Welsh Notes

By Bernard Baldwin

FINE weather marked the Glamorgan A.A.A. Championships for Senior Men, Youths and Intermediate Women at Jenner Park, Barry, on 15th May, but only a small crowd looked on, and many of the events had only one or two competitors. Only two ran in the Men's mile, yet 25 were listed on the programme, and they were divided into four heats! The girls' events, however, were well supported, and in most track events all lanes were used. This was especially pleasing in the relays.

Due to the change in age groups winning performances in all but the senior men's events were registered as best performances. Two records were established in the men's section—John Walters of Birchgrove improved his own weight figures to 48'10½", and John Lister clocked 15.5 in the high hurdles.

Two new events will make a welcome addition to the athletics scene in Wales this season. On 19th June (an unavoidable clash with the Welsh Senior Champs.) the first ever Brecon and Radnor county championships go on at Penlan Park, Brecon. Roy Price is the county secretary, and he will need the support of officials not engaged at Maindy that day. The following Wednesday, 23rd June, Swansea University celebrate the opening of their new track with an evening match, U.A.U. v. Welsh Universities v. Welsh A.A.A. Invitation events are included in the programme, and each night for a whole week athletics events will be held at the track. Cyril Knibb, C.A.B. Chairman, Swansea University, will supply full particulars.

Negotiations are proceeding with Barry Council for an open handicap meeting at Jenner Park in August. This should prove a very attractive addition to the calendar, especially in August, as the only other handicap meeting I know of in South Wales, at Pontardulais, clashes with the Welsh Youth', Boys', and Intermediate Women's Championships, on 3rd July. Even so this meeting, organised by Tom Mogford in conjunction with Pontardulais Agricultural Show, provides some badly-needed competition in this part of West Glamorgan, and it should scarcely be affected by the clash.

Welsh Cross Country Association Championship dates for 1965/66 are as follows:

- 4th December: Novice 5 miles.
- 5th February: Youths', Boys' & 6 miles.
- 12th February: Junior.
- 26th February: Senior.

A possible site for the 1967 International championship was viewed by officials of the Association recently. It was at the Buttrills Fields, Barry. Negotiations are pending.

The Merthyr and District Cross-Country League needs the support of more Welsh clubs if it is to survive next season. Interested clubs should write to Alan Marshall, 1, Church Terrace, Pentrebach, Merthyr.

Welsh A.A.A. and Welsh Women's A.A.A. Championship schedules and entry forms are now in circulation. They are a masterpiece of information, giving times of each event, details of entry fees, closing dates for entries, venues, records, etc., and can be obtained from the championships secretaries:

Senior Men: R. G. Snow, 15 Turnham Green, Penylan, Cardiff.

Marathon: A. E. Williams, 13 Hafod Street, Port Talbot, Glam.

Juniors, Youths' and Boys': C. Jones, 39 Fernleigh Road, Caldicot, Mon.

Women: Miss M. Davies, 1 Alexandra Terrace, Mountain Ash, Glam.

The first championship of the season will be the Senior Men and Women's incorporating the Junior Men's relay and hammer, on 19th June. Entries close today, 29th May.

GRADED MEETS AND OPEN EVENTS

Essex A.A.A. have arranged Graded Meetings on June 2 and June 8, and will include the following Open events (no fees, no prizes):—

June 2nd (Wed.) at The King John School, Shipwrights Drive, Thundersley, Triple Jump (S/J/Y), Hammer (S/J/Y), Women's 880 (S/Int) comm. 7.15 p.m. Entries to D. Evans 206 Benfleet Road, Hadleigh.

June 8th. (Tues) at Ashton Playing Fields, Woodford Bridge. 3 Miles (S), Hammer, Long Jump and 440 Hurdles (all ages) comm. 7 p.m. Entries to D. Hayward, 36 Primrose Road, London, E.18.

No acceptances sent, but if less than 3 entries for any event, it will be cancelled and entrants notified, if time.

In the report of the Open Relays Meeting on page 14 of our May 15th issue, the club given as Southampton should have read Southall.

CLUB OR COUNTY?

THE ban imposed by Hertfordshire County A.A.A. on a number of their athletes, including Nick Overhead and Mike Wiggs, from the County team, raises an important question—Club or County? Particularly so when the number of inter-county or other matches affecting County teams are on the increase.

Hertfordshire apparently have a rule which states that athletes who turn down County matches without valid reason will be suspended. Obviously, this is quite wrong. Clubs see little enough of their athletes who are of or near international standard, and it is only natural that they require the services of these athletes for their most important fixtures, just as the athletes may well wish to assist their clubs in these fixtures.

When arranging these matches, Counties should realise that they may have to include some of their lesser lights. In some Counties it may, in fact, be difficult to raise a fully representative team and such matches should not be arranged unless they are sure that athletes are free and willing to take part on a certain day.

This is a free country and an athlete can represent whichever body he chooses. It is recognised that International or A.A.A. selection does allow the athlete freedom to give up any other commitment he may have accepted, but even here his wishes are respected and if he has promised to run elsewhere he is not penalised for keeping faith with his club or the organisers of another event. He may also have personal reasons for not wishing to run. I suppose it depends on what is and what is not considered a "valid reason" for not turning out for the County, but any attempt at compulsion is to be deplored—except where an athlete has accepted an invitation to compete, which is a different matter altogether.

I understand that we may have done the young Rotherham athlete on the 8th stage of the Manchester to Blackpool Relay an injustice with our report of the race, which had to be completed at very short notice from very brief notes and an uncorrected result sheet. We understand that Rotherham were already a long way behind when this athlete took over and it was no fault of his that they finished so far behind the last but one club.

Today's Events

Today most Counties are holding their Senior Men's Championships, some including Juniors and Youths as well. Requests have gone out to all Counties for their results for publication and we would appreciate the co-operation of all the secretaries concerned. Next week's "A.W." will be a special County Championship number when we hope to include all the Senior results received in time, and as many Junior & Youth results as space will allow.

AGE GROUPS FOR ROAD RUNNERS

Dear Sir,

The "A.A.A. Notes" on page 13 of your issue of 8th May, 1965 is the first announcement I can recollect which deals with the question of the age groups for road running, and I am surprised to see that this branch of our sport is going to continue to be out of line with everybody else during the summer season.

With the new age groups on the track, we now have the situation where all the members of any one age group in the cross country season move into the same group, although with a different name, for the following track season, unlike the situation which prevailed a few years ago when a person's cross country age group gave no indication as to his age group for the following track season. Furthermore, these age groups are now common to open competitions and the schools.

Admittedly, several years ago, when the qualifying date for all road races was 1st October, there was a case for the spring date as well since about half the runners in a youths race one weekend had probably competed in a senior event the previous weekend if the races were in September. However, since there are very few, if any, road events for the younger age groups during May, June, July and August, I feel that this branch of our sport can manage with only one qualifying date now that this is 1st September prior to the event and thus fall in line with all other branches of our sport and with the schools as well. Although road running is not yet a recognised school sport, there are nevertheless quite a few schools which take part in such races and the number is likely to increase, but they will probably not do so if we continue to adopt this awkward age grouping for the summer events.

I hope that the appropriate committee will reconsider this matter and that after this year we shall revert to the single qualifying date for road events. If it is felt that there is a problem with the older youths being able also to contest senior events, I would suggest that the qualifying age for senior races should be altered from "18 on the day of the race" to "18 on 1st September prior to the race", which is already the case for cross country events. If there is a case for a spring date as well, which I doubt, then I suggest that it should be 1st March, so that Easter would always fall in the summer season.

Yours faithfully,
M. S. Seaman

THE NEW DECATHLON TABLES

Dear Sir,

Concerning the alteration in the decathlon points-scoring system, I wonder if you could explain the principle whereby the top world marks have undergone a decrease, but the top British marks have undergone an increase. Is it simply a coincidence that this narrowing of the gap has occurred, or is a general principle in fact at work?

I am also interested to know whether the new scoring was fixed with a deliberate view to *keeping* C. K. Yang as the world record holder; for his world record score dropped so much that he only just avoided falling below Rafer Johnson's score.

Yours sincerely,
Henry Roche

times under 4:10.0, comes the perennial moan about amateurism and athletics.

Completely overlooked are the many top American college men, like Dallas Long, who, despite superhuman prowess on the sports field, still have time to qualify in various professions. The state aided get their share of criticism, but again many of them later become engineers, teachers, etc.

At home, many of our top men in recent years have also achieved high examination results, thereby implying that they have managed to squeeze in some training periods.

May I enlighten Mr. Ross *et al* with one or two things I have picked up. For instance, I have it on good authority that an athlete does not perform well on 24, 18 or even 12 hours training a day. Indeed it is suggested that 3 hours daily is enough for most i.e. well within the compass of the average working man *if he has the will*.

There are few who would want to be glorified race horses, fed, kept, trained and run by a sponsor. I will refrain from drawing any comparison with Northern pedestrianism.

And why do people sneer at a man for studying to be a P.E. teacher. In his own way he works at being a teacher of youth just as hard as one learning to be an electrician. I know a few electricians who could have shown the

same thoroughness in their preparation for a career.

Lastly, let us look at the state of things if professional athletics was with us. A sponsor would rarely be happy if performances were not *always* record or near record ones. How long would an athlete last in such a climate? How do you price an athlete? Would you accept 10/- when J. Bloggs gets £10? Even the Portuguese tables could never evaluate between a 100y in 9.6 and a mile in 4:05.0. Field event men would all take up running to make a living. And wouldn't you feel just slightly idiotic tearing up the White City straight with a board advertising Railway Lost Property Sale?

Yours faithfully,

Stan Greenberg.

Johnston Runs Away With Herne Hill '10'

EXACTLY a year ago Herne Hill Harriers thought fit to celebrate their 75th Anniversary by the introduction of a 10 miles road race; it proved a success so, on 15th May, John Gebbles launched another event over the same course and it "took" to the extent of doubling last year's entry. Gebbles, being one of those thorough types—even his phone number is "Reliant"—has the support of the club's top-grade officials—and there are many.

The course consisted of one complete lap of the motor race track, then three complete laps of the outside perimeter roads, then one complete lap of the motor race track to finish. A few steep gradients, some parts with oozing tar, and a scorcher in the open, made 10 miles just about enough for the 108 who finished the course. There were 126 starters.

Graham Taylor, second to Gerry North in the recent Maidenhead "10", immediately jumped into the lead and after the small lap of 7 minutes running he was 50 yards ahead of Tim Johnston who, in turn, was a similar distance in front of the main bunch. Around the first large lap Taylor put in some fantastic running—better than that bomb stuff—as can well be imagined when I tell you that, after 20 minutes running time, they were separated by 20 seconds. Even more impressive was the fact that Tim was 15 seconds ahead of Brian Heaver—last year's winner in 52.30—who was a similar distance up on Jim Derham—2nd last year. This stylish Herne Hill boy continues to creep steadily towards form with an international flavour; he's been around more than somewhat lately.

Speculation on whether Johnston would

catch Taylor was still unsettled when Graham started the final small lap with 150 yards to spare from Tim. This gap began to close as the leader became shaky and had a bout of sickness which forced him to retire. A great pity because it would have developed into a terrific finish between these two stars. Jim Derham stormed into second place and, with Stan Allen and George Licorish, repeated his club's victory of last year.

FINE '16' BY ADCOCKS

THE Halesowen 16 Mile Road Race lived up to its billing as the "Premier Road Race of the Midlands" on May 15th as 118 starters left the Manor Abbey Sports Ground. Hot, sunny conditions did not slow the field on the outward journey and a fast pace was set along the Halesowen by-pass with Peter Yates (Windsor) well to the fore. By 4 miles Bill Adcocks (Coventry) had joined the leaders accompanied by Dick Cooper (Worcester), Yates and the two Wrights (from Tipton and Derby). Young John Lees of Wolverhampton, a fast starter and tenacious opponent, was also keeping up the pressure. The pace did not slacken and some of the less experienced runners who were romping down the long Hagley Hill seemed oblivious to the fact that they would soon have to make the return journey.

At 6½ miles Eric Austin (Worcester) joined Adcocks but the Coventry man gradually began to apply the pressure. Austin, clearly not at his best, began to drop behind which prompted the eager Yates to make his bid. From the turn it was obvious no-one was going to get near Adcocks and he continued to draw away despite the steep hills. The main interest now was on the minor placings and the battle for team honours. The sun and gradient began to take their toll and positions fluctuated throughout the field. Peter Yates successfully mastered the adverse conditions to overtake a tired-looking Austin.

Lower down the field many competitors had a "hard days fight". The conditions, plus the effect of the now infamous Hagley Hill, reduced even experienced men to a painful shuffle. Without a complete team Coventry were sure to surrender the "County Express Trophy" but few guessed it would be such a close thing between North Staffs and Worcester, with the former getting the verdict by the proverbial eyelash.

PAT JONES (BIRCHFIELD) WINS

MIDLAND PENTATHLON

Tudor Grange Track, Solihull, May 8th

THE Midland Pentathlon Day attracted the largest entry (15) to date for the Senior event, the Intermediates had six and the first ever Junior event ten. Strong wind and driving rain hampered the competitors and soaked the officials; the juniors, with only 100m to run instead of 200m, finished fresher than the Intermediates.

Rosemary Payne, the senior holder, did not appear as fit as last year and though coming into the picture with her 40'6" in the shot, was unable to get on terms with Pat Jones who had built up a good lead with excellent performances in trying conditions.

Geoff North's Greatest Track Run

GEOFF NORTH, one of the revelations of this young season, produced the finest track run of his career at Motspur Park on May 19th when winning the 2 miles in 8:43.0 for the AAA against University of London. The 25-year-old Belgrave Harrier chopped 5.6 secs. off his 1963 personal best as he won by nearly 150 yards from Mick Gowan. Leading, or sharing the lead with Gowan, all the way, Geoff reeled off the laps in 62.6, 64.7, 68.7, 65.6 (4:21.6 at the mile), 68.5, 65.4, 65.1 and 62.4.

Tony Harris was also in outstanding form, taking the lead from Trevor Schofield at the bell (53.0) and drawing well away to record 1:49.4 for 880y. Other seasonal bests were set in the steeplechase by John May (9:00.0) and in the javelin by Colin Smith (235'11"), just back from a Finnish coaching tour in company with David Travis and John FitzSimons. Competing as a guest, Martyn Lucking put the shot 53'5".

A GUIDE TO THROWING

by Don Anthony

PART FOURTEEN: CULTURE OF THROWING

THROWING is not all a matter of technicalities. The whole is greater than the sum of the parts. Throwing has inspired poetry, sculpture, literature and film. Throwers have been prosecuted, banned and held to ridicule. Throwers have dislocated the power supply of a Midland town and have poured oil on troubled diplomatic waters.

Throwing men and women come from many walks of life; there are high ranking military officers, pilots, blacksmiths, bakers, bricklayers, doctors, lecturers, teachers, translators, clerks, engineers; the world of throwing is a democracy. Whilst the runners come and go, throwers twirl on endlessly, meeting from year to year as old pals, eager to help as well as beat each other. Throwers are men and women; despite the philosophy of green-keepers they are human beings! They have their loves and their lives outside throwing.

Two throwers were the subject of a 'fairy tale' romance during the 1956 Olympic Games; Harold Connolly won the hammer, Olga Fikotova won the ladies discus; they fell in love, and later married. American Catholic and a Czech Protestant, they were from opposite camps in the political "cold war". But sport triumphs. It is not for nothing that participants in the Olympic Games compete regardless of race, colour, religion and politics.

In 1955 a team from the Soviet Union came to London to compete against Great Britain. A lady member of the Soviet team was the victim of a charge concerning the now infamous "five hats". This episode blew into a gale force diplomatic storm—the meeting was cancelled. But not for the throwers. The Russian hammer throwers, their coach and translator, and their British opponents, drove to an old Abbey at Marlow, now a National Recreation Centre, to join a gathering of the Hammer Circle—the club which unites hammer throwers in this country and the Commonwealth. Here the Russian guests competed with gusto, thoroughly enjoyed themselves, and set a new mark (216 ft by Mikhail Krivonosov)—and all this on a Sunday!

It is not only on the field of competition that throwing athletes make their marks and their friends. The training ground, for throwers, is the scene of despair and elation over many years. The refinements of a throwing technique are made only after many years of training;

they are the work of both athlete and coach. Friendships are made between athlete and coaches which are enduring. An athlete can spend the most impressionable years of his adolescence and maturity working at what, to the uninitiated, may seem a sterile and rather stupid activity. But those who sneer at sport, those who cannot see the poetry of motion in a good match or a good throw, are those who think of Shakespeare as only so much paper and ink. Ignore them. People throw things because they get satisfaction.

Physically the throwing events call for fitness, strength and speed. They present a physical challenge which can be solved only by an intelligent nervous system. Mentally, they are a stimulating challenge. The body, the slave of the mind, is made to overcome the resistance of the throwing implement and gravity. Possibly people throw to rid themselves of frustrations, to take their minds from the despair of

Eric North

romance, the domestic demands of a spouse, the neurosis of a bad boss, or the irritation of a boring job. In sport a man can find himself; he can achieve success and status; he can come to know his own limitations.

The throwing events offer a unique and highly individual source of psychological satisfaction in sport. Possibly the aggressive can channel off their aggression against inanimate throwing objects. But who knows the real reason for throwing? They are personal, they vary with the mood, they are dynamic. Most people throw because they enjoy it—and, for them, there the matter ends. But those who have enjoyed the battle of man against the implement for many years find that it becomes part of their way of life. If they stop it, they miss it. Throwing becomes an addiction. One British thrower, a pilot for BOAC, Carl Harper by name, was posted some years ago to the route from Singapore to Sydney. He trained twice a week with his hammer—once in Singapore and once in Sydney! Can devotion go any further?

Dennis Cullum's imagination

It is rare that the athletics track is so organized that throwers may train with impunity. If they are not banned, they are banished—to the outskirts, to off peak hours, or to fields far from the fraternity of runners and jumpers. Were it not for the imagination and devotion of Dennis Cullum in the ten years following the last war, in this country, there would be no first class hammer throwers in Britain.

I remember my first experience of the hammer proper. One summer Saturday, in hot sunshine, Loughborough Colleges met Nottingham University. Competing for Nottingham was a tall, muscular Pole, George Kordas—ex-champion of his own country at the hammer. After competing in the short relay, winning the high jump with a fine Eastern cut-off style, and taking the shot and discus events, Kordas entered the hammer. The usual antics followed; a tall discus thrower hurtled from the circle as his hammer flopped a mere 80' away; the crowd duly laughed. Until George Kordas threw. Eight hundred people gasped in amazement as Kordas revealed a new dimension in hammer throwing. Here was physical power and grace combined into a thrilling and beautiful skill. Six times the hammer thudded more than 170' away. Six times the crowd "Oohed" and "Aahed" their astonishment and pleasure.

I am sure I am not the only person to remember this performance. But for me it was a significant stage in my athletic development. Kordas was an athlete; a magnificent athlete. The hammer throw, interpreted by an athlete of his class, was an event of great beauty, a physical challenge promising intense satisfaction. And so it proved to be. It was a skill which progressed only through hard work; but

it did progress surely. The greatest difficulty was in securing coaching and competition. And this is where Dennis Cullum came in.

Dennis translated a German textbook on the hammer into English. With six mature athletic years lost during the war period, Dennis vowed to put hammer throwing on the map. Gathering around him men like Peter Allday, Ewan Douglas, Alec Valentine, Charles Reidy and others, Dennis—no mean thrower himself—took the hammer event from complete mediocrity to a leading position in the field events in this country. In the early days this 'circle' of throwers trained together at a private meadow in Pinner. In the meadow was a bush about 190 feet from the circle. This was the aiming point of all throwers who trained at the meadow.

The neighbouring gardeners and passing pedestrians must remember those days with fear. What strange grown men once cavorted there—cursing at their efforts, scything away long grass on hot summer afternoons and shovelling away snow and ice on bitter winter mornings. Out we trooped, with buckets of sawdust and sand, marking pegs and measuring tapes, leather gloves and hammers of all shapes and sizes. And there, surrounded by the glories of a Middlesex meadow, we turned madly at every conceivable opportunity. Practical training over, we would retire to the Cullum household for tea and cakes. Later we would study loop films and tell stories, make notes, and tease the dog; plan our next sessions and criticise each other's techniques.

Travelling hammer circus

For competition we moved from meeting to meeting; a "circus". We were expected to provide judges, competitors, marking pegs, tapes and hammers. Dennis organised all this and took part in the meetings. And how we all enjoyed these happy days. Meetings in Diss and Newport, in Southampton and Harpenden; handicap meetings with fairground booths as background scenery; Highland gatherings with practising pipers marching sadly in the outfield.

One day an unco-ordinated youth named Michael Ellis was introduced to the cult. From 15 years to 22, this gangling youth grew great muscles, developed fine co-ordination, set new British records in hammer throwing, and ended his career at 24 as one of the world's leading throwers. These years, however, were full of painful effort, the equal of any strain known to the runner. Years which demanded much of the athlete and the coach. Painstaking hours of skill learning and teaching carried on from year to year. One day we hit the bush—what a day that was. We had landed near it; once the handle had flicked over and brushed the the branches. In 1956 both Peter Allday and I had tossed the missile into it. And at last

Who's Who in British Athletics

Jim Alder

Full name: James Alder. Born Glasgow, 10.6.40 (war orphan; adopted by Mrs. Alder in 1949); 5'7½", 145lb; 37" chest; 44-48 pulse at rest; bricklayer/plasterer (hospital maintenance); Morpeth Harriers & Edinburgh AC; self-coached ("although I'm forever comparing schedules with other runners"); engaged; lives at Morpeth (Northumberland).

Became interested in athletics at school: "I found that I seemed to try harder than the rest of the lads and in doing so gained some success (haven't much natural ability)". Began at 880y and cross-country—started training 10 miles a week in 1957. Favourite events now: "Anything from 3 miles upwards". Best track marks: mile—4:16.0 (1963), 2M—9:04.2 (1964), 3M—13:44.8 (1965), 10,000m—30:33.0 (1965), 10M—48:56.0 (1965), 15M—1:15:54 (1964), 30km—1:34:01.8 (1964), 20M—1:40:58 (1964), 2 hours—23M 1071y (1964), 3000mSC—9:15.8 (1964). Best marathon mark: 2:17.46 (1964).

Annual progress at 6M, marathon and 3000mSC: 1959—30:54.0; 1960—29:55.0, 9:28.2; 1961—29:43.0, 9:27.0; 1962—9:28.4; 1963—2:32:04; 1964—30:23.0, 2:17:46, 9:15.8; 1965—30:33.0 (10,000m). World record holder for 30km; holder of world best for 20M and 2 hours; Scottish cross-country champion 1961; 2nd AAA 10M 1965.

Most pleasing performance was "winning and breaking record in 1965 Morpeth-Newcastle" (13½M road race in 1:05:42). Greatest disappointment: "Missing last year's Olympics through injury—just as I was hitting form (set world record during Olympics)". Intends competing until 1970. This year's target is to "make GB teams for 6 miles and marathon". All-time goal is "to break as many long distance records as possible".

Most likes "competition and thrill of winning hard races". Dislikes "the odd runner that I beat who says the watches were wrong". View of administration: "Basically all right—though I hope that for next year's European and

Empire Games the selectors nominate two or three races and, regardless of who you are or what times have been done, pick the teams on these results. Not like last year where the British athletes ran week in week out, not knowing whether they had been selected or not." Younger brother Terry ran 4:38.6 1500mSC as a youth in 1961.

Hugh Pullan

Full name: Hugh Henry Ayrton Pullan. Born New York, 26.4.43; 5'10½", 147lb; 52 pulse at rest; English Literature student; Oxford University AC, South London Harriers & Achilles; "no coach, but use schedules recommended by Lionel Pugh and Capt. A. W. Mack"; single.

Became interested in athletics "at school (Malvern) in 1956/7 where I found that running cured asthma and where the annual cross-country race was the most exciting and best supported event of the year". Began at mile; favourite events now are 880y and mile. Best marks: 440y — 50.5 (1963), 880y — 1:50.1 (1965), Mile—4:12.5 (1965).

Annual progress at 880y and mile: 1959 — 5:05.0; 1960 — 2:05.0, 4:42.0; 1961 — 2:03.0, 4:38.0; 1962 — 1:58.1, 4:32.0, 1963 — 1:53.1; 1964 — 1:53.6, 4:20.5; 1965 — 1:50.1, 4:12.5.

Most pleasing performance was "captaining Oxford in their win v. Cambridge on May 8th". Greatest disappointment: "Having jaundice and then glandular fever, 1963/4". Hopes to compete "a few more years—depends on circumstances after university career". This year's target is World Student Games; all-time goal: "The sky's the limit".

Most likes "friendship, hard work and sense of achieving something through one's own sweat and effort". Dislikes "losing—also the inability of many of the press and public to appreciate the value of university level athletics". View of administration: "Obviously room for improvement and closer athlete/selector liaison".

Lawrence Bryce

Full name: Lawrence Miller Bryce. Born Drunzie, Glenfarg (Perthshire), 25.1.43; 6'1", 217lb.; 45" chest; 56 pulse at rest; student; Edinburgh University AC; coached by Bob Watson at Craiglockhart; single; lives at Auchtermuchty (Fife).

Became "fascinated in throwing events from a very young age: my father and friends ran Glenfarg Highland Games". Began at shot and Scots hammer; favourite event now is (wire) hammer. Best marks: SP — 48'10½"/14.89 (1964), DT — 130'6"/39.78 (1964), HT — 188'7"/57.48 (1965).

Annual hammer progress: 1960 — 149'7"/45.59 (12lb.); 1961 — 165'11"/50.57 (12lb.) & 132'0½"/40.25 (16lb.); 1962 — 166'0"/50.60; 1963—170'2"/51.87; 1964 — 181'11"/55.45;

A GUIDE TO THROWING continued

one year later, came Michael to clear it completely.

Throwers come to love nature; they know the smell of grass, of wet leather, of earth newly spoiled by metal; they know of wind and rain beating against tough skin, of corns and blisters, of thoughtful cycle rides to and from the training ground. They know too of the thrill of an impending competition; of the mental preparation for battle; of the gradual build up of tension prior to the competition and the release which comes with completion. Those who reach the pinnacles of success know the sense of adventure as 'the team' wings its way from London Airport to places which were once mere names on a map—to Budapest, Honolulu, Warsaw, New York, Karachi and Accra. An inanimate object, a throwing implement, takes on a new importance. It has become a passport to international travel; for a few brief seasons the successful athlete becomes ambassador extraordinary; and with some luck and

1965—188'7"/57.48. Made international debut in 1964.

Most pleasing performance: "My furthest throw." Greatest disappointment: "Poor performance in GB v. France, 1964". Intends competing "till I stop improving". This year's target is "Scottish record in mid-190's."

What he most likes about athletics is that "one has to compete alone, with no one to lean on". Dislikes "BBC's lack of interest in field events". View of administration: "It seems quite efficient for 'amateur' athletics, but doesn't really make an effort to raise individuals to world standards. This is mainly due to lack of facilities and education in modern coaching methods". Scottish Universities heavyweight boxing and weight-lifting champion 1964. Elder brother Hamish put shot for Scottish schools.

hard work the thrower who reaches the top can enjoy more than double the successful seasons of his running colleagues.

THREE RELAY MARKS SMASHED

DUTCH WARMERDAM'S debut as director of the West Coast Relays at Fresno (California) on May 8th, apparently doomed because the AAU would not allow their chattels to compete, turned out to be a resounding success. With several out-of-state colleges adding spice to the competition, three relays were run faster than ever before in the world. Oklahoma State lowered the world's record for the 4 x 880y relay to 7:18.4 (actually 7:18.3), Stanford shocked the world with 39.7 for 4 x 110y, and UCLA ran the fastest distance medley ever, in 9:34.0 (actually 9:33.9). Bob Day, UCLA's smooth super-star, strode easily through a 3:58.4 mile to pull away from Bob Delaney's 4:00.1 on the final mile stage.

Stanford's record was entirely unexpected, for the race was supposed to be between San Jose State and New Mexico. Big Larry Questad, sharp after his open 100y victory in 9.3 over Darel Newman, stormed home to give the well-trained team—coached by Payton Jordan—a 39.7 victory.

Oklahoma State's record was not at all unexpected. Coach Ralph Higgins brought his team to California all but promising a world record. Jim Metcalf led off with a 1:50.6 leg, trailing Dave Kemp by two yards. John Perry blasted loose with a lap to go and ran 1:47.5 to open a 22 yard lead. Tom Von Ruden sped around in 1:49.2, and the record was in the bag even though anchorman Dave Perry (John's twin brother) caused concern with his 1:51.0 leg.

Hemery Stars at Boston

DAVID HEMERY, the 20-year-old Ruislip-Northwood hurdler, is currently the star performer of Boston University's freshman team. The 1963 AAA junior 120yH champion, whose best time over the 3'6" barriers prior to this year was 14.7, has clocked 14.3 on three occasions and in his first season of quarter mile hurdling has recorded 52.8—performances that rank him sixth equal and 19th respectively on the UK all-time lists. His coach Bill Smith regards Dave as "the best thing to hit Boston University since John Thomas. He's already broken all of Thomas' hurdles marks and there's no telling what he'll do in the future. He's just a natural".

Dave, who is 6'3" tall, weighs 165lb and will turn 21 on July 18th, has the following marks to his credit this season:—14.3 and 53.3 at Waltham, Mass. on April 8th; 14.5 and 53.5 at Boston on April 24th; 14.5 (against a 3.6m/sec wind) and 53.5 at Hanover, N.H. on April 28th; 14.3 and 53.8 at Boston on May 1st; and 14.3 and 52.8 at Cambridge, Mass. on May 4th/5th. At the Hanover meet, he also won the 100y in 10.5, won the long jump at 21'1 1/2" (ahead of his younger brother's 20'6 1/2" for Dartmouth College), ran anchor for the winning sprint relay team and placed 2nd in the triple jump at 42'7 1/2" (behind his brother's 42' 10")!

British Team for University Games

PAT BESFORD, organising secretary of Britain's participation in the World University Games (Budapest, August 20th-29th), invites eligible students of the required calibre to apply to her at the BUSF, 28 Woburn Square, London, W.C.1.

The following are eligible for inclusion: students officially registered at a University, University College or College of Advanced Technology reading full time for a first or post-graduate degree or diploma; students officially registered at Teacher Training College or Higher Technical College (subject to certain provisions); and former students who obtained their academic qualifications in 1964. Age limits: over 17 and under 28 on January 1st, 1965.

The standards for first nominations (not selection) are: 100y—10.0, 220y—21.9, 440y—48.9, 880y—1:52.5, mile—4:08, 3M—13:50, 120yH—14.7, 440yH—53.5, HJ—6'5", PV—14'6", LJ—23'6", TJ—48'0", SP—53'6", DT—150'0", HT—180'0", JT—220'0", Dec—5700; women's 100y—11.9, 220y—25.5, 880y—2:16, 80mH—11.9, HJ—5'0", LJ—18'0", SP—44'0", DT—135'0", JT—130'0", Pen—3700. The standards required for selection will, in most events, be higher. Final selection will take place on or about July 12th.

Glasgow Univ. 80, Edinburgh Southern 52, Edinburgh A.C. 42, at Westerlands, May 12th. The highlight of the match was without doubt the brilliant 47.9 quarter by Menzies Campbell which beats the Scottish National record, held jointly by "Ming" and John McIsaac, by one-tenth. Sadly, it is unlikely that the time will be passed as a National record because there were no grade one timekeepers present. Gordon Brown of Glasgow University, who up to last year had a best of 55.8, clocked 54.5 in the intermediate hurdles. 100: M. Campbell (GU)

Easy Win for John Tarrant in Exeter-Plymouth Race

ON Saturday, May 8th, 38 starters lined up for the second annual Mackeson Trophy 44 miles Exeter-Plymouth race. Included this year for the first time was the team race for the Whitbread Cup which attracted an entry of six teams. Organisation of the race was in the capable hands of the Road Runners Club (Devon Branch) with Peter Johnson in control at Exeter and Fred Briggs at Plymouth.

Trevor Joyce (Cheltenham) went to the front at the start and led the field out of Exeter at about 6½ min. mile pace. Right behind were Dave Smyth (Bristol) and John Tarrant (Hereford L.I.) but it was Joyce who made most of the early running and was first at the 5 miles check point in 31.04. Eight seconds behind came John Tarrant and Smyth, with Stairs (Belgrave) and Penberthy (T.V.H.) 16 secs further back. Johnson (Tipton), Powell (Tipton) and Pluck (Bournemouth) passed through in 32.29 with Brandon (Cheltenham) and Vic Tarrant (Cheltenham) together in 33.25. Fern (Tipton) and Pearce (Bracknell) another 6 secs behind, completed the first dozen.

At the foot of Halden Hill John Tarrant went ahead, taking Smyth with him, and this pair had a clear lead of 30 secs at the top of the climb. On the long descent however, Joyce and Stairs moved up to the leaders and this group went through 10 miles together in 64.02. Penberthy passed through in 64.43 and then followed the trio, Johnson, Powell and Pluck in 66.34. At this point Joyce went ahead again and with John Tarrant being forced to make an involuntary stop, the leaders split up, Joyce passing 15 miles in 1:33.34, 28 secs ahead of Smyth, 56 secs ahead of Stairs and 65 secs ahead of John Tarrant.

At about 16 miles Smyth caught Joyce and then John Tarrant joined this pair shortly before 20 miles. Stairs and Penberthy were dropping back but Johnson and Pluck, having dropped Powell, were beginning to come through. Twenty miles was reached in 2:07.36, with the leading three 1 min. 41 secs. ahead of Stairs, and 3 min. 12 secs. ahead of Johnson and Pluck. As the leaders entered Buckfastleigh (23 miles) John Tarrant almost imperceptibly increased the pace and the result was dramatic. Joyce, who was now feeling the effects of his delayed journey overnight to Exeter following the birth of a son the previous evening, blew up and became detached. Smyth held on for about a mile before losing contact and then at about 26 miles called it a day. Penberthy (blisters) and Stairs had likewise had enough and only Pluck and Johnson, still only 3 mins. 12 secs. behind John Tarrant at 25 miles, were holding their own. At 26 miles they passed the struggling Joyce and moved into second and third positions. But John Tarrant was in good form; with 2.40.10 at 25 miles, 3:15.06 at 30

miles and 3:49.02 at 35 miles, no-one had a real chance of catching him. Pluck was only 4 mins. 47 secs. adrift at 30 miles and 4 mins. 51 secs. at 35 miles, but this effort was to cost him dearly. With every mile Tarrant opened up a larger gap and ran into Plymouth a clear and easy winner 21 mins. 39 secs. ahead of the second man and 21 mins. 26 secs. inside the previous record.

The battle for lesser places and the team race remained full of interest. At 40 miles Pluck (4.38.11) had a clear 11 minutes in hand over a tiring Johnson who in turn led Joyce by 35 secs. Vic Tarrant, who at one stage had all but caught Joyce, was coming through a further 55 secs. away. Soon after 41 miles Johnson was caught, first by Joyce and then by Vic Tarrant, both now going well. At 42 miles Pluck was in trouble and unaware that Joyce was coming up fast. It was a great effort for him to run at all and with just about 200 yards to go Joyce caught and passed him to take second place. Pluck somehow managed to struggle home in third position before his legs finally folded up. Vic Tarrant, who had run a most intelligent race, came in fourth, followed at intervals by the Tipton team of Johnson, Powell and Fern. In the team race Tipton, who had led Cheltenham by 10 points to 11

Race Walking

By L. W. WOODCOCK

ACCIDENT to Trimming: Readers will be sorry to learn that a week ago Chris Trimming met with a motor-cycle accident resulting in a leg being broken in two places. He had just left a training session with Stan Vickers in South East London. This popular Highgate Harrier was thought by many to have a brilliant racing career before him. Obviously this unfortunate accident will keep him out of competition for many months, but everyone will sincerely hope that he will be blessed with a rapid recovery.

Midland Coaching: In an effort to stimulate Coaching within the Clubs, a series of whole day courses will be held at the Butts Stadium, Coventry on the following dates:—30th May, 20th June, 1st August and 5th September. These are all Sunday dates and have been chosen to avoid clashing with any races. Whilst all walkers will be very welcome, these sessions are really designed to encourage would-be Coaches to come along for instruction and advice, with a view to building up to taking an examination to obtain their A.A.A. Badges when the Area holds its next week-end residential course at Lilleshall on 15th-17th October. A room has been booked at a nearby hotel for the showing of films and talks, and refreshments will be available.

There will be no charge as such but the Butts require 1/- entry which includes the use of a shower. The proposed programme is:—10 a.m. Start. Short talk and practical work on the track, which will include all aspects of Coaching, Style, Diagnosing and the rectification of faults, helping the pupil-coach to "Get it across to his pupil", Exercises, etc. 12.30: Break for refreshments. 1.15: Films and talks, discussion, etc. 3.0: Track as before. 5.0: Finish.

It is hoped at the first session to be able to take some slow motion film of all the walkers attending, taken from various angles and positions. These will be shown at subsequent meetings when an analysis will be made of the various styles. It is hoped that these sessions will be well attended and besides being in the charge of Mr. Lloyd Johnson (Area Senior Coach) it is expected that Idris Williams, John Edgington and George Chaplin will be there to assist. Enquiries to:—Mr. T. Lloyd Johnson, 38 Victoria Court, Allesley Park, Coventry.

Police Walk: Probably because of the size of the entry there was little pre-race publicity for the annual Barking to Southend Police Walk. With 349 entries criminals might have felt that they would have a free hand to go about their business that day! There was a great race between two past holders, Charlie Fogg and Gordon Brown, and a young new-

Ron Penfold (Steyning) winning the Sussex 20 Miles Road Walk Championship in 2hrs. 54mins. 18secs.

comer, David Watts. Fogg showed a lot of guts when, after being passed in the later stages by Watts, he made a wonderful recovery to repass Watts at Chalkwell, and went on to win with a new course record of 4hrs. 48m. 02s. Watts was also inside the old record and at his first attempt. It seems that Fogg will be trying this summer to catch the selectors' eye for our "Lugano Cup" Team.

AAA 2 Miles: This year's AAA 2 Miles is very much on trial because if there is not a good entry this time it will be dropped from the Championships programme. The RWA has undertaken to do all in its power to see that every walker with the requisite standard will have the opportunity to compete. The RWA will pay the entry fee of all walkers accepted and will assist with the fares of those residing over 50 miles from London by paying up to two-thirds of their rail fare. A circular will shortly be sent to the walkers in all Areas whose performance is considered to be in this class, together with an entry form. Entrants should send back their entry form NOT to the AAA or Area, but to Mr. J. W. Goswell, 7 Faversham Court, Faversham Road, Catford, S.E.6 well before the closing date for entries so that the RWA may approve the entrants.
