STAGE SET FOR EUROPEAN CUP FINAL

Exciting competition anticipated at Stuttgart this weekend

THIS weekend the dream of the late Bruno Zauli comes true with the staging in Stuttgart of the final of the European Cup, named in his memory. The six finalists are the Soviet Union, Poland, West Germany, East Germany, France and Britain. Scoring is 6 points for a first place, 5 for 2nd, 4 for 3rd, 3 for 4th, 2 for 5th and 1 for 6th.

Based on the season's best marks by each competitor (see below), the result would be a win for the USSR with 92½ points, followed by West Germany (80½), Poland (75½), East Germany (62), France (59) and Britain (50½). With only one field event performer—Fred Alsop—likely to place higher than 5th, Britain's trackmen will have to surpass themselves if the team is not to win the wooden spoon.

Exciting, high-class competition can be expected in every event, as the following "dope-sheet" makes clear.

100m: 10.1—Wieslaw Maniak (P), 10.3—Manfred Knickenberg (WG), 10.4—Amin Tuyakov (USSR), 10.4—Harald Eggers (EG), 10.5—Jocelyn Delecour (F), 10.5—Barrie Kelly (GB).

200m: 20.7—Marian Dudziak (P), 20.8—Jocelyn Delecour (F), 20.9—Gert Metz (WG), 21.0—Edvin Ozolin (USSR), 21.2—Heinz Erbstosser (EG), 21.2—Pat Morrison (GB).

FIELD EVENTS

THE recent defeats we have suffered—in all bar the match with Hungary—have served to emphasize the deplorable standard in most of our field events. Twenty years ago we were saying the same thing and though we have made considerable progress in some events, other countries have made even greater strides, so that we are, except in one or two isolated cases, even further behind world standard than we were then.

The long jump and triple jump are exceptions, though we have no-one to back up Fred Alsop in good class international competition in the latter, and even in the long jump we rely very largely on Lynn Davies.

It is in the throws where we are so lamentably poor. Various reasons have been put forward for this, including lack of interest and publicity for field events, but I still think as I did twenty years ago—that unless we have the huge, strong, powerful and fast-moving athletes we see representing other countries, we are unlikely to approach them in standard.

This week-end, when we engage in the European Cup Final in Stuttgart, our low standard will make it extremely difficult for us to reach even fourth place, no matter how well our track men perform. In fact, on paper we should be last of six. Fortunately, the team "have their tails up" following the fine performances of several of our athletes—despite overall defeat—last week-end in the match against East Germany, and I am sure we can expect some more good performances from them. About ninety supporters are travelling in two "A.W." parties for the meeting and will undoubtedly make their presence felt.

It was particularly pleasing to see both Chris Carter and Anne Smith doing so well last week-end. Chris has so often used up most of his energies "front running" and has still been strong at the finish, but I have always wondered what he might achieve in a fast race if he bided his time until well into the last lap. Now we know! And I was pleased to see Anne Smith running her race "in reverse" as it were, a steady first lap and then going hell for leather round the last lap. I think she is likely to achieve faster times and be much stronger at the end running this way, though not necessarily with a 5sec. differential.

Events today include the Ogden Trophy Meeting at Feltham; Shrewsbury Carnival Sports; Bingley Inter-Club at Keighley; Carshalton Trophies Meeting; Salisbury "Round the Houses" Road Races; Woodford—Southend "36"; Thornton Cleveleys "7"; Gilwern "7"; Lancs. A.A.A. Red Rose "20"; Welsh 7M. Walk Champ.; and the Yorks W.C. Dick Hudson's Walk.

We have heard of a number of cases of late delivery of "A.W." in the last week or so. One sack of mail which affected Hertfordshire and Yorkshire in particular seems to have been "lost" for a week or more. Steps are being taken to ensure that this does not recur.

THE EDITOR

LETTERS TO THE EDITOR

Views expressed in readers' letters are not necessarily those of the Editor or the publishers

FLANNEL

Dear Sir,

I must disagree with Andrew Huxtable's criticism of Peter Ferguson's letter. The phrases he describes as flannel (e.g. "throwing technically well") surely give more information than the fact that a certain event was the "highlight" of a meeting, for example, which should be apparent to a reader of A.W. Indeed, the last paragraph of Peter Ferguson's letter states why three throwers are not the best in Europe, giving concrete reasons, whereas many reports would say either nothing at all about the throws or merely their positions and distances.

Let's have more and more information, contained in reports, about how a certain athlete achieves a new record and why he performs better or worse than his rivals, rather than endless statistics which are apparent from results.

Yours sincerely,

Peter Wrighton,
Ruislip.

ROAD RACE REPORTS

Dear Sir,

I would first of all like to say how much I agree with Andrew Huxtable and go even further and say that sound statistical reporting of field events (or any others) is infinitely preferable to the elaborate, emotional "flannel" of Peter Ferguson. I can appreciate that he is trying to get more space devoted to field events but I feel that a concise report backed up with facts and figures is quite sufficient.

As regards the contents survey, I think that far too much space is devoted, especially in the summer, to road race REPORTS. The summer is track and field time and there are surely enough results and articles about this without cluttering up the magazine with tedious and very repetitive reports of not very important road races. I will concede that road results must be included but why not make them just as brief as inter-club track results. Surely they are no more important. By all means publish reports in the winter, but keep to the big events. After all, who is interested in reading exactly how Joe Brown beat Fred White in the Little Chipping Sodbury X Miles road race—except perhaps the participants?

A.W. must be essentially a British magazine but the overseas results are equally important and essential for anyone who tries to keep up with athletics the world over.

Personally I enjoy the all too few articles

(e.g. Hyman, Korobkov etc.), action photographs, and results of important events (international meetings and the like) but feel that the questionnaires are rather over-rated and take up too much space. In place of a 2 page questionnaire, a 1 or 1½ page article would tell much more and be more readable.

Yours faithfully,

G. J. Manning,
Tudworth.

CONTENTS

Dear Sir,

I know an awful lot has now been said on the contents in A.W., yet even at this late hour, I would like to voice one plea and one only.

Please don't cut down on overseas results, news and features. I do feel strongly that for the spectator in athletics at least, the world-wide picture is of far more interest than home results right down to the 100th man. For the athletics observer a good perspective on performance, and an ability to see all results in relation to other significant marks posted is all important if following athletics is to make sense.

I know you have to cater for a majority of participating athletes who naturally want to see their names, and their friends' and rivals' names in print most of all, even if they are also-rans, and I realise that you want to please everyone.

Your task is a very difficult one. I thought the problems were solved when World Athletics came into print but alas, poor circulation presumably forced your admirable brain-child to merge with A.W. Now you are back where you were in 1961.

(Not quite. I am sure readers will agree that great strides have been made in the last five years. Ed.).

I think that providing the overseas proportion in print at the moment doesn't decrease, A.W. is as fair to all as it can be. Of course I would like to see more overseas news, and equally the English club athlete would like more detail and more coverage of home results. But this is just not possible without further expansions in size and cost of A.W.

I think the key lies in remembering and tolerating the people with other tastes, and to be grateful for the sections—all splendidly done—which cater for one's own interests.

I never thought I would be interested in walking or road race results, but due to excellent journalism, I avidly follow both sections now!

I was horrified by the dogmatic writing of

some of your readers on this subject of contents. They obviously don't realise that other people with other tastes exist. Well, they do! And we won't be squashed flat either!!

Keep up the good work. We gratefully appreciate all you do.

Yours in athletics,

Christopher Sykes,
Amersham.

Dear Sir,

It is salutary for those who criticise to be themselves criticised, and I will concede that the style of my report of the throws in the GB vs. Hungary match is imprecise at the points indicated by Mr. Huxtable (although the cutting of a key sentence from my last paragraph contributed to the apparent banality of my remarks about King, Roscoe and Teale), but in concentrating on my throws report (which I only wrote because invited to do so by the editor, feeling that this would be a positive contribution to add to the negative contribution of a letter of criticism) Mr. Huxtable ignores my original letter, which was quite impersonal and generalised and nothing to do with putting myself forward as a better journalist than Melvyn Watman or any other NUTS member.

The main point of my letter was that 'A.W.' reports of field events are cursory and mainly statistical, rather than technical; this point Mr. Huxtable does not deny, and I notice, too, that although in the contents survey readers have protested about an excess of distance running, Southern news, European news, etc., nobody has protested about excessively detailed reporting of field events. In fact, I have yet to meet a field athlete who thinks that "A.W." covers field events as adequately as track events. If field events are to be covered separately, the person to cover them really well should obviously be more qualified than I (in any case, I am in full employment and have no designs whatever on the job)—perhaps a senior or a national coach; but probably no outside help is needed, as I see the field events are given good coverage in the report of the GB vs. Czechoslovakia match and it seems inconceivable that anybody could attend as many ath-

letics matches as the NUTS do without acquiring a really detailed insight into field events, to enable them to report them as effectively as they report track events.

Yours sincerely,

Peter Ferguson

*Comments from other letters
on the Contents Survey:—*

Articles by the great champions of yesterday would be interesting, valuable and well received provided they have something to say about today. Please keep to the true experts of individual events and avoid the "jacks of all trades" e.g., some National Coaches. **K. C. Kirby (Wallington).**

I enjoy the reports by Sam Ferris but wish he would not waste half a column by substituting a jumble of words which, when analysed, mean nothing in particular. He also uses some quite unnecessary and horrible puns. **B. E. Boulton (Motttingham).**

More reports from Sam Ferris, please. His amusing reports add a touch of gaiety to the magazine. **H. J. Barham (Birmingham).**

OPPORTUNITIES FOR WALKERS

Dear Sir,

In reply to Mr. L. W. Woodcock's comments on my letter, I am sorry if I have been unfair to the British Board in this particular instance but the fact remains that in most years a walker has less opportunity of winning an International vest than athletes in other events. I am glad that we have Mr. Woodcock's assurance that the British Board did their best to have a walk included in the Poland and Hungary matches. It is true that the Board pays for our walkers to compete in the Lugano Cup but presumably they also pay for our athletes to compete in the European Cup, where no walk is included. Therefore it can hardly be claimed that walkers are getting an extra chance of International competition denied to other athletes, and our walkers are left with at least two matches less than others. Nor am I forgetting the Milan and Prague-Podebrady races though I am not sure whether these count as full International events.

VAUXHALL MOTORS

4th Annual

LUTON TO BEDFORD OPEN ROAD RELAY

(5 Stages)

SATURDAY, October 2nd : at 2 p.m.

Challenge Trophy 1st team, Medals first 3 teams. Entries 10/- 1st teams, 5/- others, to P. Coleman, Vauxhall Motors R.C., Luton, Beds.

Closing date—Friday, 24th September, 1965

A similar position has existed in other years. Last year, prior to the Olympics, there were three full Internationals, two excluding walks, and a non-scoring one in the French match. It is true that Paul Nihill was sent to Lausanne for an International 20 km. event but I am wondering if this counted as a full International as two of his clubmates competed, presumably under their own club colours, according to the result.

The position for our 50 km. men is often worse, as they often only have the opportunity of competing in one, or at most two International races a year. Perhaps if our opponents in the full track and field Internationals are reluctant to provide opposition for our walkers, the Board could explore the possibility of International matches solely in race walking.

Yours sincerely,

John Powell,
Highgate H.

POOR T.V. COVERAGE

Dear Sir,

After seeing the T.V. coverage of the G.B. v. Czechoslovakia match on Bank Holiday Monday I would very much like to add my name to the roll of people who have already complained about badly planned programmes such as the above.

There are, for the interest of the television services, other events besides track events. We all wanted to see the Morley Mile, agreed, and one or two races, but for the field enthusiasts (both throwing and jumping) not even a morsel of time was dedicated to their interest.

I don't suppose it occurred to the programmers that Ludvik Danek, world record holder in the discus, might just be throwing during one of the races. Too much interest is centred around the track events.

Must we engage the services of Russian Television to give us a fair view and adequate coverage on track and field? If Monday's effort is the best we can do, I think we'll have to!

Yours in athletics,

David Evans,
Waterloo H.

THIRD BEST

Dear Sir,

In our feature "With the Ladies" (August 28th) on the Carshalton Trophy Meeting, you stated that Brenda Bedford's 153'8" discus throw moved her into second position in the U.K. All time list, with this I must disagree, Surely first is Rosemary Payne with 163'8" at Zagreb second is Suzanne Allday with 156'6" at Motpur Park in 1958, and Miss Bedford's performance must rank at least third. If performances and not performers count, this performance must rank well down the list.

Yours sincerely,

Nigel Holmes

Quite correct, this throw made Brenda Bedford the third best U.K. Performer. Ed.

SLOW HANDCLAP

Dear Sir,

It was amusing reading Mr. Colin Henderson's letter which condemned slow-handclapping during the Emsley Carr mile. THE PUBLIC HAVE A PERFECT RIGHT TO SLOW-HANDCLAP IF THEY FEEL THEY ARE NOT GETTING THEIR MONEY'S WORTH. This method of condemning a "poor" performance is used in boxing, football, horse racing and many other sports.

The public pay MONEY to see ACTION. They do not pay to see a spectacle and to be told that they must like it or leave it. One must be thankful that the public can distinguish between a fast first half of a mile and a slow one!

If the public do not slow-handclap, what other way are they going to show their disappointment? Perhaps the violence of the Glasgow Rangers matches would be more appreciated! Or perhaps we could turn the White City into a National Sporting Club where applause is forbidden and you pay ten guineas a year membership to watch sport like mutes.

(I did clap AFTER the Emsley Carr mile.)

However, it is wrong to think that this meritorious tactical race by Alan Simpson has "given British miling a tremendous boost."

Although the race was not won by a Britisher, the W.A.A.A. men's invitation mile did boost us in the world's eyes. To get five British runners through inside 4-minutes, and ALL with personal bests, is a feat that has not been achieved by any other country. It was pleasing to note that the British Press thought so too, and gave the occasion banner headlines on the Saturday.

Yours sincerely,

F. J. Horwill.

A complete athletics kit in a green holdall was mislaid after the Blackpool Illuminations Meeting, probably put on the wrong coach. Would the finder please advise Ian Stewart, 24 Eyton Croft, Birmingham, 12.

Blackpool Illuminations Meeting

September 4th

LITTLE known Leigh sprinter Eddie Pavitt, one of the most underrated sprinters in the north, clocked the same time as the winner, Leslie Piggott, in the Invitation 100 and won the match 220 in a fine 22.0 from young Chris Mossop. His furlong clocking would have earned him second place in the Invitation 220 which was won well by Harvey Grace, with Adrian Metcalfe being well beaten into third place by David Edwards. Metcalfe must have been satisfied with his 22.2 come-back after such a long lay-off and a few similar races should put him in the right frame of mind to face a winter build-up for Jamaica.

Once again Derek Graham outprinted his rivals in the mile after similar victories last month at St. Helens and Bolton. He powered past Jackson and Taylor in the last 60 yards for a well-judged win.

In view of some queries, in the English Schools Championships the girls' javelin had a drop in the direction of throws varying from 1:80 and 1:31. Also, there was wind assistance in the Friday's heats varying from 0.1 to 7.0 mps.

It is quite likely that Bert Nelson and a small Track & Field News group from the U.S.A. may be joining our party to the European Championships in Budapest next year.

6'7½" JUMP BY KADIRI IN LONDON CHAMPIONSHIPS

JOSEPH KADIRI achieved his best high jump since 1961 at the Greater London Championships in Hurlingham Park on September 4th. The 28 year-old Nigerian, who employs an Eastern cut-off style and jumps for Herne Hill, maintained a lily-white scorecard up to 6'7½", by which time everyone else had been eliminated. He cleared this height on his second attempt for a new championship best. Kadiri, jumping without a right shoe, never looked like clearing 6'9", although he was obviously put off balance by the announcer who insisted on giving heat results as Kadiri was about to make his effort.

In the half-mile Jim Johnson led through the quarter in 56.9, followed by Tony Harris, a very strong looking John Goodwin and John Backley. With 220 to go Harris, Goodwin and Backley were running abreast and the trio burst past Johnson. A tremendous finish looked in store, but 50 yards later Goodwin went flying off the track onto the grass, and Harris was away before the startled Backley had recovered. The Mitcham man, running in an A.A.U. singlet, fairly belted out the last yards and won comfortably in record time. Another record went in the 2000 metres steeplechase, where Halliday of Hercules looked well within himself as he clipped 13.8 seconds off the mark set last year.

Polytechnic dominated the three sprints although in the 100 and 200 Martin Winbolt Lewis looked most impressive and was gaining on the field at the finish of both races.

The standard of the junior events was rather poor overall but John Mitchell was an exception. Last year he won the 100 and long jump and finished second in the 220 in 10.5, 22'2½" and 23.9 respectively. This year he repeated the placings but the marks were 10.4, 23'0½" and 23.4. Unhappily the afternoon was a gusty one and whilst the wind was against the sprinters and triple jumpers, it was with the long jumpers. Wind or no, youth John Wilson clocked an excellent 22.7 furlong, which would have won him the junior event and placed him fourth in the senior.

Due to a printing error in the application form, some athletes ran as juniors and youths who did not, in fact, come under these categories.

MIKE FREARY FIRST HOME IN ULVERSTONE-BARROW '8½'

ON a hot but windy August 28th Mike Freary led from the start of the Ulverston to Barrow Road Race to win for the second year. Local runners Peter Hall and Fred Reeves had a great tussle for the minor placings with Hall just getting home first. Barrow's team packing helped them maintain their grip on the team trophy which has not left Barrow in the four years since the race's inauguration.

FIRST TWO TO GODIVA BUT L.C.A.T. WIN TEAM RACE

BILL ADCOCKS and Juan Taylor, fresh from their A.A.A. Marathon success the previous week, set a fast pace right from the start of the L.C.A.T. 6 mile Road Race on August 28th. Only Ron Grove (LCAT), who gained a slight advantage at the 2 mile marker where Adcocks and Taylor lost 20 yards through missing a turning, could stay anywhere near the pair. By halfway the Coventry boys had regained control of the pacemaking with Grove in close attendance.

Juan Taylor recovered more quickly from the half mile climb that followed and on the long downhill run to the 5 mile post he gradually drew away from his compatriot who, in turn, opened a gap from Grove and this pattern was maintained to the finish.

MIKE BARRATT WINS WYCOMBE 5 MILES

AFTER several years of high places and excellent running, Mike Barratt (Ealing) at last managed first place in this year's Wycombe 5 mile Road Race on August 28th. From the start Barratt was at the front but he did not succeed in shaking off his club-mate John Lusty or Brian Bacon (Reading) until the final straight. Always at the head of the field, this trio exchanged the leading position until Barratt asserted himself to win by six seconds from Lusty, with Bacon a further five seconds behind.

Why not try the Decathlon?

HAVE you ever thought of taking up the Decathlon as an event? The introduction of the 1962 I.A.A.F. scoring tables has considerably closed the gap between the top performer and those lower down the scale. To illustrate this, Yang's World Record under the 1952 tables was 9121 points, but under the new tables is now 8089 points, a drop of 1,032 points, whereas the 31st performer in the U.K. Lists for 1964 improves his score by 978 points from 4286 to 5264.

I am often asked what is a reasonable number of points to score in a Decathlon in order to justify entering a competition. Several athletes competing in Decathlons during this season have been just over 3,000 points, but I would suggest 3,500 points as a minimum for which to aim, and if you have international aspirations the aim should be at least 5,500 points in your first competition with 7,000 plus as an eventual aim.

To attain 3,500 points you will need to have personal bests for each event, taken individually, totalling at least 4,000 points and to give you some idea of the performances required to reach this total I set out the times and distances to give 400 points in each of the ten events:

100m. 12.9.	Long Jump 16'10"
Shot 30'2"	High Jump 4'11"
400m. 61.0.	110m. Hurdles 20.8
Discus 88'0".	Pole Vault 8'6".
Javelin 112'1"	1500m. 5:01.5.

Most athletes avoid the Decathlon because of the Pole Vault and Hurdles and these are generally the weakest events of most of the U.K. Decathletes. The rules of the Decathlon require that you should participate in each event even if you do not score in each. It is encouraging to note that to score in the Hurdles you need only do 31.9s for 2 points and in the Pole Vault 4ft. 11ins. for one point. However, these facts are only quoted to encourage athletes to make an attempt at the Decathlon. Anyone intending to take the event seriously should devote a fair proportion of their training programme to improving these two events.

Outstanding ability at one event will obviously help to gain points to offset weaknesses in others. An example of this is David Travis, who in the A.A.A. Championship achieved 903 points in the Javelin with a throw of 236ft. 6½ins. However, specialist Decathletes cannot afford to rely too much on one event and must try to improve their all-round ability in case of an off day or three fouls in their strongest event. Only three trials are allowed in the Long Jump and Throwing events. David Travis in the A.A.A. Championship only had

Leslie Williams

Hon. Secretary, Decathlon Club

three events under 600 points for his total of 6,791, as did Norman Foster, who achieved 879 for a 14ft. 0½in. Pole Vault. Derek Clarke, who is a long seasoned Decathlete with 27 Decathlons under his belt, only had two events under 600, but had no outstanding event.

SPEED

As with most sections of athletics the basic requirement of a Decathlete is speed. Onto this can be built strength and stamina with the help of weight training and cross-country running. Agility exercises to acquire suppleness for the Hurdles, High Jump and Pole Vault are necessary and, above all, constant attention to the details of the various techniques is essential. Running training should be based on that of a 400 metre runner which should give some carry over for the 1500 metres. One would not expect to run a 4 minute 1500 metres but an effort should be made to get 500 points, i.e. 4m. 44s.

What are the rewards? As an "also ran" the immense satisfaction of achievement—completing the killer event in a new personal best. As a prospective international athlete the possibility of representing Great Britain in the annual triangular match between Belgium, Holland and Great Britain, and now the possibility or representation in full track and field matches, where these can be arranged. England v. East Germany is the first of these.

The Decathlon has now been included in the British Empire and Commonwealth Games which gives an outlet for athletes from England, Scotland, Wales and Northern Ireland. Next year there will be an inter-area Decathlon. Many new Decathlons are being introduced, those at County level being held in May and September. This year we still have the Kent on 18th/19th September and the Middlesex on 25/26th September. Why not have a go?

There is now a specialist club for the Decathlon formed about eighteen months ago. Further information can be obtained from the Secretary, 8 Arnian Court, Town Green, Aughton, Lancs. Scoring tables can be obtained from the I.A.A.F., 46 Victoria Street, London, S.W.1. —8/6d. Post free.

Eire Beat Northern Ireland But Lose Women's Match

At Santry, August 28th

STRONG winds hindered the athletes though out and the Northern team was weakened by the last minute withdrawal of all Royal Ulster Constabulary athletes, due to a parade outside Belfast. A sad occurrence came about in the women's quarter: Maevie Kyle suffered her first defeat over 440 yards at the hands of an Irish athlete in her 20 years of athletics.

BALAS—Unbeaten for 8 years

by Jack Barlow

WHEN eventually broken, the once thought barely attainable barriers in athletics like the 60 ft. shot-put or the four minute mile quickly become commonplace achievements at an international level. Notable among the few exceptions, however, is the clearing of a bar raised upon two uprights to six feet above the ground. The attainment of this height in the realms of women's high jumping has, in actual fact, become quite commonplace—but to one person only, Rumania's remarkable Iolanda Balas, who prior to this season, has won 47 competitions at or above this figure, and who, it could be claimed, now enjoys a degree of supremacy in her speciality which is

greater than that of any other competitor in any other sphere of track and field.

Anyone who doubts this should take a look at a women's all-time best performances list compiled up to the end of 1964. Consultation of such a list will reveal the astounding fact that Miss Balas had won no fewer than 39 high jump contests since 1959 with marks ranging from 6'0½"/1.84 up to her present world's record of 6'3¼"/1.91—all of which were actually superior to the best jump ever achieved by the second highest women jumper in history (Michele Brown, 6'0¼"/1.835). Tabulated below are the details of this unique set of marks:—

Height	1959	1960	1961	1962	1963	1964
6'3¼"/1.91	—	—	1	—	—	—
6'2¾"/1.90	—	—	1	—	—	2
6'2"/1.88	—	—	1	—	1	1
6'1¾"/1.87	—	—	1	1	—	2
6'1½"/1.866	—	—	1	—	—	—
6'1¼"/1.86	—	1	2*	—	—	—
6'0¾"/1.85	—	2	7	4	—	2
6'0½"/1.84	1	2	1	4	1	—
	—	—	—	—	—	—
	1	5	15	9	2	7

* Denotes one mark made indoors.

The Rumanian star knocked the bar off this time—at 6ft.2in; but won the competition at 6ft.

An unusual picture of Iolanda competing in the 1962 W.A.A.A. Championships.

Ed Lacey

One finds that superlatives abound when taking full stock of Iolanda's achievements. Her last defeat, believe it or not, was back in December 1956 when, although already world record holder at what now seems a very modest 5'8½"/1.75, she found herself out jumped in the Olympic final at Melbourne by America's Mildred McDaniel, who set new figures of 5'9¼"/1.76. Balas equalled this mark in October 1957, but in Peking the following month the Chinese girl, Cheng Feng-Yung, cleared 5'9¾"/1.77. By June 1958, however, the world's record was Iolanda's sole property again at 5'10½"/1.78 and since then she has proceeded upwards to unprecedented heights which have left admirers and rivals, alike, aghast.

In British terms, the successive one inch barriers were surpassed with seemingly magical ability: 5'11" in July 1958, 6'0" in October 1958, 6'1" in July 1960, 6'2" in June 1961 and finally

6'3" in July 1961. Looking at it another way, the phenomenal Miss Balas thus improved by as much as 5½" between 1958 and 1961, while the rest of the world could only add a mere ½" during the same period—Taisia Chenchik (USSR) displacing Cheng Feng-Yung as the world's second best ever performer by clearing 5'10½"/1.78 in 1959.

Since 1961 it has merely been a matter of Iolanda marking time while the rest of the world's leading women high jumpers strove to reduce her overwhelming margin of supremacy. Not until last year were they able to make up any ground at all when Australia's Michele Mason-Brown established a new Commonwealth record of 5'10½"/1.79 in February, Wu Fu-Shan brought China back into the picture by clearing the same height in June, and Mrs. Brown improved to 6'0¼"/1.835 in November.

World University Games, Budapest

August 25th—29th

THE largest British team ever sent to the World University Games by the B.U.S.F. failed to win one gold medal, although in view of the magnificent standard prevailing, this was hardly surprising. Particular results to note include the entirely unexpected Japanese wins in the 100 and 5000 metres; the comparatively poor showing of the U.S. track men; the Italian hurdle successes; the tremendous standard of the triple jump; the eclipse of Tamara Press in the discus, her first defeat for two years; and the superiority of Penes in the women's javelin.

Noteworthy amongst British performances: the upholding of the British sprint tradition by "Ming" Campbell and Liz Gill; Peter Reed's excellent long jumping; a great run by John Cook in the 400mH; Pat Brown in the women's 800m and Sue Mills in the pentathlon; the disappointing performances of Carter, Fitz-Simons, Dennler and Parkin (3 no-jumps), and the hard luck of Ann Fordyce, falling in the 80mH when a possible medal winner. Jeff Julian Wins Marathon

NEW ZEALAND cross-country champion Jeff Julian won the Reidbuilt marathon in the good time of 2h. 21m. 28s., a week after winning his New Zealand cross-country title. Racing in Auckland on August 14th, Julian warded off a magnificent and spirited challenge from Neville Scott.

Julian's stewards warned him with two miles to go that Scott, whom he appeared to be treating lightly at this stage, had regained 17s. on him in less than a mile.

Scott set the pace from the five-mile mark which he reached in 27m. 50s. Julian, G. Parker (Lyndale) and I. Keats (Western Suburbs) were with him. Scott forged on to the 10-mile mark in a crisp 55m. 16s., which suggested that the final time would be title under 2h. 30m.

Parker was still running strongly but Keats was distressed and fell back by a minute over the succeeding five miles. Parker was shaken off at 16 miles and Julian and Scott ran together, stride for stride, whipping up the pace considerably, to pass 20 miles in 1h. 48m. 45s. and the promise of a fast time.

Julian made his break over the following mile and, although he opened a large gap on Scott initially, the Manuwera athlete fought courageously back into the picture to finish less than 200 yards behind.

Result: 1, J. Julian (Owairaka) 2h. 21m. 28s.; 2, N. Scott (Manuwera) 2:22.00; 3, G. Parker (Lyndale) 2:24.42; 4, I. Keats (Western Suburbs) 2:28.27; 5, A. Curteis (Lyndale) 2:32.49; 6, I. Studd (Calliope) 2:32.59.

DELLA JAMES THE STAR IN SOUTHERN JUNIOR INTER-COUNTY

ON a fine August 28th in the excellent Cophall Stadium (Hendon), Surrey clinched both the Junior and Intermediate Southern Inter-County titles. It is a pity that the event this year was held during the school vacation as so many stars were on holiday, taking away some of the lustre but giving others the chance to win.

That great stylist and star of the future, Della James dominated the Intermediate sprints with 11.4 and 26.0 heats and then 11.3/25.1 in the finals, the latter mark being the fastest in Britain this year for her age group. Only just behind her in the 100 yards, the Middlesex first string showed tremendous power and this transformed the county relay team's position. Disappointing was the 18 yard gap between first and third in the 220 yards and a 30 yard win in the 880 where Margaret Herbert, with a good style, seemed to be over-reaching her stride. If more time had been left between heat and final, the times could have been faster.

Mary Scott nearly pulled off a major surprise in the shot by getting within four inches of the U.K. "Record" holder and in doing so improved her best by two feet. A chilly wind round the high jump on an otherwise fine day caused a drop in standard, for the juniors in particular where several upsets took place.

All praise to a running commentary by Connie Leslie who, surrounded by the Schools and W.A.A.A. results, outlined numerous athletes' history. What a revelation this would be at the W.A.A.A. Senior Championships—the vocal support by these young athletes proved it could inspire a team. Why do the seniors not do likewise? An outstanding addition to the meeting were the refreshments, all made by members of Shaftesbury Ladies who worked from 9 a.m. to provide this service.

HEREFORD COUNTY A.A.A. ROAD RELAYS

GRAHAM TAYLOR WINS SOUTHALL "10"

WITH the weather clerk on holiday and no-one to scribble irrelevant detail on the chart we were treated to brilliant sunshine on September 4th, the occasion of the 10th annual Southall "10". This event has built up a reputation of a high standard in every respect and it was left to a young active member to take over the responsibility of organisation. Tony

By Sam Ferris

Warren, in a weak moment around the committee table, "volunteered" to be Race Organiser! In spite of head scratching, inviting premature baldness, Tony did an excellent job.

In an entry of 300 it was noted that Blackheath Harriers contributed 63 names and it was assumed that the "Heathens" had erroneously submitted members' names for the seasonal opening run over the country! The actual starters numbered 153—oddly enough the same number as last year—and the course was a left-hand two lapper with an accurate measurement of 10 miles 700 yards. Last year 127 finished; this year 139 crossed the line.

The first mile was covered in a shade under 5 minutes when a batch of a dozen shared the lead. With such a grand field of talent the blistering pace was bound to be maintained and with the watch showing 14.30 for 3 miles a bunch of seven went by in the lead: North, Taylor, Macnamara, Barratt, Caiger, Thorpe and Calladine. Ten seconds later Davies was there and at 14.45 another group came along—Guildford, Ellis (TVH), Cooney, Edmonds and Lusty.

North, Taylor and Macnamara kept up the fast tempo by each "having a go" in turn and they came up to 5 miles in 24.05 with Barratt holding his good form. At 24.30 Caiger & Davies had joined forces, with Calladine 20

seconds away, and then, between 25.00 and 25.15, we had sight of Thorpe, Edmonds, Guildford, Lusty, Hamlin, Cooney, Case, Tetley and Ellis (TVH).

Around the second lap Graham Taylor, Gerry North and John Macnamara each tried a break but without success. Eventually Graham found his bonus which afforded that little bit more and off he went only a mile from home to repeat his three recent road race wins which will be of great value when he really gets his teeth into more seniors. Graham is a Junior international over the country. Graham had passed the 8 miles point in 39 minutes in company with Gerry North and John Macnamara. Close on their heels was Mike Barratt but Caiger and Edmonds were over a minute away.

With Mike Barratt, John Lusty and Co., Ealing maintained their team supremacy and it was fitting that the Deputy Mayor of Ealing—Councillor A. J. McCallum—should present the awards including the Quaker Challenge Team Trophy.

I owe a personal "thank you" to the Warren family for warm hospitality and door to door transport.

NEW STAR HUGHES WINS S.L.H. "30"

THE twenty-third annual 30 mile road race promoted by South London Harriers at Old Coulsdon, Surrey, on September 4th, was equal to any of its predecessors in the general standard of performance and interest.

A name new this year, that of the Welshman, Lyn Hughes, was added to the list of winners which include the Olympic athletes, Tom Richards, Jack Holden, Geoff Iden and Arthur Keily.

Hughes, in his first year in the long distance road races, ran prominently in the Polytechnic Marathon, and had been sixth in the combined AAA-Welsh Marathon at Port Talbot a fortnight previously. In winning in the good time of 2hrs. 59mins. 56secs., Hughes joined the select band who have broken three hours for this race.

It was a cool but sunny afternoon when the Mayor of Croydon, Councillor P. A. Saunders, J.P., sent the record number of 78 starters on their way. Elderfield, running effortlessly, went into the lead and was 69 seconds ahead of Hughes at the end of the first 7½ mile lap (42.29) with a large bunch, including Butcher, Bradshaw, Cooper, and last year's winner, Lucop, a further 29 seconds behind. Elderfield had increased his lead to 80 seconds at half distance (1:26.19). Hughes was running second as before, and the following group, another 75 seconds after Hughes, included Peter Bodley and Chris Lee, of S.L.H., making a determined effort to retain the team award for the promoting club, as well as another past winner, Keough. It is at this stage of the race that the sorting out process steadily and remorselessly begins to take place.

Elderfield was no longer running in his fluent style and his long legs were spread-eagled. Hughes had taken the lead before the end of the third lap (2:11.42) 50 seconds ahead of Elderfield, who retired at this stage. Colin Kemball, who always runs a well-judged race, was 3 mins 10 secs. behind the leader in second place, one second ahead of Lucop, with Butcher another 51 secs. away, followed by Bodley.

So the leaders went out on the last testing lap. Kemball got within 29 seconds of Hughes at the marathon mark (2:32.30), 11 seconds ahead of Lucop. The Welshman, however, held on to win by 1min. 39secs.

The first fifteen finished within 15 minutes of the winner and within the RRC First class standard of three and a quarter hours.

Notts AC won the team race, with a well-balanced team of Moore, Rhodes and Bradshaw, from Wolverhampton (Kemball, Lee and Hunt), with the winners of last year's London to Brighton, Tipton H. third.

Race Walking

By L. W. WOODCOCK

"LUGANO CUP" Venue: It has been announced that the venue for the IAAF "Lugano Cup" Finals will be Pescara which is on the Adriatic coast.

Chippenham to Calne Open: Harry Callow (Trowbridge AC) has informed me that in his pre-race publicity the closing date for entries was shown as 28th September in error, and has asked me to announce that the correct date is Saturday, 25th September. Entries (with Fees) to:—"Ingledene," Coronation Avenue, Bradford-on-Avon, Wilts.

Czech Match: For several reasons we were unable to field our strongest pair of walkers and although Ronnie Wallwork and David Watts gave of their best, both had an off-day and did not have a good race and were the first to admit it. Wallwork this season has done around three minutes faster and should at least have split the Czech pair. The opposition looked in much fitter condition than our walkers on this occasion, but we should not belittle their performances, both walking a consistent race. Some of our walkers were competing as guests and young Malcolm Tolley, who will be representing England with Peter Fullager against East Germany, took the opportunity to use the Battersea Park race as preparation for his first International event. The field also included our three Lugano Cup 50 Kms. selections and of these Ray Middleton must have been well satisfied with his performance. Intermediate times and result:—

5 Miles: Svajda & Bilek (both Czech) 37.34, Wallwork 37.38, Watts 39.13. 7 Miles: Svajda

52.19, Bilek 52.34, Wallwork 52.48, Watts 55.56. 10 Miles: Svajda 75.24, Bilek 75.44, Wallwork 76.44, Watts 81.31. 20 Kms: Svajda 94.28.2, Bilek 95.24.8, Wallwork 97.01.6, Watts 101.42.4. Points: England 3, Czechoslovakia 8. Guest competitors: Tolley 97.33, Middleton 99.15, Thompson 102.25, Fogg 105.40.

Open Brighton: We were privileged to see a wonderful performance by the reigning Olympic champion, Abdon Pamich, and a race with a much higher standard of performances than in recent years. Although Pamich has competed in England before, this was the first time that he has been seen in action over the longer distances. He immediately went to the front accompanied by our Don Thompson, the course record holder, and the third Olympic Champion Norman Read in the race settled down in third place. Last year's winner, South African George Hazle was not far behind and he was followed by Bill Fogg. Leaders at Streatham Hill Stn. (4m1753yds): Pamich 41.44, Thompson 41.44, N. Read 42.27, Hazle 43.58, Fogg 44.35, Thorn 45.09, King 46.48, Goodair 48.14, Holliman 48.14, Percy 48.14, D. Read 48.14.

Over the next five miles Norman Read decided to move up and had a two second lead at South Croydon over Pamich with Thompson 20 seconds behind. Time here (10m 814yds): N. Read 87.13, Pamich 87.15, Thompson 87.35, Hazle 91.59, Fogg 92.50, Thorn 97.25, King 98.12, D. Read 99.20, Young, Hall, Butler, Holliman, Goodair, Percy 99.31. At Merstham the leaders were unchanged except that Fogg had got in front of Hazle who had been forced to make a brief stop. Times (18m.550yds.): Read & Pamich 2:35.45, Thompson 2:36.05, Fogg 2:45.06, Hazle 2:46.05, D. Read 2:53.31, Thorn 2:53.31, Percy 2:53.45, Hall & Butler 2:54.14, Young 2:54.20, King 2:54.30.

By Earlswood Pamich had broken Norman

Ron Wallwork (England) leading from A. Bilek (Czechoslovakia) and the eventual winner of the 20Km. Walk, V. Svajda (Czechoslovakia) at Battersea Park.

Ron Linstead

Read who had dropped back considerably and Thompson had rejoined Pamich. At the Chequers, Horley (24m.764yds.): Pamich was beginning to pull away again and it began to look as if he might set a new course record as he was about two minutes to the good. Times: Pamich 3.29.25, Thompson 3.29.27, Read 3.40.34, Hazle 3.40.59, Fogg 3.41.15, D. Read 3.49.19, Young 3.53.08, Percy 3.53.21, King 3:54.28, Thorn 3:54.28, Hall 3.55.02, Goodair 3.55.02, Goodair & Holliman 3.55.35.

Approaching the George, Crawley, Norman Read retired and Fogg was alongside Hazle and these were now so far ahead of the others that, barring accidents, they were going to finish in the leading positions. Times (30m. 500yds.): Pamich 4.21.55, Thompson 4.22.02, Hazle & Fogg 4.36.15, D. Read 4.47.25, Young 4.51.40, Hall 4.54.12, Percy 4.54.22, Goodair 4.55.55, King 4.56.14, Holliman 4.56.12, Thorn 4.57.40. Pamich continued to walk strongly and was slowly drawing away from Thompson and Hazle had dropped Fogg and a new record was still possible at the Queen's Head, Bolney (38m.1420yds.) here times were: Pamich 5.37.56, Thompson 5.40.35, Hazle 5.55.33, Fogg 6.01.44, D. Read 6.18.23, Young 6.19.20, Goodair 6.20.18.

Pamich continued to build up his lead and topped Dale Hill in excellent fashion but he lost minutes over the last seven miles to finish 2½ minutes outside the record. Nevertheless his performance was first-class when it is remembered that he had never seen the course before. George Hazle improved on his time of last year by no less than 48 minutes and was well satisfied. If he could get more top-class competition against leading European walkers it is probably that he could do even better. The team race resulted in a win for Belgrave from Surrey WC, with Steyning AC third. Result:

1, A. Pamich (Italy) 7:37.42; 2, D. Thompson (Met WC) 7:45.04; 3, G. Hazle (South Africa) 8:03.58; 4, C. Fogg (Enfield) 8:15.59; 5, G. Goodair (Wakefield) 8:35.53; 6, D. KEINO SHATTERS WORLD RECORD

BARELY had one recovered from the shock of Siegfried Herrmann's 3000m record of 7:46.0 than Kipchoge Keino revised all previous concepts of how fast the distance could be run by achieving a time of 7:39.6 (actually 7:39.5) at Halsingborg, Sweden, on August 27th. This performance, the equal of a 3:49.3 mile according to the Portuguese Tables, must certainly be rated as brilliant as anything by Ron Clarke and Michel Jazy.

The 25-year-old Kenyan policeman (he has just been promoted from corporal to sub-inspector) led right from the start in his bid for a time of 7:45. His first lap was an astonishing 59.5, and he followed with 62.0 (2:01.5 800m), 62.5 (3:04.0 1200m), 61.0 (4:05.0 1600m), 62.0 (5:07.0 2000m)—which happens to be faster than the UK record), 63.0 (6:10.0 2400m), 60.0 (7:10.0 2800m) and a final 200m of 29.5. He covered the first 1500m in 3:49.5 (worth 4:07:40 for a mile), the second in 3:50.0. Britain's Geoff North finished second in 8:02.8.

Only two days earlier, on a flooded track at Stockholm, Keino had crushed Gaston Roelants over 5000m—13:29.4 to 13:45.8. On the day following his historic 3000m, Keino set a personal best 1500m of 3:39.5—and, of course, another two days later came his sensational mile victory in London. Four tremendous races in five days: Keino's feat is a staggering one judged by any standard.

Another phenomenal world record occurred at the Hungarian inter-club championships at Debrecen on September 4th, when Gyula Zsivotzky finally came into his own with a hammer throw of 241'11"/73.74 (no, that's not a misprint!). Hal Connolly's pending record stood at 233'9½"/71.26, and Zsivotzky's margin of eight feet represents the most drastic improvement to the world record since Irishman William Barry (129'3¼"/39.40) added almost ten feet to the previous best back in 1888.

GLORIOUS RUN BY CHRIS CARTER

English "second-string" defeats Jurgen May and ties Derek Johnson's U.K. 800 metres record

A SUPERLATIVE 800 metres victory by Chris Carter and other UK records in the 10,000m by Mike Freary and decathlon by Derek Clarke, helped to lessen the disappointment of England's crushing defeat at the hands of East Germany in Berlin last weekend. The trackmen, generally, excelled themselves—winning every event except the 100m and sprint relay, and piling up a massive 30-point advantage—yet so dismally did our field event performers fare that we ended the match 20 points down. The girls were beaten by four points.

Carter's triumph was not only the individual highspot of the match, but must be considered one of the outstanding British achievements of the whole season. Carter has occasionally shown flashes of immense potential but, for the most part, has acted as second string to John Boulter. On this occasion everything "clicked," with the result that 22-year-old Christopher Sydney Carter graduated from the status of a reliable runner on the fringe of top European class to the dizzy heights of the world's elite.

His performance was an astonishing one, from both the competitive and stopwatch points of view. Jurgen May, the local hero, had only recently run the distance in 1:46.3 and was known to have his eyes on Roger Moens' European record of 1:45.7. Team-mate Flehr (1:48.5 this season) set the pace . . . and what a pace! Not since Jim Paterson unreeled a 49.2 first lap (sic) in the Glasgow Rangers 880y eight years ago has there been such an opening quarter. Flehr's time at the bell was 49.8, some eight yards up on May (50.8), with Boulter (51.4) and Carter (52.0) strung out behind.

May overtook his gasping second string along the back straight and all seemed set for a home victory, particularly as May seemed to have the measure of Boulter. In the finishing straight, though, it was Carter who caught the eye as he threshed his way past Boulter and—to the disbelief of the crowd—May himself.

Carter's time of 1:46.6 sliced 1.4 sec. from his previous best and equalled Derek Johnson's hallowed UK figures. Only one man in the world—May—has run faster this year. Carter, who has been racing since 1958, has improved his half-mile time every season: 2:04.0 in 1958, 1:58.7 in 1959, 1:56.4 in 1960, 1:55.2 in 1961, 1:53.6 in 1962, 1:48.7m in 1963, 1:48.2m in 1964, and now 1:46.6m.

Mike Freary was another to surpass him-

self. Making short work of the cold and windy conditions on the first day, he and Jim Alder combined forces in setting a fast pace in the 10,000m. They dropped their rivals shortly after the first mile and Freary moved away during the final mile to win by about 120y in 28:37.2, thus removing 12.8 sec. from Jim Hogan's recent UK record.

For sheer doggedness and courage, the prize must go to Derek Clarke, who by scoring 7002 points for a UK decathlon record became the first British all-rounder to achieve international respectability since Geoff Elliott in 1952. The 27-year-old veteran of some 30 decathlons came to the 1500m needing 4:20.4 to score the magic figure of 7000, a tall order in view of his personal best of 4:28. Cheered on by the entire English team, Clarke dragged his protesting body around the 3½ laps in 4:20.2 to achieve his target. His full series was: 100m-11.1, LJ-21'1½"/6.44, SP-42'7¼"/13.00, HJ-5'7"/1.70, 400m-51.6, 110mH-15.6, DT-139'3"/

A Real Break-through in Cross-Country Shoe Design. The new

ADIDAS "FLASH"

an entirely new conception in cross country shoes and sets a new standard in lightness and comfort

Made on a track shoe last with supple black uppers and white trim, it is like a lightweight track shoe but with an entirely new, light gristle studded sole with thinner studs than usual which give a better grip and will not clog so readily as the usual studs.

This is the lightest cross-country shoe you have ever seen and will wear and wear. We should mention that the sizes are on the small side and we recommend ordering one half-size larger than you would normally take in Adidas footwear, or one full size larger than in English shoes. It is also regretted that no size 10, 11 or 12 will be available until supplies arrive in the country in approx. 5 weeks time. But we have good stocks in full and half sizes from 5 to 11½ with the above exceptions at 71/6.

42.44, PV-11'2"/3.40, JT-183'5"/55.91, 1500m-4:20.2. David Travis, who had earlier thrown the javelin further than ever before, was only just below his best with 6722—a highly satisfactory showing all round.

The other bright spot in the field events was the resounding international debut by 18-year-old Neal Willson, who carried his pole vaulting improvement this year to 2'10½" by clearing 14'1¼"/4.30 for a UK junior best. Martin Higdon, a former junior prodigy, also broke new ground with a vault of 14'3¼"/4.35.

Mike Fitzgerald, certainly one of the greatest "finds" of the year, added to his reputation with another fine 400m victory, this time in 47.6. He did not compete in the relay, in which skipper John Cooper produced a characteristic shoulder-shrugging, head-rolling finish to snatch victory for the English team.

Mention must be made also of the three hurdling successes (by Mike Parker, John Cooper and Maurice Herriott, of course). What would we do without them? Two other pleasing results were Dave Jones' return to the top flight with sprint times of 10.4 and 21.2, and a runaway 5000m in the fast time of 13:46.6 by Mike Wiggs. Alan Simpson had an easy passage in the 1500m.

With the exception of the hurdles, in which Gundula Diel proved herself a worthy successor to Karin Balzer by equalling the European record of 10.5, the women's track events were dominated by England. Particularly notable were Deirdre Watkinson, who utterly outclassed 53.8 performer Gertrud Schmidt in the 400m, and Anne Smith, who with laps of 65.0 and 60.6, comfortably overcame Hannelore Suppe, who has clocked 2:05.2. Jill Hall equalled her 100m best of 11.6, Maureen Tranter (non-scoring) ran her fastest 200m of 23.8,

Pat Jones clocked her first 11 flat in the hurdles and Linda Knowles matched her top high jump of 5'8½"/1.73.

TAGG SETS CANADIAN RECORD

Mike Tagg, a member of the touring English Schools Athletic Association team, set a Canadian record for the junior 3 miles with a time of 14:05.1 in the National Age Class Championships held at St. John, New Brunswick, on August 27th/28th.

Placings of the English boys: Junior (under 20)—100y: 5, C. Mossop 10.2; 7, A. Lowndes 10.3 (10.2 ht); 220y: 2, M. Winbolt Lewis 22.1; Mossop elim. in heat (22.3); 440y: 1, Winbolt Lewis 48.9; 880y: 4, C. Stewart 1:59.0; Mile: 1, Stewart 4:16.9; 2, M. Tagg 4:17.0; 3M: 1, Tagg 14:05.1 (rec); Mile Medley: 3, ESAA (Winbolt Lewis 440, Lowndes 220, Mossop 220, Stewart 880) 3:34.6; LJ: 3, Lowndes 22'11 $\frac{1}{2}$ ". Juvenile (under 18)—JT: 1, R. Perkins 194'6" (rec).

FASTEST JUNIOR 3 MILES

Tim Overington, 17-year-old Ellesmere Port Grammar School boy who runs for Wirral A.C. and is coached by Peter Keeling, became the fastest junior 3-miler in Britain at Kirkby on Tuesday, August 31, when returning 14min. 1sec.

Previous British best was 14min. 4sec. by Alec Brown at Pitreavie in 1963, with Mike Tagg, the best English boy with 14min. 5sec. in the Canadian Junior championships this year.

What made the time more remarkable was that Overington made most of the pace himself, going through the mile in 4:33 and two miles in 9:21, leaving Stephen James (14:44.2) and David Hindley (14:44.8) struggling in his wake.

Comments Keeling: "He can obviously do even faster than this with opposition to pull him out, but more important for him this season is the chance to reach 4:10 for a mile and 9 minutes for two.

"He is successfully doing the training I had Alan Simpson on at the age of 19 and doing it much easier, so he will not be attempting too much in going for these times."
