# RADFORD IN GREAT FORM IN INTER-AREA MATCH

**S**PRINTING with greater drive than for many a long day, Peter Radford gained a fine double in the inter-area match at Aldersley last Saturday. He took the wind-assisted 100y clearly from Dave Jones (who made an atrocious start) and later, against a stiff breeze, he was responsible for the rare spectacle of Dave Jones being overhauled in the closing stages of a 220. A few days earlier Radford ran his fastest ever quarter of 48.3. That was exactly the time Bob Setti took to win the 440; Barry Jackson, struggling to regain form, faded pathetically in the straight to record 49.3.

John Cooper again failed by a fraction to equal Chris Goudge's 440y hurdles record. Experimenting with a 13 stride pattern between the 2nd and 6th hurdles, he won in 51.7 by less than a yard from fast finishing Peter Warden who broke new ground with his 51.8. Only recently Warden reduced his flat time to 48.0, a tenth slower than Cooper's best. Later in the relay Warden ran a 48.9 opener and Cooper a 47.5 anchor.

The steeplechase and 3 miles were satisfying races. Maurice Herriott burst away at 2000m to improve his season's best to 8:43.8, whilst behind him three men (Dai Davies for the first time) broke 9 minutes. In the three, Brian Craig was up to his old tricks, running the first mile in 4:21.4 (60y up) and 1½M in 6:37.6. John Cooke led the field past 2M in 9:02.2 and turned in 58.4 last lap for victory in a personal best time of 13:29.6. The place times were equally impressive.

Two other highlights: Arthur McKenzie throwing the discus four feet further than ever before, and an excellent 45.9 relay trial by a women's team lacking Hyman and Rand.

## BEST EVER WOMEN'S MEETING

TODAY'S W.A.A.A. Championship meeting at the White City, sponsored by Bovril Ltd., should be the best ever women's meeting held in this country. On another page Melvyn Watman deals with some of the events and the fine array of overseas stars who will be appearing. From the home angle, one of the best events of the day should be the half-mile, with at least a dozen girls in with a chance of a place and the prospect of a trip to Tokyo. Despite heats in the morning, several should be well inside 2.10, given good conditions—some for the first time.

Other events today include the Southern Junior and Youth Championships (Part 2) at Hurlingham; Midland Junior Championships at Brierley Hill; Northern Junior and Youth Championships at Liverpool; Welsh Youth and Boys' Championships at Bargoed Park; Ryder Trophy at Southampton; Oxford Co-op Meeting; Suffolk Co-op Meeting at Ipswich; Bristol Constabulary Meeting; NABC Championships at Billingham; Gosling Trophy and Welwyn Half-Marathon; Dagenham "5" and Mamore Hill Race.

Replying to a letter from Pete Mellor (page 31) and other comments regarding the times of the 7th, 8th and 9th runners in the Southern 3 Miles, Chief Timekeeper Mr. Joe Ray states "I had a Grade 1 timekeeper doing the running watch, a job he has done on many occasions. The purpose of the running watch is to check the times of the stopped watches, and with the timekeepers available I could cover for the first six. The times taken from the running watch for those after 6th place are declared as a matter of courtesy to the athletes concerned. While I have every sympathy with Peter Mellor, I am sure he will agree that I must accept the official times recorded from the running watch. Indeed, I have no power to alter them and must disregard times brought from unofficial sources, as I see Peter Mellor has in one instance."

The athletes concerned may be interested to know that for ranking purposes the NUTS have decided to ignore the official times and have agreed on the following: Mellor 13:38.2, D. Cooke 13:38.4, G. North 13:38.4.

Readers interested in joining our "A.W." Party for a holiday trip to Amsterdam (Sept. 4-7) which includes a visit to what should be a first-class women's match between Gt. Britain and the Netherlands at Enschede, are reminded that they should book immediately as accommodation cannot be held much longer. Illustrated brochures will be available at the White City this weekend or from our office at 344 High Street, Rochester.

## TRIPLE JUMP RUNWAYS

Dear Sir,

Both the I.A.A.F. and the A.A.A. rules specify that the minimum distance from the take-off board to the edge of the pit shall be 36 feet (11 metres), for senior competition.

There was a recent case at the opening of a new track (with 36 feet as the distance) where a British international triple jumper was having to chop his step in order to commence his jump from on the runway.

Although one appreciates that some competitors in inter-club competition might have difficulty in reaching the pit, it would seem that 36 feet is not always sufficient. The incorporation of a second board at, say, 40 feet, would solve the problem.

Could readers please write if they know of any case where a national governing body of athletics has passed a record set where the initial take-off was from behind a scratch line marked on the runway, or from a white rectangular mark painted on the runway.

Yours faithfully,

P. S. Mackenzie.

## DUM-DUM . . . DUM-DE-DUM

Dear Sir,

I am collecting information on methods in which athletes and other sportsmen learn highly skilled and repetitive movements.

Very often throwers, jumpers and vaulters mutter simple rhymes or melodies to get the right rhythm into their event. The high jumper might murmur dum-dum . . . dum-de-dum, for example, as he approaches the take-off.

Jazz drummers are well-known for their rhythm ditties. Henry Longhurst recently wrote on the ways of golfers, and the use of this method in learning some complicated skills might be quite widespread in sport. In long distance running and swimming just *what* do they think about?

I would be very grateful if athletes would write to me on this matter explaining how they employ the technique in training and competition.

Yours sincerely,

Don Anthony.

## LONGEST WALK FOR WOMEN

Dear Sir,

I was astonished that in reply to a claim that a 10,000m. walk held recently was the longest race for women, Eric Waldron stated that the Guernsey 20 mile Church to Church walk was in fact the longest.

In 1962 and again last year Jersey A.C. promoted an Open Walk over the traditional 12 Parish Churches course—distance 27.4 miles. Each time there were two women contestants. In 1962 Miss M. Smart, of Guernsey, was first in 6hrs. 30mins., and last year our own Miss J. Le Cocq completed the course in 6hrs.26m. 26s. Unfortunately Mrs. J. H. Robert, of Guernsey, went off course when in the lead and eventually retired.

This year, apart from the third Open 12 Parish Churches Walk on Sept. 27th, we are to hold an open marathon over the same course—shortened to the accurate distance—on Sept. 6th. Visiting athletes will also be welcome to our open track championships on July 14th and 16th (6.30 p.m.).

We have managed so far to cater for any athletes on holiday who contact us. Recently (June 10th) we had a call from Gateshead junior, Michael McKenna, and staged an open half-mile race the same evening, the field including our star quarter-miler, 17 year-old Colin Campbell (best time this year 50.1). Colin's best time for the 880 was 2:05 and he ran the distance only for stamina building. It was a great race with Michael leading most of the way and Colin using his speed on the final straight to win by inches, both clocking 1:58.2. Colin is only the third Channel Islander to break 2mins. for the 880.

Yours sincerely,

Ron Robinson.

Hon. Secretary, Jersey A.C.

## ATTENDANCES—AND MORE COMPETITION WANTED

Dear Sir,

Many reasons have been suggested for poor attendances at major athletic meetings and I would like to add a few more. When an international meeting is held, how many posters are displayed advertising the meeting? A person, even a quarter of a mile from the meeting often may not have any idea a meeting is to be held.

Why are attendances larger on the second day than the first? 1963 v. USA, Sat. 10,000, Mon. 35,000; v. W. Germany, Fri. 6,000, Sat. 10,000; v. Sweden and Netherlands, Fri. 2,500, Sat. 4,900; 1964 British Games, Sat. 5,000, Mon. 20,000.

These figures tell us several facts:

1. Crowds will only be drawn in by matches against the top athletic countries, e.g. USA,

and not countries like Sweden and the Netherlands.

2. The athletes have to play their part—world records on the Saturday v. USA. The publicity in the press obviously attracted the crowds on the Monday. 20,000 on the Monday at the British Games—why did they go? Exciting and record-breaking events on the Saturday were given generous coverage in the papers.

Of the people attending the first day, a high percentage are connected with athletics and know the match is taking place, either through this magazine, club or friends. The public are not aware of the meeting being held until the first day's result appear in the newspapers.

Why are all international meetings held in London? Why not alternate them between Midlands, North, Scotland, Wales, etc.? This would surely give a boost to athletics in these areas and, you never know, attendance figures might be higher than at present.

Returning to fixtures. This being Olympic year, surely a good build-up would be matches against Russia, France, Poland, Hungary and W. Germany to get athletes used to Olympic competition. Some of these matches could be triangular e.g. Britain, Russia and France, and at the same time fielding a "B" team ourselves. Only in this way can a team be selected, there being a difference between running against foreign and known opposition, and not all athletes can do this with success.

There seems to be no long term and comprehensive planning for fixtures by the governing bodies, no co-ordination.

There have been many very good ideas put forward for the betterment of athletics in this magazine, but I wonder how many have been acted upon and put into practice?

Yours faithfully,

A. Tite,  
Meden A.C.

### NOT TOO MUCH COMPETITION

Dear Sir,

I hope our leading athletes are not going to be subjected to too much competition before the Olympics. It is a long time to mid-October and it would be nice to feel that our athletes are at their best, not past their best at this time.

Now to acclimatization. Just when are we arriving in Tokyo? Let us at least hope that the lesson of Rome has been learned. Contrast our preparation with that of Australia last time. They reached Rome 10 days before the start of the Games and came from a hot climate. Our team arrived 4 days more or less before their events, and we come from a cold climate.

Lastly, a pungent thought. New Zealand and Australian teams already selected, training and racing when they want. How different

from our usually inadequate methods of preparation.

Yours sincerely,

P. J. Pearce,  
Watford.

### AGE GROUP DATE

Dear Sir,

The announcement in your issue of 13th June that the A.A.A. have adopted the same age groups as are used in the Schools is welcome, but I feel that the choice of qualifying date could have been changed slightly in order to make life easier for the promoters of events for the younger age groups.

Bearing in mind that for legal purposes a person is not considered to have reached a given age until the day after his birthday, I had always assumed that the A.A.A. and E.C.C.U. qualifying dates implied that the "line" was drawn at the change of the month; hence, when scrutinising entries it was necessary to check only the month and year of birth in order to ensure that a person had been included in the correct age group.

With the proposed new qualifying date, it will now be necessary in some cases to check the day as well as the month and year. I had never met a case of a runner born on the qualifying date until recently when I heard of such a runner who in certain seasons used to travel to meetings without knowing in which age group he would compete, due to some promoters assuming that the "line" was drawn at the beginning of the day while others assumed that it was at the end of the day.

Whilst I agree with the reasons for the Schools wishing to use a qualifying date which puts all members of a school class in the same group, I do not see that it would make much difference to anybody if the qualifying time was brought forward one day to midnight 31st August/1st September, when such a small change can make life so much easier for promoters.

One matter on which there does not appear to have been any progress is in deciding on a common nomenclature for the various age groups. At present, a junior could be as young as 12 (schools) or as old as 21 (men's cross-country and road running). Surely a common system could be agreed so that any given description of an age group would imply the same ages of the competitors, regardless of the status of competition (e.g., schools, open, etc.).

Incidentally, I note that no mention has been made of road races, including relays. Are these to continue under the old rules, or is the A.A.A. awaiting the decision of the E.C.C.U. so that the road age groups will continue to LETTERS (contd.)

coincide with those used for cross-country events?

Yours sincerely,

M. S. Seaman

# How to achieve your peak performance in every kind of sport

Watch your diet as carefully as your training.

Your diet should contain a perfectly balanced combination of vitamins, proteins and minerals.

Supplement your diet with Bemax every day.

Bemax is the richest known natural vitamin-protein-mineral food supplement. It is especially rich in vitamin B—essential to all round fitness; and vitamin E—which builds muscular efficiency and endurance. For peak performance, add Bemax every day to the diet which suits you and your particular sport best.

Available from Chemists and Grocers everywhere 3/6 and 6/6.

For increased fitness and endurance take

## Plater Wins Chigwell '10'

THE 10th annual Chigwell "10" on 20th June was yet another symbol of the creative work of the late Ernest Crawley. A former colleague—Reg. Jacobs—gladly took over the onerous task of keeping this popular road race in the athletic calendar as a tribute to his old friend.

For the 140 starters it was a "welcome" day atmospherically but that's more than can be said about the geographical significance! One lap of 4 miles followed by a 6 mile circuit gave little comfort to any even pace type, since there were unwelcome gnawing hills whichever way one adjusted one's blinkers.

One boy who set out to "kill" these hills—Ron wasn't with us this year—was the bold Paddy Killeen himself who immediately turned on the up-to-date 5 minute mile tempo and invited all to have a go. After only two miles a group of six headed the field and no apparent shake-up came until the steep gradient which confirmed that Essex isn't really a flat county!

Although the 5 mile point was undefined I wouldn't be kidding much by quoting a time well inside 25 minutes but just accept my "ticker tape" and be happy. It was almost a thin line procession at this point, strung out thus:— Killeen, Taylor, Keough, Plater, Macey, Burt, Barber, Ibbetson, Gurney, Dowall, Lane, Turney, Prosser (25.40), and Baker making his own dozen and one.

After 8 miles Dennis Plater confirmed his present top-class know-how when he made his effort which gave him a course record. The two previous bests were Jack Haslam's 52.06 in 1957 and Ron Hill's 52.07 in 1962.

edited by Melvyn Watman

THOSE who had struck the name of Pyotr Bolotnikov from their lists of possible Olympic champions had best think again. The old (34) warrior has made an astonishing return to top form, for in Zurich on June 23rd he scored over Ron Clarke in a 5,000m race. The time was 13:38.6—only half a second outside his best ever and over 20 seconds faster than his previous best for the season!

Clarke led all the way until, 300m from home, Bolotnikov unleashed that devastating sprint of his. Ron's consolation was an Australian record of 13:39.0; whilst in 3rd place another national mark fell as Gaston Roelants finished in 13:43.4 (six days earlier he had run 28:57.2 for 10,000m). Michel Bernard was a poor 5th in 14:09.2 and will now almost certainly opt for the 1500m in Tokyo. Kilometre times: 2:42.8, 2:44.6, 2:46.6, 2:47.0, 2:37.6 (last 300m in 41.5).

Two European records were broken on June 21st. Italy's Sergio Ottolina clipped a tenth off the 200m standard of 20.5 first established by Peter Radford in 1960; running at Saarbrücken he clocked 10.4 for the curved 100m and 10.0 for the flying straight 100m. Veteran East German vaulter Manfred Preussger scaled 16'5½"/5.02 in Leipzig to succeed Pentti Nikula.

Valeriy Brumel can be expected to improve on his world record any time now. He jumped 7'3¼"/2.23 (and knocked the bar off at 7'6¼"/2.29 with his hand on the way down) at Riga on June 11th and 7'4¼"/2.24 in Zurich.

Irina Press, who has carried her personal best for the shot to an incredible 56'5½"/17.21 this season, seized the world's leadership in the pentathlon from the two Mary's with a score of 4,959 in Copenhagen on June 18th/19th. Her marks: 80mH-10.9, SP-53'7½"/16.35, HJ-5'1"/1.55, LJ-19'6"/5.94, 200m-25.3. Irina looks set for a score of around 5,300 in the near future.

**Anita Worner (W. Germany):** Competes in 880y; aged 22; best 800m mark of 2:07.6 (1963 and 1964).

**Ikuko Yoda (Japan):** Entered for 100y, 220y and 80m hurdles; aged 25; best marks of 11.6 for 100m and 10.6 for 80mH set in 1963 and 1964—the hurdles time is equal 2nd in the world this year.

It will be noted that the long jump brings together no fewer than nine 20-foot performers including Mary Rand and Sheila Parkin! An added attraction at the meeting are men's invitation races at 100m, 200m and 1,500m and men's 4x100m relay Olympic trials. Overseas stars due to compete are Foik, Zielinski and Zimny or Bogusiewicz (Poland) and Schumann, Gamper and Bothling (W. Germany).

Would intending spectators (and such a star-studded meeting deserves a large crowd) please note that the first event, heats of the 100y, starts at 10.15 a.m. Heats in all events, including qualifying rounds for the field events, take place before lunch; the afternoon programme of finals begins with the high jump at 2 p.m.

# THE AMERICAN TRACK SCENE

## Melvyn Watman sums up the girls' Olympic prospects

**S**HE is a real tigress of a competitor whose achievements include a silver medal in the 1956 Olympic long jump at the age of 16, a personal best in excess of 21 feet, a victory over the seemingly invincible Mary Rand last season, and a share in the world 4 x 100m relay record.

The majority of readers will have identified her, for Willye White enjoys a wide and well-merited reputation in Europe as one of the world's finest athletes. Were she British or German or Russian, Willye would be a national sporting figure and honoured as such, but because women's athletics is an unfashionable recreation in the United States she exists in a state of almost total obscurity in her native land. One girl athlete in a generation—Wilma Rudolph was the last—manages to capture the public's imagination, but otherwise the track and field sorority are just about the most neglected group of participants in American sport.

The trouble is that whereas tennis or swimming, for instance, are considered fit and proper sports for girls to practise, there is an influential (and ill-informed) school of opinion that decrees athletics unsuitable for young ladies wishing to retain their femininity.

Similar unfounded prejudices flourished in this country before the war, but the girls, by their own example, proved that athletic activities if anything improved their figures and that, from a spectator's viewpoint, women's competition could be just as enthralling and stimulating as the men's. The supporters of U.S. women's athletics are still awaiting the day when their sport will be accepted as normal, but in the meantime there are signs that resistance may be crumbling.

The influential mass-circulation magazine "Sports Illustrated" ran an article some months ago entitled "Why Can't We Beat This Girl?" Pictured close-up in colour was the attractive Soviet sprinter Valentina Maslovskaya. The caption read: "She not only looks better than the girl next door, she most certainly can run much faster."

The article went on to criticise American girls for boycotting athletics "as though it were a combined course in weight lifting and wrestling." The prejudice stemmed from the lack of interest shown at most high schools and colleges because of the deep-rooted American

notion that ladies do not perspire.

Women's track clubs are beginning to spring up in various parts of the country, but there is as yet very little high class competition available for those with the requisite ability. I well recall Willye White's bitter reply when I asked her how many long jump competitions she had a year in America: "Four if I'm lucky."

Viewed against this background of, at best, apathy, the successes of American girls at the Olympics is little short of miraculous. It may not generally be realised that the U.S. outstrip all other countries in the matter of gold medals. The tally currently stands at 14, as against 10 by the next best—the Soviet Union. Britain, despite her status as one of the world's foremost women's track powers, has yet to win any. One trembles at the thought of what American girls could achieve if they received

even half the encouragement lavished on their teenage swimming colleagues.

Regular as clockwork, the United States manage to produce some sensational performer or group of performers each Olympic year. In 1936 it was sprinter Helen Stephens, in 1948 high jumper Alice Coachman, in 1952 the sprint relay team, in 1956 another high jumper in Mildred McDaniel and we all remember the star of the Rome Olympics. Who will it be in Tokyo? Here, briefly, are some facts and figures about the American girls most likely to do well there.

**Sprints:** Any amount of talent abounds even though it would be best to reserve judgment on Debbie Thompson's recent 10.2 100y clocking. The watches read 10.1, 10.2 and 10.3 but the absence of a wind gauge throws suspicion on the mark. Debbie's next best time (made this year) is 10.7 compared with 11.1 in 1962 and 10.9 in 1963. This sensational 16-year-old first leapt to fame early in 1963 when she set an indoor best on record time of 6.7 for 60y, a time that was equalled last winter by Willye White. Willye ran 100m in 11.5 in 1961 and 10.8 for 100y in 1962 and 1963, but will probably go just for the long jump and relay. Pan-American champions Edith McGuire (100m) and Vivian Brown (200m) are redoubtable competitors with fine times to their credit. Edith (20) has run 10.5 for 100y this year and in 1963 was credited with 11.5 for 100m and 24.4 for 220y; Vivian (22) has run no faster than 10.9 for 100y, but covered 200m in 23.7 in 1962 and 23.8 last year. This season she has run 24.2 for 220y. Like Willye, Vivian was a member of the world record 4x100m team—as was Ernestine Pollards (22) whose best marks of 10.5 and 23.7m were set as long ago as 1960 and 1961, but who made a reasonable indoor comeback last winter. Other names to note are Wyomia Tyus (19), 10.7 this year (and a remarkable indoor 70y time of 7.5); Marilyn White (20), 11.7m last season and 10.6 (10.4w) this year; Diana Wilson (18), 10.8 (10.5w) in 1964; and Shirley Wilson (17), 10.8 (10.6w) and 24.1w this season. Both Wilson girls clocked 24.3 for 220y in 1963. Lacy O'Neal, who chalked up 10.6 and 23.4m in 1960, has not raced since 1962, but at 21 is certainly young enough to stage a comeback.

**400m:** The outstanding prospect here is 17-year-old Janell Smith, with 54.8 (440y) this year. She is the girl who in 1962 competed in both sprints and relay against Poland and beat Szyroka for 3rd place in the 200m. Last year she won the American indoor 70y hurdles title! Her best marks include 6.9 for indoor 60y (1964), 10.9 for 100y (1962), 24.3 for 220y (1962), 11.8 for 80mH (1964) and 17'8½"/5.40 LJ (1962). Even more versatile is Billie Pat Winslow (nee Daniels), who ran in the 800m at Rome. She trimmed her 440y best to 56.0 this year but will probably concentrate on the pentathlon. Long shots are Marilyn White

and Shirley Wilson, with 57.4 and 58.5 (440y) respectively this season.

**800m:** Sandra Knott (26) ran 2:09.7 last year and is capable of considerable improvement. Her younger sister, Suzanne, a 56.3 400m performer, might prove better.

**Hurdles:** Tammy Davis (16) has a great future. She enjoyed a fine indoor season and will surely clip a few tenths off last year's time of 11.0. Her best so far this year is 11.4. Former sprinter Rose Bonds (24.8 200m in 1960) is well known for her catalogue of disasters on last summer's European tour and will be remembered for her narrow win over Pat Nutting in 11.1. She is certainly capable of 10.8 or better this season. Dark horse: Debbie Thompson, who ran a useful 6.0 for 45yH indoors.

**High Jump:** Already Pan-American champion, Eleanor Montgomery (18) is the girl who might offer the strongest challenge to Balas. She shot up from 5'0"/1.525 in 1962 to 5'8¼"/1.73 last year. Last winter she cleared 5'6"/1.675 indoors, as well as sprinting 50y in 6.1. Her best long jump is 18'1¼"/5.52 (1962). Terrezene Brown also came from nowhere last season to jump 5'6"/1.675.

**Long Jump:** Willye White, a seasoned veteran at 24, jumped 19'11½"/6.09 in 1956, 19'4¼"/5.90 in 1957, 20'2½"/6.16 in 1958, 19'7½"/5.98 in 1959, 20'4½"/6.21 in 1960, 21'1¼"/6.44 in 1961, 20'3¼"/6.18 in 1962, 20'9¼"/6.34 in 1963 and 19'10¼"/6.05 thus far this year. If she set her mind to it, Edith McGuire could become a world ranking long jumper. She has beaten Willye on occasion despite a best of only 19'4¼"/5.91.

**Throws:** Earlene Brown (28) put the shot 54'9"/16.69 and threw the discus 176'10¼"/53.91 in 1960 but has not competed seriously in recent years. She put 44'7"/13.59 indoors last winter. In the discus, American hopes of a place in the first six will rest on Olga Connolly (31), the 1956 champion. Her best in recent years is 172'1½"/52.46 in 1962, and this season has hit 156'9½"/47.79. Gloria Wilcox (19) is a potential world beater in the javelin; she has only just taken up the event and already has reached 170'9"/52.05.

**Pentathlon:** Still only 20, Billie Pat Winslow can look back on an astonishingly varied career. Former American record holder at one and two laps her strongest individual event is now the high jump and in the pentathlon she has the ability to total nearly 5,000 points. Her personal bests are 25.0 for 200m and 24.8w for 220y (1964), 56.0 for 440y (1964), 2:13.1 for 800m (1961), 12.0 for 80mH (1964), 5'6"/1.675 HJ (1963), 19'3¼"/5.87 LJ (1961), 42'9"/13.03 SP (1964) and 4603 pentathlon (1964).

**Relay:** Even without Wilma Rudolph, the American quartette will stand an excellent chance of posting a fifth success in the event.

# Mary Rand Recaptures Record

**T**HOUGH far from satisfied with her performance in the shot and 200m, Mary Rand scored 4,815 points for a new UK pentathlon record in the match against Belgium and the Netherlands in Brussels on June 21st/22nd. Her high jumping was a joy to watch, and she should soon menace Thelma Hopkins' UK record of 5'8½". Mary's previous best leap was 5'6" as long ago as 1959.

A disastrous shot put of under 39 feet might have unsettled a lesser competitor than Mary Peters but she rallied and scored well in the remaining events to place second. Pat Pryce scored a personal best of 4,302 and should total 4,600 with a little tightening up on shot and high jump. Britain's aggregate score was a record for the meeting.

The Netherlands scored an equally magnificent decathlon victory. The giant Eef Kamerbeek was far from fully extended and looks set for 8,000 points in Tokyo.

Tony Tymms became the first British athlete to score more than 6,000 twice and showed all the coolness of a veteran, scoring personal bests in shot, high jump, javelin and hurdles. Derek Clarke survived a mediocre first day to score within 200 points of his personal best, while David Gaskin ruined his chances

of a high score by failing to record a mark in the long jump. He pulled himself together to beat far from fit John Jones.

Conditions were far from satisfactory. The track of 318m afforded no alternative lines of approach for 100m, 110mH, long jump and pole vault; whilst the high jump approach consisted of grass followed by six metres of cinder. The shot circle was within a few inches of the high jump pit and this undoubtedly affected the female shot-putters who were competing at the same time as the male high jumpers. The javelin run-up was merely a stretch of weedy grass.

With the recent Ghent meeting in mind, it is clear that the Belgian authorities may in future have to be reminded of the basic needs of international competition.

# Tom O'Hara's Training

by Fred Wilt

**T**HOMAS Martin Ignatious O'Hara, of Loyola University (Chicago), was born in Chicago on July 5th, 1942; stands 5'9" and weighs 130 lbs. He started racing in 1958 (aged 15) and his best performance to date is his world indoor mile mark of 3:56.4 last winter. Other personal bests include 22.9 for 220y, 48.8 for 440y and 1:50.0 for 880y—all made in relays—14:30 for 3M and 30:12 for 10,000m.

**Pre-race warm up:** Start 30 min. prior to race. Jog 15 min. 7-8x100y at racing speed; walk briefly after each. Continue jogging easily until race.

**Pre-training warm up:** Jog 3M at 7-8 min. mile speed. Warm down with 2-3M at same speed after training.

**Summer training:** (August 1963) Run alternately 17M easily one day and 10M at a faster speed the following day—seven days per week.

**Autumn training:** (September 1st—December 1st, 1963).

Sunday: Run 17-20M continuously at an easy speed. No warm up or warm down.  
Monday: 20x440y (75); walk 30 sec. between.  
Tuesday: 10m continuous running, faster than Sunday.  
Wednesday: 16x440y (72); jog 440y in 2½ min. between.  
Thursday: 10-12m fartlek.  
Friday: 440-880-1320-880-440 at speed of 77 sec. per 440; jog an equal distance after each.  
Saturday: Same as Monday.

**Winter training:** (December 1963—March 1964)

Sunday: 17-20m easy run outdoors.  
Monday: 12-16x440y (63-64); jog 220y in 90 sec. after each (indoors).  
Tuesday: 24x220y (32); jog 220y in 90 sec. after each (indoors).  
Wednesday: 10-12m continuous run outdoors—or 5x660y (1:36); jog 440y in 2½ min. between (indoors).  
Thursday: Rest if race on Friday. Otherwise, 16x220y (30.5); jog 220y in 90 sec. between.  
Friday: Race. Otherwise, 660y in 1:32—jog 10 min.—5-6x330y (43); jog 220y between. Rest if race on Saturday.  
Saturday: Race. Otherwise, 20x440y (75); walk 30 sec. between.

**Spring training:** (April—July 1963).

Sunday: 10m continuous run.  
Monday: 12x440y (62); jog 220y between.  
Tuesday: 880y (2:04)—jog 880y—10x220y (29); jog 220y between—jog 880y—660y (1:28).  
Wednesday: 2x½m (3:08); jog 10 min. between.  
Thursday: Same as Tuesday.  
Friday: If race on Saturday, rest Friday evening and run only 15x110y fast striding on Friday morning. Otherwise, same as Monday.  
Saturday: Race. Otherwise, 24x220y (32); jog 220y between.

**Morning workouts:** During autumn, winter and spring he trains 30-50 min. between 8 and 9 a.m., Monday to Friday inclusive. Two of these morning workouts are devoted to short sprints and jogging. Three of these workouts consist of 3-4M of easy, continuous running.

O'Hara's evening workouts take 1½-2 hours, starting at 3 p.m. He last eats 4 hours before racing. He runs 5 cross-country races, about 10 indoor races and 10 outdoor races per year. He is now coached by Jerry Weiland at Loyola. O'Hara does no weight training. If his racing objective is merely to win he prefers following to pace-setting; if his objective is achieving a fast time he is not opposed to leading if the pace of his opponents proves to be slow.

# Jersey Runner Stars in Southern Junior Champs.

**I**N magnificent weather, perhaps a trifle windy for perfection, the outstanding performance was that of young Colin Campbell in his first major competition. Last year's leading youth with 50.6, Campbell became the 5th junior this season to clock 49.0 or better, and he broke Derek Johnson's 13 year old meeting record of 49.1. Well-built, with an easy, relaxed style, he will obviously improve considerably if given the opportunity.

Richard Simonsen accounted for the other record to fall, holding off Pat Morrison in a close finish to the 220. The high jump take-off was not fit for competition at Championship level; judges and competitors made a written protest.

I cannot resist making a comment about the programme, which succeeded in driving the announcers into occasional paroxysms of hysteria. The events were distributed in apparently random sequence with no relation at all to the timetable.

## Juniors

**220:** 1, R. Simonsen (Ports) 21.9 (CBP); 2, P. Morrison (Ilf) 22.0; 3, D. Dear (So'ton) 22.2; 4, J. Childs (Wood Gn) 22.8; 5, T. Newman (Eton M) 23.2 (22.9 sf); 6, C. Keeley (Chich'r) 23.5 (22.8 sf).

## Race Walking

By L. W. WOODCOCK

**THE International Scene:** European results have now begun to come in so that it becomes possible to make a start to fit into place some of the Olympic jig-saw. In the 20 Kms. our Ken Matthews leads the field with his track performance of 1h. 28m. 45.8s., but this is closely followed by Pamich (Italy) with 1:28.47 for a road event. As might be expected Russians fill the next few positions but no Russian has yet beaten 90 minutes. Results from India, Australia and South Africa seem to indicate that this event will be dominated by Europeans.

### 20 Kms. 1964 Best Performances:—

Matthews (GB)	1:28.45
Pamich (Italy)	1:28.47
Salmanavicius (USSR)	1:30.17
Malachov (USSR)	1:30.45
Muchameedschin (USSR)	1:31.27
Corsaro (Italy)	1:31.37
Nihill (GB)	1:31.39
Doro (Italy)	1:31.46
Lefanczik (E. Germany)	1:33.12
Delerue (France)	1:33.31
Hart (GB)	1:33.43
Lindner (E. Germany)	1:34.01

Saito Kazuo (Japan) and Don Thompson (Metropolitan) fighting it out in the earlier stages of the R.W.A. 50 Km. Walk Championship at Enfield. Thompson was third to Paul Nihill and Ray Middleton, with Saito Kazuo 10th. Ed Lacey

Reimann (E. Germany)	1:34.01
Pape (W. Germany)	1:34.14
Edgington (GB)	1:34.39
Clark (GB)	1:34.45
Middleton (GB)	1:34.53
Lobach (E. Germany)	1:35.49
McCullagh (Australia)	1:36.08
A. Soderlund (Sweden)	1:36.11

It is rather surprising that Sweden is not better represented in the above list. There was an International track 20 Kms. at Lausanne last Sunday but the results were not to hand when the above list was prepared and news is also awaited from USA.

It is a little early to list 50 Kms. performances, but of the times so far known, Nihill's performance at Enfield leads the list. Most European countries do not hold their National 50 Kms. until later in the summer, but one result that has come in is from East Germany and this was won easily by Christopher Hohne in the fine time of 4:18.19. Obviously Hohne will be a walker to watch closely at Tokyo. It will be interesting to see what times Pamich (Italy) will record at this distance this summer. The Russian times, too, may be expected to be good, but it must be remembered that road conditions vary so much.

### 50 Kms. Best Performances:—

Nihill (GB)	4:17.10
Hohne (E. Germany)	4:18.19
Middleton (GB)	4:21.14
D. Thompson (GB)	4:21.58
Gardiner (Australia)	4:24.19
Wallwork (GB)	4:27.02
Paddick (GB)	4:29.07
Goodair (GB)	4:30.57
Allsopp (Australia)	4:30.51
Miwa (Japan)	4:31.07
Clark (Australia)	4:31.21
Ejiri (Japan)	4:32.01
Fogg (GB)	4:32.09
Norris (Australia)	4:33.27

**Today's Events:** The longest race of the year will start at Victoria Park, Leicester on Friday at 5 p.m. This is the 100 miles to Skegness. There are 65 entries with eight teams. The leading entrants are Frank O'Reilly (Lozells), Hew Neilson (Woodford Green AC) and Albert Staines (Leicester) and Surrey WC will be defending their hold on the team Trophy.

## WELSH CHAMPIONSHIPS

At Cardiff, June 20th

THERE was consternation among the sprinters when only six of them turned up for the heats of the 220 and they were told to run in two heats of three with three to qualify! They did not refuse to run but showed their pique by sauntering around in about 65 seconds. No-one blamed them except perhaps the official who insisted on it. Liz. Gill, of Barry, won the final in a new Championship record of 25.2, having earlier beaten her rival, Liz. Parsons, of Roath, in the 100 in 10.8. Sandra Murphy won the Weight with a new Championship and Native record of 36ft. 9ins., in an almost deserted stadium in the morning. Pam Guppy, the smiling schoolgirl from Heol Hir School, Cardiff, added a half-inch to her Native Record with a 5ft. 4ins. high jump.

100: 1, E. Gill (Barry) 10.8; 2, E. Parsons (Roath) 10.9; 3, P. Dalton (Roath) 11.5.

## LETTERS continued

### SOUTHERN TRACK "3" TIMES

Dear Mr. Editor,

May I have a little of your valuable space to have a moan—my first—namely, how do approach. 7 yards equal 2.8 seconds?

In the Southern 3 miles I finished 7th. Two unofficial watches timed me at 13:38 and 13:38.2 (I will disregard a third watch which showed 13:37.5). My "official" time on a running watch was 13:40, yet 7 yards in front was the 6th man in 13:37.2.

Gerry North 8th and Dave Cooke 9th heard 13:39 called out as they finished, were unofficially timed at 13:39, yet were officially given 13:41. One moment I was elated, the next bitterly disappointed.

I don't know if, being 7th, I was not entitled to have a watch stopped on me, but I do think that the first 12 should have accurate times if the ranking lists are to mean anything and if similar galling experiences are not to befall other athletes in future. After all, there were enough timekeepers, the A.A.A. Championships give 12 accurate times, and the 1962 Southern gave 12 times to 1/5th sec.

Yours sincerely,

Peter Mellor
