous efforts landing at about 201' 203' 208' 209' and 206'. Canada's George Puce was 2nd at 195'10 1/2"/59.70. Another phenomenal performance at the meet came from Ralph Boston, who jumped **TWENTY EIGHT FEET ONE INCH (8.56m)** only to sit back for a measurement of 27'0"/8.23. There was a cross-wind blowing and Boston had other leaps of 26'6"/8.07 and 26'10"/8.18.

There is some doubt as to the legality for world record purposes of Tommie Smith's 20 flat furlong. A defective cartridge in the starting gun produced barely a flash and of the three official timers one said he saw a little smoke, one saw nothing and one claimed he saw a little flash. Runner-up in the race was quarter-miler Lee Evans in 21.0, not Jim Hines, whose 20.9 was recorded in another section of the event. Rene Matison's 9.0/9.1 century (only two watches) can be ruled out owing to a rolling start, while George Anderson's 9.2 100y is also in the doubtful category as no flash was observed.

Neill Duggan's last lap in his 3:56.1 mile behind Jim Grelle was 56.0. The early pace was cut out by non-finisher Mike Eck (58.1, 1:59.2) and Duggan led for the third lap to pass the three-quarters in 3:00.1. Grelle took over midway along the back straight and produced a 26.6 final furlong. Dave Bailey became the first Canadian under four minutes and Californian Tim Danielson (18, 5'9", 140lb) hacked 6.8 sec. from his best in clocking 3:59.4. The 5000m saw international steeplechaser George Young muster a 56.9 last lap to win in 13:40.2 (previous best of 14:10.8!) from Ron Clarke, who had flown in only the previous night. Billy Mills placed 4th in 13:44.8 close to his best although it was his first race of the season and he has been training only since April 2nd following a five-month lay-off!

Jim Ryun's 220 splits in his US record mile of 3:53.7 were 29.3, 30.6, 29.5, 29.1, 30.5, 29.5, 28.8 and 26.4. His world record 880 followed two hours after he had run 1:51.0 in a heat. Next day he ran a 47.8 440y relay leg as well as a 4:02.8 mile. Theron Lewis ran his great 45.2 quarter, second fastest ever, from the 7th lane. He said later: "If I had known

The vastly improved Neill Duggan is now the second fastest British miler ever.

Stuart Burgess

how fast I was running I could have gone a little faster." He hopes to compete through 1968—"Even though I'll be an old man of 24 by then."

With The Ladies

"NAN BROWN" TROPHY

AFTER a lay-off due to a slipped disc, Janet Simpson made her return at Croydon on June 18th. Running 440 for the first time in her life she toured a 55.9, the 4th fastest time in the country to date, after going through the furlong in 25.2. Janet said "I slowed a bit because I did not know how I might feel over the rest of the way but if this is quartermiling I think women ought to think of 50 seconds as perfectly feasible".

Splendid Double By Alan Pascoe

ON a pleasant afternoon, which quickly gave way to relentless drizzle, Alan Pascoe (11.10.1947) last Saturday scored a surprising double at Hurlingham Park in Part I of the Southern Junior and Youths Championships. After running a valid 14.3 to equal Andy Todd's British under 19's record in his hurdles heat, the Portsmouth schoolboy set a new best of 14.2 in the final, a full nine-tenths ahead of his nearest rival. Although he was straining from start to finish Alan could well go faster if pressed, and he himself hopes for 14.0 seconds. The second part of his double was more unexpected. After finishing no better than second in his heat and semi, the 6'0", 147lb Pascoe trounced the best sprinters the South of England could offer in a rain-soaked furlong, clocking a personal best in the process. Amongst his victims was Jim Vivian who has yet to reach complete fitness after early season injury.

Race Walking

By L. W. WOODCOCK

THE 1966 Nijmegen Marches: The annual Dutch Marches at Nijmegen take place this year from July 26th to 29th inclusive and will celebrate their Golden Jubilee. When they were first held in 1909 there were only 35 participants and these were all military. After the event was thrown open to civilians the number of contestants grew rapidly, until last year 14,000 walkers from 17 nations took part. To mark this year's anniversary a special Bronze statue is to be unveiled in Nijmegen depicting two typical walkers. Details may be obtained from the Secretary, "Vierdaagse," Nijmegen, Holland.

I.A.A.F. Promotions: When the IAAF meet during the European Championships at Budapest one item on their agenda will be to take a decision on the proposals to alter the arrangements for the European Championships and the European Cup competition. The European Walking organisations will be watching these decisions very closely because of their impact on the "Lugano Cup" Competition. If the "Lugano Cup" is held next year, as expected, an interesting new entrant will be South Africa. George Hazle, the South African Record Holder, has agreed to return from retirement to captain their team.

Enfield stand in for Woodford: It can now be announced that the Club who has agreed to take over the annual Woodford Green Open 5 Miles is the Boro' of Enfield Harriers. So as to save the event from lapsing from the racing calendar Enfield will, for this year, take the event to the Chaseside Schools, Enfield on Saturday, 10th September. Start: 3 p.m. Intending entrants should specially note that for this occasion the Race Secretary will be:—Mr. L. Hey, 70 Durrants Road, Enfield, Middlesex.

Today's Events: Welsh 20 Kms. Championship. Stafford WC Open 6 Miles, Southern AAA Junior 1 Mile at Hurlingham.

No Gauge—So No Record For Hamish

IN showery conditions at New Meadowbank, on June 24th, Hamish Robertson won the triple jump with a National record and personal best performance of 48'8½". Because of the absence of a wind gauge, however, this leap cannot be considered for record purposes. In the discus former Junior Champion Peter Nimmo, newly returned from the USA, could throw only 153'7" but this was sufficient to win by a margin of over fifteen feet.

The programme on June 25th was carried out in better conditions and some fine performances resulted. A notable absentee was Menzies Campbell who is suffering from leg strain. In his absence Bernard Nottage, a Bermudan student at Aberdeen University, won both sprints. The half-mile was a sizzler with holder Graeme Grant making the pace a hot one with a 53.8 first lap. As he entered the last furlong Dick Hodelet and Mike McLean challenged but Grant held on to win and break Hodelet's recent National record in the process. Lachie Stewart suffered his first defeat in Scotland this year at the hands of John Linaker in the steeplechase. After dropping the rest of the field early on, the race became a two-man struggle which Linaker won by outstriking his rival. A sign of passing times was 29-year-old Crawford Fairbrother's win in the high jump, his tenth in succession.
