BARBARA INKPEN'S FINEST VICTORY

ALTHOUGH it was of little value as an Olympic dress rehearsal either for athletes or officials, the 15th Hanns Braun Sportfest last week-end proved to be a thoroughly worthwhile and truly international occasion. Athletes from more than 40 countries participated in perfect weather conditions on the Rekortan facilities at the Dantestadion, which next year will serve as a training track during the Games. The crowds, though appreciative, were disappointingly small for a 15,000-capacity stadium: 4,000 on Friday, 8,000 on Saturday and 10,000 on Sunday. The organisation, chaotic on the first day, improved as the meet progressed although the numbering of athletes throughout was scandalously haphazard for a prestigious international meet, often making identification difficult. No doubt the legendary German efficiency will be more apparent when it's time for the real thing.

The British party of 18 made an excellent impression. Barbara Inkpen and Rosemary Stirling won their events; Dave Jenkins, Ian Stewart and the women's sprint relay team finished second; and third places were gained by Brian Green, Mike Tagg and Joan Allison. Personal bests were achieved by Green, Jenkins, Tagg, Dave Black, Sharon Colyear, Allison and Inkpen.

Pride of place among the British must go to Barbara Inkpen who marked up her most convincing international victory to date and confirmed her status as the nation's girl athlete of the year. Again she proved to be an unruffled competitor, completely in control of herself. She made 1.65/5'5", 1.70/5'7", 1.73/5'8", 1.76/5'9", 1.78/5'10" and 1.80/5'10½" without failure and, having by then already won the competition (defeating three six-footers), she cleared 1.83/6'0" at the second attempt and was cleanly over 1.85/6'0¼" first time to equal the UK and Commonwealth record—the latter shared by Debbie Brill—she set in Helsinki.

The bar was raised to 1.87/6'1¼" and on two of her tries she suffered the tantalising experience of landing in the pit well in advance of the bar. It was so very close; both times she ticked off the bar with the back of her thighs. Barbara thought the Rekortan take-off surface "much softer and looser than the Tartan at Crystal Palace" and she was bothered by the heat—"the worst I've known since Mexico". She used the same run-up as for her previous six-foot efforts but is already working on the long approach she hopes to utilise next year. Her best with the long run is just 5'9" at present but no doubt the news of Ilona Gusenbauer's world record 1.92/6'3¼" in Vienna the same day will provide an additional spur to her preparations this winter. Everything is possible next year and it is good to learn that one of Barbara's worries, the £5 it costs her to travel between her home and Crystal Palace for training three times weekly, is almost certain to be removed. The British Board is likely to make a grant.

Mel Watman reports from Munich

Any chance of another of our gold medal hopes, Sheila Sherwood, being provided with the Tartan strip she so badly needs in Sheffield this winter? The cost would be less than £400—which would be considered a good investment under the West German "Sporthilfe" scheme through which that country's top athletes receive generous financial aid for training and facilities. Precise details are difficult to come by but it is thought that Sheila's rivals, Heide Rosendahl and Ingrid Mickler, receive upwards of £80 per month in grants.

Rosemary Stirling's 800m victory was a routine affair over a field which looked rather like a WAAA final. Always well situated (the bell was reached in a gentle 62.8) she bustled into the lead at the start of the finishing straight. A clean sweep by the UK trio was prevented by Ireland's Claire Walsh who kicked past Joan Allison and Sheila Carey, both of whom—plus Rita Ridley—had run the 1500m two days earlier. That race featured a very fast first lap of 63.5 by Deirdre Foreman before the pace was allowed to drop to 2:16.6 for 800m. Rita, who took over after 700m, was half a dozen metres up at this stage but at the bell she was only a stride ahead of Ellen Tittel, whose low-cut vest attracted as much admiration from the male spectators as did her excellent running! Hildegard Falck, racing the distance for only the second time and aiming for 4:17/4:18, was some six metres behind Rita, with Joan Allison and Sara Ligetkuti close at hand. Tittel uncorked another of her fiery finishes halfway around the final bend and, having covered the last 300m in 47 sec, she won by nearly 15m from Falck, who overtook Joan for second some 60m from the end. Joan's 4:14.8 equalled her personal best, a fine run.

Competing abroad for the first time, Sharon Colyear adapted to the new environment very well. She won her 200m heat from the outside lane in 23.9 and improved a tenth in the final for a personal best. This was her first experience of competing against such great stars as Irena Szewinska (back in top gear again with 22.8) and Alice Annum and she will surely benefit from it. Helen Golden also clocked 23.8, her best of the season.

The big sprint news was made by Dave Jenkins and Brian Green. Taking advantage of the wonderful conditions (fast track, light following breeze, warm weather) they smashed their previous times for 200m. Not that Green had many previous 200m times to better; he only began in earnest his career at the distance when running Jenkins

Specialist Clubs Committee Interim Report on Facilities and Competition Patterns

Materials and Facilities

All-weather surfaces should increasingly be provided, but lengthy trials are required to decide on the "best buy". For sprints, the pull-up distance should be at least 15m and the 100m, LJ, TJ and PV should be capable of being held in different directions. The LJ and TJ should be in front of the main stand and **on the outside of the track;** the PV pit 5x5m of foamed soft material, and **no concrete sides or front.** (Wood as edging is undesirable anywhere.) All events should be sighted for spectator appeal as well as safety, and sheltered from prevailing wind, not into the sun, nor into empty spaces. Good starting blocks and aerodynamic javelins should be provided at all tracks.

The finishing worsted should be 1.08m above the ground, the radius of tracks at least 35m, the distance between spectators and the outside lane at least 1m and permanent markings at such intermediate distances at 60, 75 and 300m and useful throwing distances. **Where run-ups cross, white lines should replace kerbing. The water jump landing area should be of board covered with matting or rubberised surface.** The surface of throwing circles should give adequate grip in nearly all conditions.

Tracks must be easily accessible by public transport, floodlit and provided with photo-finishes wherever possible. There is a case, too, for more local education authority-employed coaches at public tracks, for the cost of athletics is at least £100 per year per competitor and individual equipment can cost another £50 (£150 for vaulting poles).

Indoor tracks should be 200m and the ideal surfaces searched for. The surface adjacent to the track should be built up to track level. There should be indoor throwing nets, and the PV run-up at least 35m and the height over the landing area 8m. Starting blocks should be "removable".

Tracks and warming-up areas should be integral components of sports centres, including nursery facilities, adventure playground, showers, physiotherapy and testing rooms, and club, weight training and projection areas, so that full use of facilities can be ensured.

Leading-up Events

Many of these have recently been considered, the following are suggested as useful extras: 600m for 800, 1000 for 1500m, for girls 500m. For sprints:

Age	9	10	11	12+
	60	75	100	100
	—	150	150	200
	—	—	300	400

Team competitions—aggregate of 6 competitors—are also useful as are Tetrathlon, and Jumps Decathlon, or aggregate competitions.

Rules

Different ways of conducting high jump and pole vault competitions should be tried out. In events for distance all competitors should have 4 trials, and the best 8. Steeplechase fields should not exceed 12.

The point landing rule for the javelin should be looked at again, and lightweight divisions for throwing events tried. There is a strong feeling that senior throwing implements should not be made heavier, and before any such change is considered, it is hoped that the specialist clubs will be consulted so that the event may, as far as possible, remain the same. Before any throw, an audible warning signal should be sounded. The shot should precede the discus.

For safety's sake, the first 130m of all 800m races should be run in lanes.

Club meetings need not take more than 3 hours and often less, especially if more events are graded. Good display boards, rather than lengthy commentaries, will keep the public informed. Presentation ceremonies should be grouped together, with some at the end of the meeting. Competitors should be called for their event or turn and once called not stopped. Field events in particular need active judges and more recent ex-athletes.

The 1500m girls should be included in the ESAA Championships, and not require a doctor to be present or prior permission.

Competitions

The complete fixture calendar should be known early, and team managers appointed on an agreed basis. Their reports should be made public. **National and staff coaches should have a vote on the BAAB selection committee, and the junior system aligned with the European one.**

All major trophy meetings should be incorporated into the leagues, and 12 teams in each league, with 2 teams up and down in each. Sunday competitions can often follow Saturday ones, and there should be more big meetings in out-of-the-way areas, including Home Country Internationals and invitation field events. Decathlons and pentathlons should be included in internationals.

There is a strong feeling that the competition calendar needs to be more systematic, extending to early October at sub-international level, without a dead period in August. **The County Championships should precede Inter-Counties and the Area Championships be available to those achieving the necessary standard in the County Championships and likewise, Area Competition should be a necessary route to National Championships, with consideration for special cases.** In such a system, the place of the Inter-Counties needs to be re-considered.

K.J.B.

Janet's Enthusiasm Has Returned

JANET SIMPSON, fourth in the 1968 Olympic 400m, and a member of Britain's 1969 European 4x400m gold medal winning team, will be back in action next season, shooting for a place in her third Olympics. Janet missed the 1970 season to begin a career with the BBC make-up department, and many thought she might not find it easy to get back into harness again. Not so.

"When I first stopped training I didn't miss athletics at all. But I think the break did me good mentally, and now all my enthusiasm is back. I've already turned out for my club, London Olympiads, in the Southern relay championships and the Bracknell Relays, and now I'll be training hard this winter", she says.

In addition to her fourth place in the Mexico 400m (an excellent performance, which was somewhat overshadowed by **Lillian Board's** silver medal), Janet won a bronze medal in the Tokyo Olympics as a member of Britain's 4x100m relay squad. By so doing she continued a family tradition, for her mother, **Mrs Violet Simpson** (now a leading official) won a bronze in the same event at Los Angeles in 1932.

Cliff Temple's CLIFFHANGERS

Barbara Inkpen is unlikely to be high jumping indoors this winter. Instead, she will be trying to perfect a run-up longer than the approach which took her to a silver medal in Helsinki. But she may compete at Cosford in the long jump (for which she has achieved 6.33/20'9½" indoors) and hurdles, as part of the long term build-up for the pentathlon, though she will not take this event seriously until after the Munich Olympics.

Meanwhile, her switch to the Flop (or "Inkpen Incline" as coach **Ron Murray** jokingly calls it) has meant that the number of English venues at which she will be able to compete has been somewhat reduced. For a start, she has dropped out of Surrey's team for the Southern Inter-Counties match at Wimbledon Park on September 18th, because she says the pit is not suitable for Flop jumping. When she won the Surrey county title there in May she was, of course, still a Straddle jumper.

With an ever-growing number of jumpers switching to the Flop, the poor state of certain high jump pits in Britain may cause more than mere complaints; there may be actual boycotts by members of the High Jumpers Club of Great Britain. The Club's newsletter, *Altiis*, calls for a grading system of all the country's high jump pits, with six separate grades according to standard:

Grade A: Well laid Tartan, or similar surface, run-up and take-off; good foam rubber or air bed landing area ("as at Crystal Palace").

Grade B: Reasonable Tartan, or good shale, run-up and take-off; good foam rubber area.

Grade C: Reasonable shale run-up and take-off; reasonable landing bed or well laid foam-filled bags.

Grade D: Acceptable shale run-up and take-off; acceptable foam filled bag landing.

Grade E: Poor run-up and take-off area; poor landing.

Grade F: Totally unacceptable conditions.

This seems an excellent idea, and any jumpers willing to assist with the grading are invited to contact the editor of *Altiis*, Mr. R. Batterley, 17 Dukes Wood Drive, Gerrards Cross, Bucks. The Club plans to take action to improve the lower grade pits; let us hope this can be done before someone, literally, breaks their neck.

Among the nominations for Unluckiest UK Athlete in Helsinki must be **Sheila Garnett**, who regained her place in the British team this year after missing most of 1970 through injury.

The draw for the heats of the 100m hurdles was such that only one athlete would be eliminated: there were two heats of six competitors, and one of five, with the first five and one fastest loser to go on to the semi-finals. Sheila, with a best this year of 13.8, should have qualified comfortably, but found her lane had two enormous puddles in it, after heavy rain. They threw her off stride, she hit a hurdle, and finished sixth and last in 15.2—a time she could normally run with her eyes shut. As Eire's **Margaret Murphy** ran one-tenth of a second faster, finishing sixth in another heat, Sheila just missed being the fastest loser.

"But what hurt most of all", says Sheila, "is that the girl who had the same lane as me in the second heat, **Ingunn Einarsdottir** of Iceland, ran 15.9, and qualified as there were only five in her heat. And then she injured herself, dropped out of the semi-finals, leaving an empty lane!"

The Women's Cross Country and Race Walking Association is holding its annual general meeting on Sunday, September 19th, and an informal lunch is being held beforehand to celebrate the Association's 21st anniversary.

The Southern branch of the Association is staging another of its weekend courses on the Isle of Wight from September 24th to 26th, with over 50 athletes expected to attend. A new venue in Buckinghamshire is being investigated as a possible centre for further courses, and the Association is planning another series of one day courses throughout the winter. Any clubs able to offer facilities for these latter courses (to be held on Sundays) should contact the Coaching Secretary, **Stan Belton**, 75 St. Philips Avenue, Worcester Park, Surrey.

BARBARA INKPEN IN ACTION AT THE EUROPEAN CHAMPIONSHIPS

Tony Duffy

Letter

IRRESPONSIBLE CRITICISM

Dear Sir,

Further to Miss Buckmaster's and Brian Mitchell's letters in the August 7th issue of "AW" on athletic training and competition facilities under the control of local authorities.

As one of the "Athletics" representatives on the Portsmouth Parks and Recreation Department's Sports Representatives Sub-Committee which meets the City's Parks & Recreation Committee quarterly to discuss and suggest improvements that their particular sports need, I would like, particularly in view of the recent adverse criticism of the cinder running track at Portsmouth for the GB v. France match, to make a few points on the subject.

Rumour has it that a lot of this high powered and irresponsible criticism backed up by some sections of the national sporting press is all part of a plan to force the hands of local authorities to provide facilities for one particular sport to the exclusion of the recreational needs of a community at large. If this is the case I would suggest to the individuals and organisations involved in this particular manoeuvre that they adopt less 'ham fisted' methods to achieve their objects.

For the information of the Specialist Clubs'

publicity officer the information that he is asking for in respect to Alexandra Park, Portsmouth, is already known to the AAA through the questionnaire sent to all clubs some time ago, and to the Manager and the Committee concerned with the provision of athletic facilities in Portsmouth. On a point of interest, the GB v. France international showed a deficit of approximately £2,000, money in the opinion of my contemporaries on the Sports Sub-Committee that could well have been spent on providing better facilities for the City's ratepayers and their families.

If the object of the Specialist Clubs' advertisement in "AW" is to stir things up, in my humble opinion they are completely out of their depth in this particular field and should confine their activities to the coaching side of the sport, particularly with potential international material not only in the techniques of their events but also on their general behaviour during a competition.

Finally, a point on the last paragraph of the advertisement. The sooner the Specialist Clubs, other organisations and individuals who subscribe to this opinion, realise that athletics does not revolve round the National Track League and athletes of international standard, the better it will be for everyone involved in the sport.

A. Gibb,
Portsmouth

ALEX WIGHT NEAR RECORD IN 'TWO BRIDGES'

ALEX WIGHT was only 52 sec outside Alastair Wood's course record, set in 1969, in winning the 4th annual Two Bridges 36 miles road race at Rosyth on August 21st. Wight was always lying handy in the main front group and took the lead from Tony Burkitt at the top of the steep hill out of Bo'ness at 23 miles. Up until then, Burkitt—accompanied at first by John Ballantyne—had been forcing the pace.

Once Wight decided to make a break, there was nobody capable of staying with him and he moved steadily away over the last 10 miles. Conditions were very good for the race, but Wight's time was exceptionally good as Wood had been under strong pressure when he set his record time. Colin Hunt's heavy training saw him through to 2nd place and Bill Carr held on well for 3rd.

The organisation was again magnificently and enthusiastically carried out by race secretary Bill McPherson and the Rosyth Committee.

Dale—"I don't have the training to race over marathon distances"—was content to run easily and finish the course. (Jim Logan).

Saxonclad suits whatever you're doing

Styled with longline jackets and slimline pants Saxonclad allows freedom of movement without excess bulkiness.

And, for the first time, you can choose your suit in a wide range of fashionable colours.

Like African Violet, with collar and cuffs striped in Gold.

Of course, the quality that has made Saxonclad market leaders here, and in North America, is still the best. Shape retention, shower resistance and proper tailoring in drip dry nylon—all backed by a one year guarantee—are just a few of the reasons why the Amateur Swimming Association and other National bodies recognise Saxonclad as their official tracksuit. In a wide range of sizes, special colours and stripings for club requirements, Saxonclad suits from £4.75.

Send for illustrated brochure featuring training suits and other action garments.

TWO WORLD RECORDS IN PAN-AM GAMES

TWO world records were achieved at the Pan-American Games, held at "semi-altitude" in Cali (Colombia). Commonwealth champion Don Quarrie (Jamaica) ran 200m in 19.8 to equal Tommie Smith's mark on August 3rd and Cuban teenager Pedro Perez added a centimetre to Viktor Saneyev's triple jump record with 17.40/57'1" on August 5th. The wind in Quarrie's race was 0.95m/sec, the electrical timing being 19.81. Perez produced this remarkable series: 16.92/55'6 $\frac{1}{4}$ ", 17.40/57'1" (0.4m/sec wind), 14.92/48'11 $\frac{1}{2}$ ", 17.04/55'11", 17.12/56'2" and 17.19/56'4 $\frac{1}{2}$ ". His previous best was 16.86/55'3 $\frac{1}{4}$ ". Perez jumped 15.78/51'9 $\frac{1}{4}$ " in 1969 and 16.38/53'9" last year.

Marilyn Neufville produced her best form of the year to win the 400m in 52.3 and clock 50.8 on the anchor leg of the 4x400m relay, as timed by Herb McKenley. Two other girls in that team, which finished third, have strong British connections: Bev Franklin (Kent AC) ran the first stage in 55.5 and Yvonne Saunders (ex-Stretford) covered the third leg in 52.2. Yvonne had earlier placed third in the individual 400m (53.1) and fifth in the long jump.

HELSINKI REFLECTIONS —

Part 2: Women's Events

by Dick Bank

IN watching the European Championships we were watching, for the most part, the Olympic Games. As I see it there are really only five other individuals who can have a strong influence on the gold medal picture in Munich next year. They would be: Iris Davis (USA) 100; Raelene Boyle (Australia) 200; Marilyn Neufville (Jamaica) 400; Petra Rivers (Australia) javelin; and if she can regain her 1970 form, Chi Cheng (Taiwan) 100 and 200. Other than that, it will be strictly a European show.

100 and 200: I cannot think of any top sprinter I have ever seen over 100 who is less impressive than Renate Stecher. Maybe it is her appearance, which surely does not lend itself to sprinting. She is terribly strong and runs 100 on strength alone. Her time of 11.4 was a long way from her 11.0 accomplished just before the DDR came to Helsinki. I am sure she can run 11.2 and even 11.1 but I do not think she will win the gold medal in the 100. In the 200 it will take a super athlete to beat her for she is a great 200 runner. I don't see Irena Szewinska challenging her and if Chi Cheng is not at her best Frau Stecher will be the definite favourite. I think Raelene Boyle can give her a strong run if she is able to come to Munich in high form. This is always a problem for an Australian at this time of year. Ingrid Mickler is consistently good over 100 but I don't see her getting any better. Gyorgyi Balogh is not as impressive as her times and certainly not in Stecher's class. If Petra Vogt can regain her 1969 form she could be a factor. I see Iris Davis as the favourite over 100 and, at the moment, the

only one to keep the solidly built Renate from becoming the first since Wilma Rudolph to win both sprints.

400: I don't know if I was more impressed with Helga Seidler's strong domination of the 400 or Colette Beson's collapse. Beson has never impressed me and except for Athens I have really seen no indication of her being the great 400 runner we are told she is. There are a lot of good 400 runners in Europe but Frau Seidler stamped herself as being superior when she ran a great solo leg in the 4x400 (timed from 50.8 to 51.4 depending upon whose watch you believe.) I doubt if Marilyn Neufville will regain the form that carried her to 51.0 and after being barred from international competition in 1971 one will have to wait and see if Kathy Hammond has the desire to get back up to the top. Certainly the 400 seems to stand almost still and maybe one day when a runner of Irena Szewinska's ability seriously tackles this event we will at last have our breakthrough. Until such time, one cannot get too excited over the results.

800: We must wait now until Munich to see what the outcome of a Nikolic-Flack-Hoffmeister race shall be. This was one of the events I was anticipating most and so the disappointment was great not only for the fallen runners. Vera Nikolic obviously has recovered from her Mexico City trauma. She was very ready mentally for these Championships and prepared to do whatever necessary to win. We know Hildegard Falck cannot run Nikolic's race and win. So does Frau Falck. I am not so sure she can run away from

Renate Stecher's crushing sprint supremacy can be gauged here as she wins the European 200m title in 22.7 from Gyorgyi Balogh (23.3) and Irena Szewinska (23.3).

Nikolic but that is her only hope. The Yugoslav seems to have the fire and determination that is required to run this race as it should be run. I think this could definitely upset Hildegard Falck's mental approach. I feel Gunhild Hoffmeister is an under-rated runner capable of being there at the finish with anyone. It will certainly be these three in Munich and I see no one at this time who is in the same league with them.

Karin Balzer—"a truly great athlete"—proceeds to yet another gold medal. Also in picture is Valeria Bufanu, who was 7th.

Ed Lacey

1500: An improvement of 1.1 seconds in two years time is not exactly what I thought would be the progress shown in this event. For some reason female runners over this distance don't really extend themselves except in a competition of this type. I am quite sure if a pacemaker pulled the field around that 4:05 would have been the record in Helsinki. Once again we have three runners standing apart from the rest. Karin Burneleit impressed me as being very strong over the last 200 although I felt Hoffmeister would have been with her all the way had she skipped the 800. I don't see Ellen Tittel as a winner in this type of competition but she surely gets the most out of what ability she was blessed with. This event is too new to have turned up a super talent. When one does show up I think 3:55 will not be out of the question.

100 Hurdles: One hardly knows whether to marvel at Karin Balzer or wonder why the rest are not better. I think we must admit here is a truly great athlete. It is not just her age—33—that is amazing. It is her aggressive hurdling. Look at her and then look at the others. I don't think there is any question as to where she stands related to hurdlers of all-time. There are faster hurdlers—Chi Cheng as a prime example—but none who attack the hurdles as she does. Her young teammate Annelie Ehrhardt seems ready to step in when Frau Balzer retires but until that time Karin Balzer will be number one. She may lose a race here and there but when she must win she does. I am told Teresa Sukniewicz was burdened with university examinations this year. This must be so for her times fell off from 1970. Still, give me Balzer. She comes to run!

High Jump: I think Ilona Gusenbauer proved she is the class in women's high jumping. Her technique is consistently good and she seems to have overcome the bad nerves that have accompanied her in past big competitions. Just how long the straddle jumpers will remain on top

Ilona Gusenbauer in action during the high jump final, which she won with a leap of 1.87/6'1½". "Her technique is consistently good", writes Dick Bank.

Ed Lacey

among the women remains to be seen. I don't consider Cornelia Popescu a particularly great talent yet she jumped within two centimetres of Gusenbauer in Helsinki. Miloslava Hubnerova is a great fighter but size surely limits her. Rita Schmidt seems to have gone as far as she can go. The competition in Helsinki was absolutely thrilling and Munich should be even better. The standard was very high and that was without anyone from the USSR in the first twelve! I can visualise a female with excellent flop technique one day jumping two metres (6'6½"). It will come. It could even be Barbara Inkpen.

Long Jump: Unless people were paying close attention they could not have been aware of how outstanding Ingrid Mickler's performance was. To leave the long jump at the height of the competition and return obviously tired from the 4x100 relay and yet produce the longest jump of her life was one of the great achievements in Helsinki. When I saw that she had to leave for the relay, I gave her no chance. Even though she ran the relay well within herself my assumptions were confirmed with a poor fifth round no jump. Then, to see the big one on her last effort was a real shocker. Ingrid's competitive abilities have always been strong and she has proved she is an athlete for the big occasion. I would not bet against her in Munich! After such a successful 1970 I would not have expected Heide Rosendahl to perform at the same high level in 1971. It would be extremely hard to maintain this form and extremely unwise. As important as Helsinki was, there was no reason to sacrifice Munich for it. I think she puts herself at a disadvantage in trying to do justice to both the long jump and the pentathlon. With concurrents like Mickler, Antenen and Herbst it will be hard enough to win as it is. One simply cannot train for the long jump, do much sprinting and expect the high jump and shot put to take care of themselves. They demand time and the pentathlon leaves no time for anything else. In fact, there isn't enough

time for it. Anyway, the long jump in Munich will be a classic. Meta Antenen showed she can be right at the top although Margrit Herbst has yet to prove herself against the best. Rosendahl's series in Helsinki was fantastic: five of six jumps between 6.60 and 6.66 with a "poor" first jump of 6.46! She is tremendously strong and no one has ever jumped farther but I still say: beware of Ingrid Mickler and the one big effort.

Shot: This story never changes. It is the USSR v. the DDR with the DDR having the depth and

Ingrid Becker at Helsinki. She won the long jump with her final attempt.

Mark Shearman

the USSR having Nadyezhda Chizhova. One would not have guessed that Chizhova had injured a finger so badly in the Spartakiade one month before that her participation was doubtful. She simply is too big and too strong for the ladies from the DDR and I see no one threatening her supremacy. I do not feel this event has ever drawn much interest or attention from the public and unlike the interesting types we find in the discus and javelin, the shot putters are rather unnoticed.

Discus: Justice was served so far as Faina Melnik was concerned. She was certain she had not fouled on her fourth throw which looked to have been farther than Liesel Westermann's 61.68. The official at the circle called her for stepping on top of the metal rim of the circle which she gave strong protestation to. Had this been a valid throw the record may never have come. I watched her closely on her final attempt. She obviously knew it was a good one as it left her hand. As the discus flew on its way she began to jump up and down inside the circle. You sometimes see a thrower do this to maintain balance but in this case it was a matter of jumping for joy. She is a well put-together type who combines power with a very quick move in the circle. I can see her throwing 66 metres if she can get the right favouring wind. Having seen her earlier in the year in Berkeley, I can vouch for her having the fire and determination for the big occasion. It is no great statement to tip the world record holder as the favourite for Munich but after a very eventful 1971 I do not see anyone beating her when she is at her best. Fraulein

Westermann seems to have lost something in the past two years and it is she alone who keeps the discus from going the same all-Eastern way of the shot put.

Javelin: This event seems to stay at the same level year in and year out. Always a number over 59 metres, some over 60 metres and the occasional 61 to 62 metres throw. Maybe women just are not destined to realize great results in this event. Still, one day a very special talent may come along and we just might see a 65 or 66 metre performance. The possibility of a judge's determination will always play an important part in this event. The Pole Ewa Gryziecka, with the year's longest throw of 62.10—in fact the second longest throw of all-time—had in the third round a throw in excess of 60 metres and possibly longer than the throw her team-mate Daniela Jaworska (61.00) came up with in the fourth round to win. The judges on the spot ruled it a flat throw and they are obviously in a better position to see this than someone in the press tribune. Still, it looked no more a flat throw than others which were passed. In addition to women's javelin throwing not producing improvement (the world record dates back to 1964), look at the series of the medal winners. Jaworska's next best throw measured 56.68 and the others considerably less. Ameli Koloska opened up with 59.40 and came no closer than six metres after. Ruth Fuchs was a little better with three throws between 56.16 and 57.38 after her best of 59.16. This speciality still waits for a dominant talent.

Pentathlon: I realize no athlete can be fairly judged on one competition but my first look at Burglinde Pollak was mixed with good and bad impressions. Here is a tremendously powerful athlete who looks to be one to absolutely dominate this event, if . . . Her hurdle technique is not bad but it is a power run all the way. At 1.81/5'11½" she can never be really efficient over the hurdles and I think 13.3 is a really fine achievement for her. It was in the shot put that I had

to blink. Here her technique is really poor. She makes her throw from the middle of the circle and simply does not finish her put. She does not "follow through". If she can do 16.11 in this way I will not be surprised at 17 metres next year. She surely has more potential than Irina Press had in this event although it is unfair to compare Fraulein Pollak with the questionable Fraulein Press. It is in her weak events—the high jump and long jump—that she falls apart and this could be her undoing in Munich. Her technique in the flop is poor and she lacks explosiveness in the long jump. The pressure of hard competition like Helsinki and even harder competition like Munich is very difficult in these events. In familiar surroundings with only a few competitors a high jumper and/or long jumper whose techniques are not the best can realise good results. Pollak has done 1.75 and 6.41. She lacks confidence in these events and if she cannot improve herself in the next year I can see these events as those which will lose for her the gold medal. She is not a loose, relaxed jumping type anyway so tension merely causes her to come apart. We all know that the 200 will decide the issue in Munich. Pollak fought with all she had against Rosendahl but a shot putter is not going to beat a sprinter. In the end she lost her form and began to overstride. For Munich it will be an interesting fight. I don't see Heide Rosendahl ever realising any real improvement in the shot put and high jump. I think it is more a matter of what Pollak does in her weak events. Margrit Herbst is no threat, as I saw her in Helsinki, for the gold medal. Valentina Tikhomirova showed no signs of being a 13.3 hurdler or a 1.76 high jumper. Likewise her shot putting was poor. As stated, you can never know what might be affecting an athlete's performances but I simply do not see how she did the results credited to her in the USSR. Likewise for the decathlonian Boris Ivanov. Ingrid Mickler certainly can be a factor here if she opts for this event. She cannot succeed with the type of shot putting she showed in Mexico, however.

Heide Rosendahl, here competing in the 100m hurdles in the Britain v. West Germany match, snatched victory in the European pentathlon.

First Four Men Broke Course Record

THE first four men home—Mike Tagg, Grenville Tuck, Allan Rushmer and Dave Holt—broke Dick Taylor's 1969 course record of 23:11.2 in the 16th annual Wycombe Phoenix "Furniture" 5 miles road race on August 28th.

Bernie Allen raced away from the gun to take a 20-yard lead over Tagg, Rushmer and Roger Clark, but was caught as he passed the mile marker. Tagg, Grenville Tuck, Rushmer and Dave Holt assumed control, with Clark on his own in 5th place ahead of the main pack. Tagg eased into a lead which he maintained to the finish, with Tuck outstripping Rushmer.

WALKING

NIHILL WINS NEW-COURSE ENFIELD 20km

USING a new five lap road circuit with the start and finish on the track the course for the Enfield 20km on August 28th was a fast one with only the high humidity and blustery wind the real difficulties. Arriving just before the start Paul Nihill walked with Steve Gower and Eric Taylor the latter being dropped at 8kms. Gower, however, was still with Nihill until after 15kms, and though tiring held onto second. Len Duquemin led the chase of the three leaders early on but then tired and later dropped out as did fast starting Eric Taylor. Gradually Tony Taylor, Amos Seddon, Colin Young and Olly Caviglioli dropped young Alain Moulinet, Ken Carter, and Don Cox. Moving well in the middle stages the quartet even gained on Nihill and Gower, with Caviglioli dropping away at 11kms. Soon after Brian Eley, making a surprise comeback, surged through but was held off by Taylor, enjoying an excellent race and closing on Gower in the final kilometre. Seddon and Young struggled on the last lap and were passed by a revitalised Olly Caviglioli. Most of the French walkers from Normandy were out of their class in such a strong field but young Moulinet again showed his talent. In the 5 miles Ken Easlea just edged out Alan Buchanan with the Brighton team clinching the team race. Judy Farr had a comfortable victory with Margaret Lewis an excellent second. George Coleman's daughter, Christine, was an improving third.

20kms: 1, P. Nihill (Sy. WC) 92.25; 2, S. Gower (Ex. B) 93.35; 3, A. Taylor (Lancs WC) 93.52; 4, B. Eley (Bristol) 94.08; 5, O. Caviglioli (Basildon) 94.26; 6, A. Seddon (Enfield) 94.49; 7, C. Young (Ex. B) 95.43; 8, A. Moulinet (France) 97.33; 9, K. Carter (Sy. WC) 97.46; 10, J. Hopkins (Lancs) 98.37; 11, D. Cox (S'end) 100.15; 12, B. Ingarfield (Bel) 101.30; 13, A. Banyard (S'end) 102.44.

5 Miles: 1, K. Easlea (Enfield) 40.32; 2, A. Buchanan (B&H) 40.35; 3, B. Williams (B&H) 41.20; 4, K. Tuson (S'end) 41.38; 5, L. Mockett (W. Grn) 42.43; 6, G. Coleman (H'gate) 42.59; 7, J. Thomas (W. Grn) 43.12.

Women's 5K: 1, J. Farr (Ton) 27.13; 2, M. Lewis (Birch) 27.56; 3, C. Coleman (Unat) 29.01; 4, M. Brown (Birch) 30.35.

Roy Hart double in Welsh track Championships, (Port Talbot, Aug. 14th). Though unable to represent Wales in future Commonwealth Games celebrations, Roy Hart is able to compete in "Nationals" and duly added two more to his list when both championships were held on the same afternoon. In the 3kms, Hart was content to win in a very moderate time but cut loose in the 10kms and won impressively by over a lap. Second in both races was the Welsh Edinburgh representative, Dave Rosser. 3kms: 1, R. Hart (Broms) 14.13; 2, R. Rosser (S'end) 14.28; 3, J. Thomas (W. Grn) 14.28. 10kms: 1, R. Hart (Broms) 46.56; 2, R. Rosser (S'end) 49.46; 3, M. Pope (Broms) 52.25.

Colin Young wins French 25kms at Sotteville, Aug. 28th. Using the same 2kms circuit over which Paul Nihill clocked 90.55 for 20kms last year, Colin Young put in a strong second half to win this year's fixture held over 12½ laps. From halfway Young and Moulinet went right away from Hennebois, and Dugast. The current French number 3 Junior walked one of his best races yet and it was only on the final two laps that Young established a winning margin. Banyard dropped Hennebois, second in the recent French 50kms, with little more than 5kms left. 1, C. Young (Essex B) 2:07.51; 2, A. Moulinet (Fr) 2:09.43; 3, A. Banyard (S'end) 2:11.28; 4, R. Hennebois (France) 2:17.03; 5, D. Dugast (Fr) 2:19.20; 6, H. Trento (Fr) 2:27.11.

Pamich again takes Italian 20kms. (Rome, Aug. 7th). (Actually 23kms) 1, A. Pamich 1:45.26; 2, V. Visini 1:47.23; 3, P. Busca 1:48.41.

15kms at Brusino (Switz) August 1st. 1, R. Mills (GB/Ilford) 70.57; 2, P.-G. Andredtti (It) 71.11; 3, A. Bassi (Switz) 73.45.

Eric Crompton takes TT Walk, Isle of Man, Aug. 21st. From an entry of 35, eighteen finished with notables such as Ron Wallwork, John Warhurst and Guy Goodair amongst the non-starters. Eric Crompton led from the start to finish after being pressed in the early stages by John Eddershaw and Ken French, and, later, holding off the spirited challenge of Chris Berwick after the latter had endured some rough patches earlier in the race. Times were slow due to the warm conditions. 1, E. Crompton (Leyland M) 6:11.22; 2, C. Berwick (Leicester WC) 6:17.20; 3, D. Harrison (Boundary) 6:19.16; 4, K. French (Sheffield) 6:28.00; 5, R. Manning (Wakefield) 6:41.14; 6, J. Eddershaw (Sheffield) 6:46.36; 7, G. Dowling (Yorkshire WC) 6:47.17; 8, H. Holmes (Yorkshire) 6:47.53; 9, S. Sille (Boundary) 6:53.14; 10, J. Dowling (Sheffield) 7:08.03.

Handicap: R. Manning. Teams: 1, Sheffield 20; 2, Boundary 27.

Andy Le Heron double in Guernsey. 15M Championship, Aug. 12th. 1, A. Le Heron 2:07.09; 2,

R. Dorey 2:14.35; 3, R. Waterman 2:16.13. West Show 20M, Aug. 19th. 1, Le Heron 2:57.08; 2, Dorey 3:00.10; 3, M. Elliott 3:03.08.

Taylor wins Strefford Track League, August 24th. The line up was a good one with John Paddick, Tony Taylor, Tony Malone and Dave Ward among those starting. After a very fast start Paddick, Taylor and Ward broke away from the main bunch. Paddick let go at halfway leaving Taylor and Ward to fight it out. Never more than a yard apart as they switched the lead, both crossed the line together fighting all the way. Ward was rewarded by beating his own UK Junior Record by 22 seconds. 1, T. Taylor (Lancs) 13:00; 2, D. Ward (Lancs) 13:00.0 (UK Junior Record); 3, J. Paddick (Lancs) 13:34; 4, A. Malone (Lancs WC) 14:09; 5, M. Ireland (Lancs) 14:11; 6, M. Entwistle (Lancs) 14:47.

Norton 10,000m Road Walk, at Leicester, Aug. 25th. 1, W. Roe 43.29; 2, N. Johnson 44.12; 3, B. Fearson 44.33; 4, L. Withers 45.12; 5, G. Squire 45.27; 6, D. Trigg 45.27; 7, C. Lowe 45.31; 8, C. Berwick 45.33; 9, D. Palfreman 45.39; 10, J. Heywood 46.08.

Series winners (after 5 races): 1, Heywood 229.51; 2, Johnson 233.27; 3, J. Nutt 235.48.

Colin Young

LADANY HAD HALF-AN-HOUR TO SPARE

DEFYING the extremely warm, sticky conditions in the second half of the London-Brighton race last Saturday, the 1970 winner made no mistake as he blazed through 5M in 42.25 and was nearly 12 minutes up at 20M. He slowed somewhat after but then produced a stirring finale from Dale Hill. Behind, positions changed frequently in the early stages with Thomas and Emil Amolaine, the amazing mile-consuming Belgian, leading the pursuit. At 15M Peter Selby and TT winner Eric Crompton took over with the latter taking second just before 20M. However, the Leyland man later had leg trouble but guttily struggled through the final 20M. Colin Young took over third but, suffering frequent bouts of sickness, was overtaken by Dave Boxall who just held off the fast finishing Trinidadian, Noel Simmons, who had an excellent race. Many retired, including John Moullin, and times all round were down on the average.

1, S. Ladany (Israel) 7:57.17; 2, P. Selby (Surrey WC) 8:34.47; 3, D. Boxall (B&H) 8:48.36; 4, N. Simmons (Surrey WC) 8:49.05; 5, C. Young (Essex B) 8:53.06; 6, R. Fullager (Surrey WC) 8:59.44; 7, D. King (Belgrave) 9:00.08; 8, P. Maidment (London Vid) 9:05.59; 9, F. Thomas (Trinidad) 9:08.30; 10, C. Berwick (Leics) 9:08.32; 11, E. Crompton (Leyland M) 9:13.53; 12, E. Alomaine (Belgium) 9:15.39; 13, R. Henderson (USA) 9:20.51; 14, R. Michell (Sy. WC) 9:21.30; 15, R. Green (Sy. WC) 9:28.00; 16, J. Harrison (Boundary) 9:28.57; 17, P. Duncan (Bel) 9:28.57; 18, C. Brooker (Sy. WC) 9:30.22; 19, M. Perkins (Trow) 9:33.14; 20, B. Saunders (B&H) 9:34.10; 21, C. Shelley (Bristol) 9:39.16; 22, W. Fenlon (Enfield) 9:41.43; 23, W. Howarth (Leyland M)

9:41.50; 24, I. Hoare (B&H) 9:46.42; 25, K. Read (Sy. WC) 9:50.59.

Moulinet sets Normandy record chasing Paul Nihill home in Brighton 10km, Aug. 29th. Paul Nihill showed the effects of a long hard season when he slowed quite drastically in the second half of this track race incorporating a match between the Sussex clubs and their Normandy visitors. The 31 starters had high humidity and a fresh breeze to contend with but the standard was high. Nihill led throughout but the struggle behind was always interesting. Young led the bunch for second from the off and then Dick Emsley was ahead for 2km. Finally, Moulinet and Young proved the strongest as Emsley, Godbeer and Ken Carter, later to retire, dropped away fast. Walking easily his best race to date young Alain Moulinet pulled clear of Young in the final kilometre for a new Normandy record and personal best. 1, P. Nihill (Sy. WC) 46:57.8; 2, A. Moulinet (France) 47:36.8; 3, C. Young (Ex B) 47:45.4; 4, J. Godbeer (Cambridge) 49:20.6; 5, K. Emsley (Steyn) 49:37.0; 6, B. Hawkins (Met. WC) 49:46.0. (8-a-side) 1, Brighton & Hove 64; 2, Normandy 72. (4-a-side) 1, Normandy 37; 2, Brighton 41; 3, Steyning 42. In the Women's 5km held in conjunction, Judy Farr was disqualified when on the heels of Margaret Lewis, leaving the Birchfield girl to cruise in a comfortable winner over her clubmate. 1, M. Lewis (Birch) 16:02.6; 2, M. Brown (Birch) 17:11.8; 3, J. Pye (Selsonia) 17:17.0; 4, M. Gueroult (France) 17:51.8. Junior Girls 3kms: 1, Y. Bernard (France) 17:53.6; 2, C. Duffrin (Croy) 18:05.2; 3, M. Davies (Croy) 18:19.0.

WALES**NEWPORT TOP OF FIRST DIVISION**

NEWPORT HARRIERS have won the Welsh League Division 1 competition this year and will go into the Qualifying Competition. Carmarthen Harriers, who were runners-up, do not wish to be considered however, probably for geographical reasons, and the League in Wales will not be making a second nomination. Results: 1, Carmarthen H 257; 2, Newport H 230; 3, Gilwern H 183; 4, Swansea H "B" 164½; 5, Barry H 137½; 6, Port Talbot H 123. Final positions: 1, Newport 23; 2, Carmarthen 18½; 3, Swansea "B" 13; 4, Gilwern 13; 5, Barry 9; 6, Port Talbot 7½.

The Welsh Games Technical Committee decided recently that the events which were washed out at the earlier meeting of the Games on July 24th would not be held on the date of the International events—September 11th. The reasons were various and there was a long debate on the matter before the decision was reached. This will cause much disappointment in many quarters undoubtedly, but considering the very small entry received for the original events and the experience of recent years when washed-out events were rearranged on a later date, the decision is perhaps a wise one.

The BMC have undertaken to provide entries for a men's and a women's mile at the Welsh Games. Secretary Frank Horwill will try to assemble a good crop of Welsh milers together with one or two other class men in the hope that a Welshman will run a mile in 4 minutes on Welsh soil. This has never yet been achieved, though Tony Harris has broken 4 minutes in England. There is a special trophy awaiting the first man to achieve it.

Former Secretary of the Welsh AAA, Jack Williams, was in Helsinki with the express purpose of persuading some of the medal winners to come to the Games. Despite the fact that they are to be held the day after the IAC/Coca-Cola Meeting at Crystal Palace, the 1971 Games could be very good.

Capt. George Crump, the well loved figure from Army Apprentices College, Chepstow who does so much administrative work with the Gwent League, is now unfortunately back in Rookwood Hospital, Cardiff. He is being treated again for an ulcer. His wife informs me that there will be an additional date to those already announced for the forthcoming season—March 25th—and that the League will include races for women for the first time.

New Secretary of the Gwent CC League is Gilbert Legge, 58 Carlyle Street, Abertillery, Mon. Gilbert was the original secretary some years ago. Provisional League dates for 1971/2 and 1972/3 are as follows: 1971/2: Oct. 16th, Nov. 6th, Dec. 4th, Jan. 22nd, March 25th. 1972/3: Oct. 14th, Nov. 4th, Dec. 2nd, Jan. 20th.

The Welsh AAA Championships Committee elected the following trophy winners for the 1971 season: A. Sherman Cup (Marathon) Bernard Plain, Cardiff AAC; H. Packer Cup (agg. points

in champs.) Cardiff AAC; Dr. Wm. Barry Cup (Sen. Men's Weight) John Walters, Cardiff AAC; E. W. O'Donnell Cup (S. Men's medley relay) Carmarthen Harriers; K. Weston Cup (S. Men's 1500 metres) Graham Spencer, Cardiff AAC; Fellowship Cup (Best perf. in Men's Champs.) Bernard Plain, Cardiff AAC; J. Davies Memorial (Junior Weight) P. Wilson, Sale Harriers; Barry Rotary Cup (agg. points in junior champs.) Swansea Harriers; G. C. Morgans Cup (J.M. 100 metres) Stephen Ware, Swansea Harriers; J. D. B. Williams Cup (Best perf. in J.M. Champs.) P. Ratcliffe, Cardiff AAC; Atalanta Cup (Outstanding woman) Elizabeth Johns, Cardiff AAC; F. L. Johns Cup (Outstanding Junior Girl) Vanessa Head, Cyfarthfa CGS.

RRC (Wales) are producing shortly another fixture-list of all athletics, cross country and road events, etc., between now and December 1972. Anyone knowing details of any events in Wales or border counties is asked to send particulars now to RRC Sec., 9 Campbell Terrace, Mountain Ash, Glam.

MUNICH—continued from page 2

close at the Edinburgh Highland Games on August 21st. He was given 21.2 that day and here in Munich he fairly hurtled around the turn to win his heat in 21.0 and semi in 20.8—times that must have elicited some colourful comments from Barrie Kelly, Ian Green and co. In fact he looked stunningly good and his electrical 20.84 in the semi would have been 20.7 by conventional hand timing! Jenkins began with a personal best equaling 21.0 and won his semi from European silver medallist Franz-Peter Hofmeister in 20.7 (actually 20.67).

There was disappointment for Jenkins in the final, even though he ran 20.8. Hofmeister beat him by two metres, Jenkins' first ever loss in a 200 or 400 final. "My start was OK, pick-up was OK but I didn't come off the bend as well in the final as I did in the semi", he explained. "There's definitely an art to running that bend, which Hofmeister has and I haven't got". Jenkins, who enthused over the track and the "absolutely fantastic weather", said he enjoyed the experience of running three 200's in less than three hours. "I won't think twice again about running 21.2 or 21.3 in a 400 now". One might have anticipated a 400m man like Jenkins thriving on three fast races in an afternoon—but what about Green, previously known as a 100m specialist? Far from fading in the final, Brian stormed to another 21.0 timing for third ahead of such men as former European champions Jan Werner and Philippe Clerc. Next day Brian went to work at the 100m event. Here he tied his best of 10.4 in all three rounds . . . 10.40, 10.36 (just 2/100 away from an Olympic qualifying 10.3) and 10.36 for another highly commendable third place. He must be the finest 30-year-old sprint prospect around.

Ian Stewart was most displeased with his own running in the 5000m, in which he finished second to the amazing Ben Jipcho who had the previous day won the steeplechase in 8:29.6 in spite of falling at the water jump on the second lap and taking another tumble shortly before the bell! Stewart found himself hemmed in along the final back straight when he wanted to strike and was unable to match the Kenyan's kick in the home stretch. He dismissed his run (13:41.4) as "rubbish" but he showed enough to re-establish him as a top Olympic hope providing he has a trouble-free winter ahead. Mike Tagg, maintaining the form of his life, finished very rapidly for the same time, easily a personal best, and Dave Black—still a few weeks short of his 19th birthday—ran admirably to equal his European junior best, defeating several class runners in the process. Kilometre splits were 2:46.9, 2:45.1, 2:49.5, 2:45.7 and 2:33.6. Stewart covered his last lap in 56.4.

Among many very great marks was a world record discus throw of 64.88/212'10" by Faina Melnik, a 20.42/67'0" shot put by Nadyezhda Chizhova, Kip Keino's 3:37.2 1500 (2:50.8 for the last 1200!) and a stirring 10,000 duel in which the final 800 took 1:56.8!
