THE RUNNING ON AIR SHOES

● Karhu Air Cushion®

Since 1976 most of Karhu's training shoes have been provided with the patented Air Cushion System. This system is positioned at the point where your feet meets the heaviest burden, and assists in reducing shock in the heel, knees and pelvis areas. Most competitors shoes are too soft in the sole and give no cushioning of lateral stability. These can harm your feet.

● Karhu Sole Patterns

Karhu engineering techniques provide you with sole patterns that give flexibility and durability plus the correct designed wearing characteristics to enable you to perform correctly and effectively in training or competition.

● Karhu Insole Board

This board is designed to give torsional stability in our shoes and is especially important in the driving and recovery phase when loading is at its highest. We may be one of the only companies left providing this feature in our shoes.

● Karhu Fibre Glass Heel Cup

Karhu is one of the last companies to still provide the best and correctly designed fibre glass heel cup available. It gives complete protection in this sensitive area from a high position around the heel which continues under the base of the foot, providing good around protection. Many competitors shoes have small heel cups giving little support and are not made of fibre glass.

 **OLYMPIC QUALITY**
KARHU
THE RUNNING ON AIR SHOES

Since 1916 Karhu Training shoes have been 80% hand-made in Finland and embrace high level engineering techniques in design plus Olympic quality standards in production.

So when you buy Karhu you get the best Finland can offer.

WELLS, COE, OVETT HELP EUROPE TO VICTORY

185,000 spectators watch World Cup . . . UK record by Kathy Smallwood

THE third edition of the IAAF's World Cup, staged in that most inspiring of settings — Rome's Stadio Olimpico — proved to be a huge popular success. Profiting from the dismal experience of Montreal two years ago when the absence of a home team was reflected by the 'gate' (less than 70,000, over three days), the Italians took the shrewd step of adding a 9th lane in order to accommodate their own national squad. With Italians to root for in every event, plus the presence of such superstars as Seb Coe, Steve Ovett, Ed Moses, Carl Lewis and Evelyn Ashford, the public came in enormous numbers: 54,000 on Friday, 58,000 on Saturday and 73,000 on Sunday for an aggregate of 185,000. As a result of the splendid ticket sales, together with TV rights and other lucrative sources of income, a lot of money will be pouring into the coffers of the IAAF and the Federation's new president, Primo Nebiolo (who was president of the World Cup organising committee), starts his term of office with his prestige sky-high. The World Cup was, after all, instituted in 1977 with the prime objective of raising money which could be ploughed back into developing the sport, particularly in the Third World.

Kratochvilova 48.61

Athletically, the meeting was a great occasion too. Although no world records were broken there were near-misses in the 400 hurdles (Ed Moses 47.37) and women's 400 (Jarmila Kratochvilova 48.61) and javelin (Antoaneta Todorova 70.08m), and almost every event featured outstanding performances and/or exciting competition. Many observers have complained that the World Cup is really a two-day contest spread over three days to increase revenue, but certainly from the field event connoisseur's point of view the three-day format is justified as there was far more chance to follow the jumps and throws than there was in the hectic Zagreb programme.

The 1981 World Cup was the most successful yet for British athletes. The only previous individual winner was Steve Ovett (1500 in 1977),

Mel Watman in Rome

but in Rome there were three: Allan Wells (100), Seb Coe (800) and Ovett again. In addition second places were filled by Wells in the 200 and by Kathy Smallwood who not only finished ahead of Marlies Gohr for the first time but capped it with a UK 100 record of 11.10. The Europe Select team which placed second in the women's 4x400 was three-quarters British, but there was a disappointment in the women's 4x100 where a muffed last change resulted in the all-British squad failing to finish after another second place looked possible. The tremendous contribution of the British athletes and not forgetting another winner from the British Isles in Eamonn Coghlan (5000), helped Europe's men win the trophy for the first time, in succession to the GDR and the USA. For the USA team Rome was a disaster. Expecting to show the world what the Moscow Olympics had missed, the Americans eventually finished only third behind Europe and the GDR. But for running an injured athlete (Carl Lewis) in the 100, Henry Marsh being disqualified after finishing first in the steeplechase, and John Powell failing to show up for the discus, the USA could have won, but clearly this was not one of USA track's greatest moments. On the women's side the GDR retained their trophy, ahead of Europe, but there were one or two surprisingly shaky performances.

There won't be a World Cup in 1983 due to the staging of the first World Championships; candidates for the 1985 edition are Canberra and Tokyo.

400 Hurdles: Even an event like the World Cup cannot provide a race for Ed Moses. Running in the gently curving ninth lane the US team captain served up yet another demonstration of his virtuosity as he romped home some 15m ahead of Volker Beck, who may be the current Olympic champion but frankly isn't in the same class as Moses. But then, who is? The only surprise was that Harry Schulting, replacing an injured Harald Schmid for Europe, finished so strongly that he overtook Moscow silver medallist Vasily Arkhipenko (48.89 the previous week) for 3rd. Ed's winning time of 47.37 (21.1 at 5th hurdle touchdown) was the 5th best of all time and added to his incredible statistical dominance of the event. He now owns the 14 fastest times in history, and he has broken 48 sec on 18 occasions. The **average** of his 10 fastest marks is 47.39, in itself considerably faster than anyone else has run even once (John Akii-Bua, 47.82). The victory brought the Moses win-streak in the event to 69 finals, or 75 races including heats. His last defeat was by Schmid (49.07 to 49.29) on August 26th 1977. Mind, he still has some way to go to match the longest sequence of victories in a single event — 110 by shot putter Parry O'Brien between 1952 and 1956. Ed's top ten marks now read:

47.13	Milan	3.7.80
47.14	Lausanne	14.7.81
47.17	Berlin	8.8.80
47.27	Berlin	21.8.81
47.37	Rome	4.9.81
47.45	Los Angeles	11.6.77
47.53	Montreal	24.8.79
47.58	Dusseldorf	2.9.77
47.59	Sacramento	21.6.81
47.63	Montreal	25.7.76

800: Expecting a hard fast race in his final track appearance of the year, Seb Coe was a little disappointed it turned out to be so easy for him. Coe was content to sit in and rely on his fearsome kick . . . but what were the others playing at? Surely if you're resigned to battling for second place at best you would prefer to lose in a fast time, but in this race all of Coe's serious rivals came home in 1:47/1:48 rather than the 1:44-1:46 times of which they were capable had more effort been expended in the early stages. The bell time, Nikolay Kirov leading, was a pedestrian 54.28. Omer Khalifa, Coe's occasional Loughborough training companion (representing Africa as Mike Boit opted for 1500), was 2nd with Coe 3rd in 54.4. The whole field was tightly packed, and bringing up the rear was 18-year-old Joaquim Carvalho Cruz, a tall, clumsy runner with a pronounced forward lean and, from the situations he was getting into, clearly limited experience. Coe was treated to a very smooth ride

Moses: 75th Straight Win

despite the high traffic density, never having to swing wider than the inside of the second lane to avoid being boxed, and he eased ahead just beyond the 500 mark as planned. The only marked reaction was from Detlaf Wagenknecht who, some way back at the start of the back straight, made a spectacular surge to be in a position to challenge Coe at 600 (81.4). Coe held him at bay as the two pulled well clear around the final turn, and when Coe accelerated at the beginning of the home stretch a 10m gap opened in a flash. Coe covered the final 200 in 24.8 (12.0 for the last 100) for an exceedingly comfortable win in 1:46.16. James Robinson's fast finish carried him past Wagenknecht for 2nd, while in 6th place Cruz should have learned a lot. The 1.87/6'1½"; 73kg/160lb Brazilian, holder of the world junior record of 1:44.3 and winner over his idol Alberto Juantorena (1:46.24 to 1:47.72) in the Americas team trials may have run a tactically naive race in Rome but the raw talent was there for all to see. It reminded one of another 18-year-old, running on this track in the 1974 European Championships . . . Steve Ovett.

100: Having already defeated several of the leading US sprinters this year, Allan Wells was now seeking the scalp of the man who could well be considered the fastest mover of all time. Carl Lewis may be best known for his long jumping exploits but let's not forget that his 10.00 timing this year is the 'world record' for 100 without altitude assistance. Sadly, Lewis was never a factor as he jogged in last in the Ashfordian time of 10.96 . . . victim of the injury he sustained in Zurich on August 19th and misjudgement by the US team officials. The pronouncement of the team's medical officer Dr Anthony Daly on the day of the race — "Lewis is fit and ready to go; his right hamstring was the problem, but he is fine now" — will rank alongside Chamberlain's "peace in our time" as one of the less inspired of evaluations, but Lewis himself ("I feel good and

ready") and US head coach Jim Tuppeny ("Carl Lewis has shown steady progress; he will go on event-by-event as scheduled") were equally mistaken. After taking two token long jumps, one of which proved good enough to win, it must have been obvious that Lewis was, as the Americans say, hurting and yet a perfectly fit and capable substitute in Mel Lattany was not called upon. It was a remarkable race in many ways for at least 99% of those watching thought that Ernest Obeng had held off Allan Wells for a shock victory. But, as in Moscow, first thoughts were proven to be wrong when the TV slow motion replay was viewed. The diminutive Ghanaian member of London's Belgrave Harriers is always a fast starter but this time he got the start of his life and was two metres up on Wells at 70. It might have seemed a lost cause for even the Olympic champion but Wells is a tremendous competitor and his dynamic finish enabled him to lunge past Obeng in the very last stride of the race for a 10.20 victory. Ernest's consolation was that he tied his best ever time of 10.21 and proved (not for the first time) that he is truly a world class sprinter. Said Wells: "During the race I felt a bit sluggish. I hope to do better in the 200". Lewis, 4th or 5th at halfway, virtually stopped running at 80 and coasted in. "I just couldn't accelerate", he explained.

Javelin: Having lost to Detlef Michel in Zagreb, Dainis Kula was especially keen to exact revenge in this even more important contest. Straight away he faced a formidable target, for the East German — throwing immediately before Kula — opened with 89.38m. Kula began with 86.84 and improved to 88.50 in the 3rd round but it wasn't until the 5th that the Olympic champion proved himself by thrusting the spear out to 89.74. Michel's reply was 86.10, the second longest of his series. They were the only two throwers to come up with good marks, as third place went to Pentti Sinersaari over 6m behind.

Statistically improbable as it may be, the three longest throwers of the year (Michel 92.48, Sinersaari 91.72 and Arto Harkonen 91.04) are all left handers! Kula, who felt a slight pain in his throwing arm while warming up, said: "I'm satisfied, even though I'm not in as good shape now as I was last year. The world record? That's something for next year".

Long Jump: Mindful of his injury, Carl Lewis was hoping to take just one jump, call it a day and prepare himself for the 100 scheduled for little more than half an hour later. But he barely got off the ground as he misjudged the board and ran through, and was obliged to try again. This time it was a proper jump but his approach speed was so far below normal (another warning sign for the 100 to follow) that he carried out to 'only' 8.15m. He stopped there, and it turned out to be the winning mark . . . just. The man who pressed him close was not Shamil Abbyasov (8.16 this year), or Laszlo Szalma (8.12), or Uwe Lange (8.10) or Cuba's Ubaldo Duany (8.10), the latter pulling out injured after two rounds, but Australia's Gary Honey. Nobody noticed him in the Montreal World Cup of 1979 when he placed 5th, but this time he attracted considerable notice as after opening jumps of 7.91 and 7.92 he reached the Australian record distance of 8.11 in

both round 4 and 6 in totally still conditions. Also a 46.9 400 runner, Honey is going to be a tough man to beat on home ground at next year's Commonwealth Games. Abbyasov moved from 7th to 3rd with his last-ditch effort of 7.95.

10,000: Mohamed Kedir had something to live up to, for the winner of the two previous World Cup 10,000's (and 5000's for that matter) was his countryman Miruts Yifter, over whom he had won Africa's selection this time. Well, Ethiopia lost its unbeaten record but the tiny Olympic bronze medallist gave his all. Not only did he run the fastest time of his life — 27:39.44 — but he also captured Yifter's national record, which had stood since the Munich Olympics at 27:40.96. It took a very good runner to beat him — Werner Schildhauer. He showed in Zagreb what a potent kick he has in a slow race, and here in Rome he demonstrated that he could hold a fast pace and still raise a sprint. His time of 27:38.42 was his second GDR record of the summer, having earlier clocked 27:49.45 behind Geoff Smith in Dresden. There were other excellent times: Alberto Salazar made up for dropping out during the Van Damme 10,000 by registering 27:40.69 for a pb; Venziano Ortis, European 5000 gold and 10,000 silver medallist, made a marvellous return to world-class form after injury with 27:42.70; European champion Martti Vainio was close to his year's best; and World Student Games champion Toomas Turb, whose previous fastest was 28:18.0, came down by over 23 sec. The

torrential rain that began to fall with four laps to go may have been cursed by spectators in the open stadium but it was a godsend for the sweating runners! It was Salazar who undertook the lion's share of the leading. He passed the first five kilometres in 2:49.1, 5:34.8, 8:21.3, 11:07.6, and 13:54.3. At the halfway point, at one stride intervals, came Kedir (13:54.5), Schildhauer (13:54.7), Vainio, Ortis and Turb. Kedir headed the procession at 6km (16:40.1) but Salazar was in front again at 7km (19:18.8) and 8km (22:15.1), giving his familiar impression of a man running barefoot on hot coals. To a thunderous roar from the 54,000 crowd, Ortis — running his first serious 10,000 since Prague three years ago — showed ahead, if briefly, with four laps to go but when Kedir passed him 200 later the race was on in earnest. After reaching 9km in 25:02.6 Kedir covered the penultimate lap in 63.8 in an attempt to draw the sting from his rivals' kicks, but at the bell he still had Schildhauer, Salazar and Ortis for company. The Ethiopian gave it everything on the last lap but was powerless to prevent Schildhauer lumbering past with 60 to go. The East German, whose second 5000 took only 13:43.8, covered the last 200 in 28 sec. It was all a far cry from the previous World Cup when Schildhauer was lapped by Yifter when finishing 6th in 29:15.6. Salazar, an excellent 3rd, is shaping up well for the defence of his New York Marathon laurels next month — when it is hoped that his rivals will include Yifter, Henry Rono

and Nick Rose, all of whom will be planning to better Salazar's own marathon 'debutant' record of 2:09:14!

Shot: Udo Beyer emulated Ed Moses' achievement of retaining a 100% success record in this the third World Cup. He began with a modest enough 20.31m, followed by a foul, but in the 3rd round he effectively terminated the competition with a put of 21.40. With the exception of last year's Olympics, when injury held him down to 3rd, Beyer has won every major international competition (Olympics, European, World Cup, European Cup, Universiade) he has contested since he entered the senior ranks in 1975. He success, following Schildhauer's, helped the GDR to a 6pt first-day lead over the USA (53-47), with Europe a close 3rd on 46.

Women

400 Hurdles: Ellen Neuman, undisputed world's No. 1 this year, was nearly as dominant as Ed Moses as she romped to a 10m victory in 54.82 — just 3/100th slower than her best for the year and the equal 7th fastest time in history. Behind her there was a good race as Genowefa Blaszk closed a 5m deficit on Anna Kastetskaya along the finishing straight to seize 2nd place, thus reversing the Zagreb result. "I just ran to win", said Neuman. "I wasn't thinking at all about breaking the world record. Next year, with new competitors, it might be easier to attempt a new world record".

200: What a line-up this race presented: lane 1 — Evelyn Ashford, the 1979 World Cup winner and second fastest of all-time at 21.83 (plus a 1981 world leading 21.84); lane 2 — Natalya Bochina, Olympic silver medallist in 22.19 (5th all-time); lane 5 — Jarmila Kratochvilova, third fastest ever at 21.97; lane 7 — Barbel Wockel, Olympic champion and 4th of all-time at 22.01; lane 8 — Angella Taylor, whose Canadian record of 22.55 ranked her 6th in the world this year. A titanic struggle among the big three was anticipated, and yet in fact Ashford never looked like losing. Despite drawing the tight inside lane, the American twinkled around the turn to such effect that she entered the straight a metre or so up on the Czech and East German, and held that advantage to the finish in 22.18. In defeat, Kratochvilova at least maintained her European supremacy this season over Wockel, while Taylor — who could give Kathy Smallwood and Merlene Ottey plenty of trouble in the Commonwealth Games — was a good 4th.

1500: When Tamara Sorokina unleashed a 28.8 last 200 to outkick Ulrike Bruns in Zagreb, the first Western European finished some 25m behind. This time, in Rome, Italy's own athletics pin-up Gabriella Dorio held the Soviet star to a mere 3m in a race which had the fans roaring. The early pace was sedate, with 800 reached in 2:15.54, but the pace quickened when Dorio went ahead just before the bell. Sorokina, thriving in

this sort of race, snatched the lead 200 out and completed the last lap in an outstanding 58.0 for a time of 4:03.33. Dorio never gave up and did well not only to stay so close to the winner but to defeat Bruns and Anna Bukis, both of whom have run faster than her this year. She is certainly an example to the British girls that the top East Europeans are not unchallengeable. "I wasn't all that sure I was going to win", admitted 31-year-old Sorokina. "I was afraid of Dorio. It was a hard race compared to Zagreb".

High Jump: Nine years after her Olympic triumph, Ulrike Meyfarth (still a mere 25) has regained the world's No. 1 ranking, albeit in the regrettable absence of Sara Simeoni who wasn't sufficiently recovered from injury. The 1.88/6'2" tall German, already a winner in Zagreb, notched up her most notable victory since 1972. With a clean record at 1.80, 1.86, 1.89, 1.92, 1.94 and 1.96 (equalling her national record), Meyfarth won on formula against Tamara Bykova who also cleared 1.96 first time but had earlier chalked up misses at 1.83, 1.86, 1.92 and 1.94. With the Soviet girl jumping first the pressure was on Meyfarth when her rival jumped 1.96, but she rose to the challenge. Unfortunately the heavens opened when the bar was raised to 1.98 and both were eliminated. Pam Spencer, whose US record of 1.97 in Brussels leads the world this summer, went out at 1.94.

4x400: The East Germans, who had dropped from 1st to 3rd in the team scores after Jutta Kirst's equal 5th in the high jump, improved their situation with an expected win in the long relay but with the 75% British squad representing Europe finishing 2nd the first day ended with Europe still ahead of the GDR (39pts to 36½) with the USSR 3rd on 35. Fielding the same foursome which won in Zagreb in 3:19.83 — Dagmar Rubsam, Martina Steuk, Barbel Wockel and Marita Koch — the GDR clocked 3:20.62. It was only when Wockel took over that the race for first place was seen to be over as she zipped round in 48.90 (23.0 at 200). Koch lost a little ground to the remarkable Jarmila Kratochvilova but her 48.82 stint (22.7 at 200) saw the team home 20m clear. Kratochvilova, anchoring for Europe, was

clocked in a fabulous 48.31 (22.5 at 200)! Her three British colleagues laid a firm foundation: Michelle Scutt (52.6) handed over 3rd, Verona Elder's fiery 51.6 leg enabled her to finish 2nd despite being baulked by Jackie Pusey at halfway, and Jos Hoyte-Smith pulled away from her American and Soviet opposition with a forceful 50.6.

Second Day, September 5th

Hammer: Thunder, lightning and heavy rainfall greeted the throwers, so if the distances achieved were somewhat less than expected the reason is that the poor athletes were struggling to keep a grip as they rotated at less than full speed on the wet circle. In the circumstances the performances of Yuriy Sedykh (77.42m in the 1st round, and three others over 75m) and Karl-Hans Riehm (75.08 in round 1 and 75.60 in round 4) were quite remarkable. Gian Paolo Urlando (71.92) was the only other competitor to exceed even 68m. The man most below form was Roland Steuk, who had finished narrowly ahead of the Italian for 3rd place in Zagreb. This time he was in terrible trouble, his only valid throw landing at 65.74 for a humiliating 7th place.

400: The Russians were up to their tricks again. Viktor Markin was the obvious selection, having run 45.7 the previous week, but the man officially nominated was little known Vitaliy Fyedorov. However, the name which went up on the scoreboard as the runners took their marks was — surprise, surprise — that of the Olympic champion. Markin, however, was never in the hunt and although he ran an electrically timed season's best of 45.78 he finished no higher than 5th. Markin, who ran 44.60 to win the Olympic title but has not otherwise clocked faster than 45.33, would have needed to be at his best for any chance against Cliff Wiley. The American, who at 1.72/5'8" and 61kg/135lb is living proof that you don't **have** to be big to be good in the 400, ran a fabulous first 300 (unofficially timed in 31.9) to enter the finishing straight 5m up on Bert Cameron. Even the US press corps expected Wiley to tie up but he held on valiantly to score

by 3m in 44.88, just 18/100ths outside his best. Wiley is no stranger to World Cup competition, for in 1977 he was a member of the 4x100 squad which set the still standing world record of 38.03. A 10.21/20.39 sprinter who had previously only dabbled at one-lap (47.8 440y in 1974, 47.2 in 1978, 46.10 in 1980), Wiley has enjoyed a marvellous season in his new speciality, having won the US title in 44.70 and the World Student Games gold medal in 45.18, and clocked a 44.2 relay leg against the USSR. There was a rare battle for 2nd as Mauro Zuliani (who was far back at 200 in 22.5) made up an enormous amount of ground in the finishing straight to pip Cameron in 45.26, an Italian record. "I started out too slow; I could easily have done 45.16 if I had started off a little faster". Cameron, Commonwealth record holder and 1981 world leader at 44.58, was not at all happy about being awarded 3rd place and refused to shake hands with the Italian at the medal presentation. Said Zuliani: "I'm really very happy I beat Cameron because he said he had never heard of me and didn't want to". The 1979 World Cup winner Hassan El Kashief faded from 3rd to 7th in the finishing straight.

A happier occasion for Henry Marsh as he nears victory in the Van Damme Memorial in 8:21.08. In Rome he was disqualified after finishing first.

the USA ahead in the team scores, but the outcome of the steeplechase effectively put paid to American hopes of retaining the trophy. What happened was that Henry Marsh was first past the finish line in 8:19.31 but ended up scoring no points, having been disqualified for infringing Rule 164 (7) — that is by failing to clear the hurdle at the water jump on the penultimate lap. The first 2km of the race were uneventful as Ralf Ponitzsch led through the initial kilometre in 2:48.7 and Boguslaw Maminski headed past 2000 in 5:39.6. Eshetu Tura, the Olympic bronze medallist, was the first notable casualty as the pace picked up and at the bell it was Maminski from Masanari Shintaku (Asian record holder at 8:19.52), Marsh and local hero Mariano Scartezzini, the so impressive European Cup winner. When the Italian charged ahead with 200 to go, and remembering his finish in Zagreb, it looked all over but as he raced towards the final barrier he lost his nerve, hesitated and was lost. Maminski, whom he had left 25m behind in Zagreb, came off the hurdle narrowly ahead, but there was more drama to come as Marsh squeezed through a non-existent gap between Scartezzini and Maminski (knocking the Pole in the process, and possibly warranting disqualification on those grounds) and winged his way to victory. Marsh, an attorney by profession, lodged a protest when the disqualification was announced but the Jury of Appeal after receiving reports from the relevant officials and the athlete himself, and

after viewing video-tape recordings of the incident, rejected the appeal. In their opinion: "(a) Henry Marsh, as he admits, failed to clear the hurdle at the water jump on the penultimate lap; (b) In doing so, he appeared to gain an advantage; (c) The claim that he was "improperly forced" by another runner to go round the side of the hurdle is not substantiated by the evidence; in fact the video recording reveals that he extended his right arm and appeared to touch the GDR runner just before reaching the hurdle, and so lost his stride; (d) The athlete was overtaking the GDR runner and was trying to force his way through on the inside lane". Looking at the TV coverage it would appear that Marsh tried to pass Ponitzsch on the inside approaching the jump and there just wasn't room. Instead of chopping his stride and falling back, Marsh left the track and ran around the water jump, improving his position from 4th to 2nd in the process. Fortunately, justice was done and the race was awarded to Maminski who preserved a narrow margin over the dejected Scartezzini. The final kilometre took 2:40.3. Maminski's win took Europe into a lead they never lost.

1500: One of this reporter's indelible athletic memories of that of Herb Elliott running away with the Olympic 1500 title in Rome in the world record time of 3:35.6. Well, that was still the stadium record (of course it was a cinder track in Herb's day) on the eve of its 21st anniversary.

FEET FIRST.

NEW BALANCE 620

Most sportsmen would agree that without good, healthy feet they'd be nowhere. And healthy feet means wearing the right footwear.

A recent medical survey showed that the most important item for sportsmen was the right shoe. For comfort, confidence and protection from injury. Which is why at Cobra Sports Shoes we put feet first.

Both our shops carry a massive choice of shoes, including top names like Brooks, Nike, Adidas, Karhu, Tiger, New Balance and Reebok.

So there's a pretty good chance we've got the right shoes for you, whatever your sport.

Come and have a look around. And please try them on. As many as you like. No single make is suitable for all sportsmen. And even with one type of shoe, sizes can vary from one batch to the next.

So it's vital to get them on your feet and get the feel of them before you decide.

Don't worry about taking up our time.

Our staff are helpful, enthusiastic and knowledgeable.

They'll do all they can to make sure you get the shoes that are right for you.

And if by some chance we can't help, there's no hard feelings. Even if you tried everything in the shop!

We'd rather you walked out with no shoe, than the wrong shoe.

If you put your feet first, put them in our door.

and how appropriate it should pass to another of the all-time greats of the event . . . Steve Ovett. The world record holder ran one of his sublime tactical races, always in the right place at the right time. The field was of a very high quality, including John Walker, Mike Boit, Sydney Maree and Olaf Beyer, but Steve was quite untroubled in disposing of all and sundry in the final straight. Maree, a former South African making his full international debut for the USA, led through 400 in 57.69 and 800 in 1:57.70, and then as planned Boit took over with 600 to go in the hope that he could run the steam out of Ovett's kick. It was a fast third lap, at 57.23 (2:54.93 at 1200), but Ovett was not in any sort of bother. He trailed Boit around the final turn and shot past at the start of the straight to win in 3:34.95. His last lap was 53.6. Boit faded in the straight to 4th place as first Beyer (running a pb) and then Walker steamed past, with the New Zealander grabbing 2nd in the last couple of strides. Maree — who was to shock everyone, Ovett included — four days later at Rieti, finished 5th. Ovett later held his first major press conference since winning at the 1977 World Cup in 3:34.5 (his first great success at the distance). "I have not trained very hard this year", he revealed. "I think I've got through largely on my training from last year, but I have achieved all I set out to do and I have enjoyed it. Next year the 1500 will be under 3:30, not just by me but by a lot of people. I know if I don't improve I'm going to get wiped out; it's as

simple as that". While Seb Coe is talking about going for the 5000 in the 1984 Olympics, Ovett remains adamant that he will stick to the 1500. "The 5000 metres is just 12½ laps of pain".

4 × 100: With Americans occupying the top six places on the 1981 world 100 list with times ranging from 10.00 to 10.15 one would have expected to see a US team capable of going inside 38 sec. But of the top men only Mel Lattany and Stanley Floyd were fit or available and the squad could place no better than 3rd behind the all-conquering Polish foursome (representing Europe), who clocked 38.73, and the GDR for whom anchorman Frank Emmelmann overtook Steve Williams.

Discus: The disillusioned US team was thrown into further disarray when not only did 1981 world leader John Powell fail to arrive from Norway but the team management failed to enter anybody else for the event. Thus, another zero! Coach Jim Tuppeny put out the following statement: "John Powell never showed up. He told no one he wasn't coming. The most recent telex we received from Powell, dated September 3rd, indicated he would come. I had Brian Oldfield suited up and ready to go but they wouldn't let him in, because it was too late. At first they told us we could put anybody in at any time. Then today they said he couldn't be in the meet because he isn't entered in the computer. We couldn't go with Dave Laut because his knee was bothering him and we didn't want to risk injuring

Dave McKenzie. How can you replace a guy who says he's coming?" The remark about hammer thrower McKenzie (once a good collegiate discus thrower) is puzzling, for his event finished before the discus. The competition proved to be a close one between European Cup winner Armin Lemme and Olympic bronze medallist Luis Delis. The Cuban's opening 64.88m paced the field until Lemme produced a 66.26 effort in round 4, Delis replying with 65.96. In the 5th round the 1.99/6'6½" tall Lemme threw 66.38 . . . Delis 66.26.

Triple Jump: This event promised to be one of the highlights of the entire meeting, and so it was as despite a slight prevailing headwind Ken Lorraway found a leap of 16.70m netted him only 6th place as Bela Bakosi took 5th by virtue of a superior second best (16.69 to 16.66). World record holder Joao Carlos de Oliveira, who has had his share of Olympic disappointments but has won at both previous World Cups, led the way in round 1 at 16.90, with Olympic champion Jaak Uudmae 2nd at 16.66. Bakosi briefly displaced Uudmae with his 2nd round 16.70, but round 3 saw China's Zhu Zhen-xian take the lead (16.97) from de Oliveira with Uudmae (16.83) 3rd and Willie Banks — whipping up frenzied support for himself as usual — 4th with 16.80. There was more excitement in the 4th round as first Zhu improved to 17.14 (—0.89m wind) and then was followed immediately by de Oliveira who uncorked a gorgeous 17.37 (—0.31m)! The Brazilian fouled his last two attempts, but the pride of Chinese athletics wasn't through yet. He went 16.88 in the 5th and then finished with a splendid 17.34 (+0.21m) for an Asian record and 6th spot on the world all-time list. And as a finale Banks — who is sure he will be the first man to reach 18m — delighted his many new fans with a 17.04 which moved him past Uudmae into 3rd place. For de Oliveira his victory was some small consolation for his experience in Moscow where, he claims, he had four jumps in the 17.30-17.40 range disallowed by the judges for "incomprehensible reasons" (he placed 3rd with 17.22 with the gold going to Uudmae at 17.35). Zhu Zhen-xian, who could well become China's first ever Olympic medallist, is 25, stands 1.84/6'0½" and weighs 72kg/158lb. The first Asian to top 17m, he registered his previous best of 17.32 when winning the World Student Games title this summer.

Pole Vault: The torrential rain during the late afternoon caused a one-hour stoppage in mid-competition with the bar at 5.30m. On resumption Konstantin Volkov missed at that his opening height but made it second time and was on his triumphal way. He cleared 5.45, 5.55 and 5.65 without failure. His only serious rival, Jean-Michel Bellot, succeeded first time at 5.30 and 5.45 before clearing 5.55 at the second try. After one failure at 5.65 the Frenchman, already secure in second place, had nothing to lose by using his

two remaining vaults at 5.70. He went out, while Volkov went over at the second attempt. Using a 4.93m hand hold on his 200lb-rated pole, the 1.85/6'0¾", 75kg/165lb Olympic silver medallist then took one unavailing crack at 5.80 and two, significantly enough, at 5.82. That last height would seem to confirm that Volkov's 5.84 will not be submitted for ratification as a world record, in succession to Vladimir Polyakov's 5.81, and that in Volkov's mind 5.82 was the world record height to shoot for. There has been much confusion over the status of that 5.84, set in Volkov's native city of Irkutsk (Siberia) on August 2nd. It was first claimed to be a bona fide competition but it now appears that the mark was made during an all-sports gala and should be regarded as nothing more than an exhibition jump. Volkov himself stated in Rome; "The 5.84 in Irkutsk was not ratified, because the competition was not official". The team positions after two days: 1, Europe 107pts; 2, GDR 98; 3, USSR 91; 4, USA 87.

100 Hurdles: After years of domination by the East Germans and Poles, leadership in this event has, since the Moscow Olympics, passed into Soviet hands — a subject that is examined by Ivan Berenyi in an article to appear in next week's issue. world's best time this year of 12.68 she added to her European Cup victory with another good win. Always just ahead, she clocked 12.85 a half-metre ahead of Kerstin Knabe who moved from 4th to 2nd in the second half of the race. World Student Games champion Stephanie Hightower didn't disturb the East European supremacy.

800: Thanks to a speedy last 200, covered in 28.1, Lyudmila Vesselkova turned the tables on her Zagreb conqueror Martina Steuk. Madeline Manning, making her first and last World Cup appearance at 33 (she says this was to be her final race), ran the way she likes best — from the front. After leading through 200 in 28.14, 400 in 58.63 and 600 in 89.28 she faded out of the picture, leaving Vesselkova to whizz through the last 200 unchallenged. Steuk and Jolanta Januchta had a rare tussle for 2nd, the East German getting there by 1/100th. She was lucky, for she eased up 5m before the finish and was all but pipped by the Pole. When will athletes learn? Gabriella Dorio followed up her cracking 1500 with a sub-2 min clocking, while Terry-Ann Cater (née Wangman) of Australia posted a pb of 2:00.56. With her 52.50 400 speed she will be a strong contender in Brisbane a year hence.

100: A pleasant surprise was the news that Kathy Smallwood would be representing Europe in place of the injured Linda Haglund. A delightful shock was her performance in the event. Kathy, in full stride, is as fast as almost anyone around — but the problem in the 100 has always been for her to get those long legs moving quickly enough soon enough. But here in Rome she ran a perfect race and achieved the sort of result which she might have thought reserved for dreams. Away fast and smoothly into her pick-up, she found herself unbelievably in the lead against the two fastest 100m performers of all-

Kathy—Our Fastest Ever

George Herringshaw

time in Marlies Gohr and Evelyn Ashford. Not until the 80m mark did Evelyn steal past, but Marlies never did get on level terms. Of her start, Kathy remarked "I amazed myself", and she wondered whether the short notice she was given of running helped — "I didn't have time to get too nervous!" The end result was that Evelyn Ashford was the winner in 11.02, thus completing her second World Cup double, Kathy Smallwood was 2nd and Marlies Gohr 3rd — the first time the world record holder has been beaten by a British athlete since her sensational breakthrough in 1977. And, capping it all, was Kathy's time . . . 11.10 in completely wind-free conditions! At last, after six years, Andrea Lynch's UK record of 11.16 had been broken.

Shot: Ilona Slupianek would have become the only woman to win three World Cup events on the trot had she not been subsequently disqualified after her 1977 victory for failing the dope test at the earlier European Cup Final (the otherwise excellent printed programme omitted to mention this in the list of previous results). In a totally undistinguished competition Slupianek (20.60m) easily accounted for her perpetual runner-up Helena Fibingerova. The second day positions ended thus: 1, Europe 69 pts; 2, GDR 68; 3, USSR 64.

Third Day, September 6th

110 Hurdles: The Americans stuck to their policy of selecting US championship winners and thus it was Greg Foster and not Renaldo Nehemiah (who missed the championships through injury) who carried the US colours in Rome. Despite a flurry of great times, including history's No. 3 mark of 13.03, Foster had lost time after time to Nehemiah in Europe and he badly needed a victory to restore his self confidence. He got it but not without quite a struggle against former world record holder Alejandro Casanas. The Cuban, rarely a winner but always so close in the big races, held Foster for nearly half the distance and was only 4/100ths back at the finish with a season's best of 13.36. Julius Ivan, the Czech controversially preferred to Mark Holtom as Europe's representative, filled 3rd place as expected with a time of 13.66. He had set a pb of 13.55 the previous week.

200: Allan Wells seems destined to miss out on sprint doubles on the major occasions. At the 1978 Commonwealth Games he was 2nd in the 100 and 1st in the 200; at the 1979 European Cup Final he was 3rd in the 100 and 1st in the 200; at both the 1980 Olympics and 1981 European Cup Final he was 1st in the 100 and 2nd in the 200; at the Golden Sprints he was 2nd in the 100 and 1st in the 200. After winning the 100 in Rome his hopes were high of adding the 200, but they were dashed by a stomach upset. He ran an excellent turn to enter the straight level with arch-rival Mel Lattany but Allan just didn't have the strength at his command and the American drew a good 3m clear as Wells concentrated on holding his Zagreb conqueror Frank Emmelmann at bay. Lattany's time of 20.21, a personal best, was just 1/100th away from James Sanford's 1981 world's fastest. Wells, who had been suffering from stomach cramps since before the 100 two days earlier, said he had considered withdrawing but "I ran because I felt I could still win more points for Europe than any reserve". He did too.

5000: For Eamonn Coghlan this race was an opportunity to compensate a little for his Olympic disappointment by showing the world he is a winner at the distance, but few would have bet a brass farthing on his chances when he was caught napping when Valeriy Abramov put in a sudden burst with six laps to go and for a time he was 30m and many places adrift. Prior to that 61 sec lap the pace had been that of a 2:09 marathon as India's Gopal Saini led through the first two kilometres in 3:03.6 and 6:06.9. Fortunately for Coghlan the tempo eased again when Vittorio Fontanella succeeded Abramov as leader and he was able to make up the leeway in a relatively comfortable fashion. The Italian, cheered on his way by the enormous crowd of 73,000 (which must be one of the highest attendances ever for an

athletics meeting outside of the Olympics), reached 3000 in 8:47.2 and 4000 in 11:38.4. Fontanella and Coghlan led a close-knit bunch of seven past the bell in 13:15.2. and it was now a question of who possessed the strongest kick. In theory it should have been Coghlan, and so it proved. Unleashing his drive for the finish from as far as 270m out the Irishman held off everyone to win in 14:08.39. That time meant nothing but for Coghlan it was one of the most satisfying runs of his career and he could be proud of his finishing speed — 25.9 for the last 200, 38.6 for 300, 53.2 for 400. Fontanella was overtaken 50m from the line by the blond East German Hansjorg Kunze, who finished faster than anybody . . . and who was to run the second fastest 5000 in history just three days later! Gopal Saini, Indian record holder at 13:52.22, was still in contention with 300 to go and though run out of it in 7th place he created a very favourable impression. He looks capable of running 13:30-13:40 in the right sort of race and it's to be hoped that he will get further opportunities of racing in Europe. Henry Rono was down on the programme as Africa's representative but after an argument with the team management (Rono insisted on running the 10,000 as well as the 5000) he stormed out of Rome, leaving Tolossa Kotu to deputise. Rono's action could well lead to disciplinary moves against him, and it will serve him right. He has the public, as well as his own ambitions, to consider.

High Jump: Only equal 51st on last year's world list at 2.23m Tyke Peacock then hardly loomed as a possible World Cup winner. But after taking the US title at 2.25 he continued to improve in Europe, clearing 2.28 a number of times, and in Rome the 20-year-old found another 2.28 was enough for victory from the rain-drenched take-off. He made 2.24 with his tracksuit trousers still on but after one miss at 2.26 he stripped off and cleared. Gerd Nagel held the lead when he took 2.26 at the first attempt but Peacock's first-time success at 2.28 decided the outcome. He then went for a US record of 2.32. The record of 2.31 was in fact set only the other week in Nice by Dwight Stones, since superior marks by Stones and Jeff Woodard have been disallowed (because of sloping ground) by the TAC even though Stones' 2.32 in 1976 was ratified as a world record. Peacock's great passion is basketball and he hopes to turn pro within a couple of years. "I train very little for high jump, just once a week", he said. "I mostly do stretching".

4x400: The World Cup as a whole may have been a disaster for the USA but at least the Americans finished on a high note as Walter McCoy (45.20), Cliff Wiley (44.41), Willie Smith (44.58) and Tony Darden (44.93) joined forces for victory in 2:59.12. Disappointingly, David Jenkins did not get a run for the Europe team which thanks mainly to a splendid anchor by

Hartmut Weber (44.15), who overtook the Americas' Bert Cameron, placed 2nd. The Italian fans expected great things of their national team, winners in Zagreb, and made evident their displeasure when the squad, anchored by Mauro Zuliani (whose 44.65 lap picked up one place), finished in 5th position.

Women

400: Throughout a year of remarkable performances, indoors and out, Jarmila Kratochvilova had one over-riding goal: to beat Marita Koch in the World Cup. To that end she probably worked harder than any other sprinter ever has — training five or six hours a day (in two sessions) during the winter and including a lot of heavy weight training. At the age of 30, with 12 years in the event behind her, she was ready to assume world leadership. Not that Koch, whose last defeat at the distance was by Irena Szewinska in the 1977 World Cup, was willing to move over, but in Rome despite running a season's best of 49.27 (the 9th fastest of her career and a time that otherwise only Kratochvilova has ever bettered) the Olympic champion found herself 5m down on the bulky Czech. Kratochvilova, in lane 6, went for broke from the start and according to official Omega splits published by *L'Equipe* she blazed through 100 in 11.95, 200 in 23.53 (11.58) and 300 in 35.82 (12.29) on the way to a final

UK Women's League

Final Round

Stretford regain their title at home

DIVISION ONE

STRETTFORD AC came back strongly in the third and last match on their own track on August 29th to regain the UK Women's League Championship. The consistent support from their international athletes and their ability to cover for absent stars proved to be the deciding factor. There were fine performances from Shirley Strong, Yvette Wray and Janet Marlow, and Lorna Boothe showed good sprinting speed to take both the flat events.

Jane Parry and Paula Dunn maintained their 100% records in the Intermediate sprints.

INTERPLAS BIRMINGHAM MARATHON

Confirmed amongst the 5123 entries for tomorrow's (20th) Interplas City of Birmingham Marathon — the Brum Run — are Ian Thompson, Tony Simmons, Trevor Wright, Terry Colton, Malcolm Prince and Knut Kvalheim. Eight overseas nations will be represented in the field, which includes three wheelchair competitors, a man of 71 and a girl of eight — who will be running some of the way with her parents. The race starts and finishes at the National Exhibition Centre, where there is seating for 5200 people to see the finish.

Caroline Rodgers' time for the marathon on July 12th ('AW' Sept. 5th, pg. 30) was 2:50:41, and not as stated.

Stockport H & AC announce that late entries for their cross country event on September 27th will now be accepted (see 'AW', Aug. 15th, pg. 16).

COE SHOCK SENSATION!

Just two days after completing his season's racing with that sweeping victory in the World Cup 800, Seb Coe was timed by Mel Watman at the slowest 1500 of his career . . . 8:46! No, he wasn't walking backwards, but that's how long it took him, Brendan Foster and the editor of 'AW', in the company of Alan Parry, Andy Etchells and Dave Cockledge among others, to reach the first checkpoint in the "Marathon of History and Peace" from St Peter's Square in Rome on the morning of September 6th. This mass participation event over a fascinating and beautiful 17.4km course attracted anywhere between 6000 and 15,000 starters depending on whose estimate you believe, and incorporated an 'elite' international race which was won by Australia's Rob de Castella in 51:02 well clear of Italy's Michelangelo Arena (what an appropriate name) in 52:38 and Bernie Ford (52:47) with Keith Penny 6th in 53:57. Instead of starting in front with the other stars (who included Grete Waitz, first woman home in 57:43), Seb and Bren joined in at the back of the massed ranks of scrubbers for what was intended to be a gentle training run. After your editor decided to let the pair move away from him, for reasons not entirely unconnected with the fact that the heat together with constant surging through the tightly packed field had left him knackered already, Seb and Bren threaded their way past thousands of runners and eventually finished somewhere in the first 20 or 30. Seb thoroughly enjoyed this first excursion into fun running. "I could get hooked on it", he said.

WORLD CUP SPONSORS

Asics Tiger, the Japanese sports manufacturers, in addition to sponsoring the World Cup in Rome also sponsored the European Cup Final in Zagreb. Next month they will be involved in financing the Commonwealth Games Preview meeting in Brisbane and are soon hoping to break onto the British athletics scene.

In the results of the TSB Sandwell Marathon ('AW' Aug. 22nd, pg. 15) Colin Mattock (W&B) was omitted. He actually finished fourth in 2:26:19.

Rotherham H still have vacancies for their Senior inter-club match at Herringthorpe Stadium on September 27th. Further details from Ralph Rowbotham on 0709 2675.

WORLD CUP Continued from page 17

tantalising time of 48.61 (12.79) — 1/100th outside Koch's world record. Her own previous best was 49.01. Koch, in lane 8, was only a stride behind at 300 but she could not match the Czech's massive strength in the final straight. Kratochvilova said she wasn't surprised by the result as she knew she could beat 49 sec, and she wasn't too disappointed about so narrowly missing the record. Next year her goal is the European title — and that will be the end of her career, for she has no intention of continuing until Los Angeles (she'll be 33 then). She hopes to capture the world record in 1982 but "I haven't any pretensions about being the first woman to run 48 sec; that will be for an athlete who is much faster than me, and perhaps even Marita Koch, at 200". Koch said her defeat was expected as she has been injured on and off all summer and wasn't sure of even competing in Rome. "It was quite miraculous that I should have run my best time of the year here". With Irina Nazarova way below form, Jackie Pusey took 3rd while close behind came 16-year-old Denean Howard.

Discuss: Olympic champion Evelin Jahl, the GDR team captain, made up for her European Cup lapse by defeating the two who finished ahead of her in Zagreb — Maria Petkova

JARMILA KRATOCHVILOVA

Mark Shearman

(Vergova) and Galina Savinkova. The Soviet thrower led after the first round with 63.76m, but Jahl swept ahead with her second throw of 65.00 only to be overtaken by Petkova's fourth effort of 66.30. Jahl's reply came on her next throw: 66.70.

3000: Silvana Cruciatu took a leaf out of Paula Fudge's book in trying to burn off formidable East European opposition, and she partially succeeded. After a very slow start (3:06.3 at 1000 and around 4:36 at halfway) the Italian breathed life into the race and broke away into a 10m lead. She passed 2000 in 6:03.9 and her strong pace caused Tatyana Pozdnyakova (2nd on 1981 world list at 8:34.80) to crack two laps from home. But she couldn't shake off the world's No. 1 Maricica Puica (8:34.30) and European Cup victor Angelika Zauber. The bell was reached in 7:51.8 with the three in close formation. Puica overtook Cruciatu 230m from home but Zauber seized the lead with 60 to go to score in 8:54.89, having run the last 200 in 29.0. Zauber's win took the GDR ahead in the Cup for the first time since the first day. Kenya's Christine Chepchirchir, believed to be only 13, placed 6th.

4x100: The East Germans, with Kirsten Siemon replacing Annelies Walter on the first leg, clocked 42.22 as against 42.53 in Zagreb — Marlies Gohr being time at 9.91 for her flying 100 on the anchor! Runners-up USA broke one of the oldest national records on the books, 42.87 by the 1968 Olympic team in Mexico City. There was a disaster for the all-British squad representing Europe. Good running by Wendy Hoyte, Kathy Smallwood and Bev Callender took the team into 2nd place at the last change, and heading for a sub-43 time, but alas that last change was never effected. Shirley Thomas went too early, slowed when it became obvious that Bev was never going to reach her, looked round, tripped over herself and finished sprawled on the track. It was a sad end to an incredibly successful season for 18-year-old Shirley who, even a few months ago, could hardly have expected to be running for Europe. She can console herself with the thought that it didn't affect Europe's overall team placing, that there can't be a sprinter around who hasn't made a mistake in a relay, and that her future remains as bright as ever.

Long Jump: Zagreb winner Sigrid Ulbricht had it all sewn up from the start: 6.69m in round 1 and 6.80 (—0.17m wind) in round 2. The nearest approach came from Jodi Anderson (who tops

the 1981 world list with 6.96) whose 6.61 in round 3 was sufficient to top Anna Włodarczyk's 6.59 opener and Tatyana Skachko's second round 6.49.

Javelin: Any thoughts that Antoaneta Todorova's sensational 71.88m world record in Zagreb might just be a flash in a pan were dispelled by her series in Rome. She began with 68.78, followed with 64.38, 66.24 and 67.70, and then in the 5th round produced a gorgeous throw of 70.08 — equalling Tatyana Biryulina's former world record as the second longest in history. Her final effort, landing at around 65m was a foul. Petra Felke, the girl the East Germans hope will prove to be Ruth Fuchs' successor, was in super form also, her 2nd round 66.60 being a personal best and ranking her 4th in the world this year.

GRE CUP FINALS

The GRE Cup competitions reach their climax this weekend with finals at Birmingham's Alexander Stadium. Today (19th) sees the finals of the Gold and Jubilee Cups with the men of Birchfield, Edinburgh AC, Essex Beagles, Haringey, Shaftesbury, Southampton & E, Thames Valley & Wolverhampton & B (holders) contesting the Gold Cup, and the women of Birchfield, Borough of Hounslow, Cambridge H, Crawley, Glasgow, Haringey, Stretford (holders) and Wolverhampton & B in the Jubilee.

Tomorrow (20th) are the Plate finals, with the following clubs involved: men — City of Stoke, Dartford, Lisnagarvey, Morpeth, Newport, N. London, Portsmouth and Windsor S&E; women — Barnet, Bracknell, Central Region, London Olympiads, N. Shields Poly., Portsmouth, Sheffield and Southampton & E.

Both meetings start at midday, with the first track events at 1.00 p.m.

HAVERHILL ROAD RACES

We have been advised by the organisers, West Suffolk AC, that there will now be a Colts (U/13) race over 2 miles. Full details on page 47.

Applications are still being taken for the BAAB National Event course for sprints and hurdles from October 2nd-4th at Cwmbran. Designed for Club Coaches wishing to take the Senior Coach award, details are available from the Course Administrator, BAAB Coaching Office, Westgate House, Chalk Lane, Epsom, Surrey.

DAVID SHAW

Mark Shearman

David Shaw's departure will be a sad loss

THE NEWS that David Shaw is to give up his post with the BAAB to take over as general secretary of the Independent Television Companies Association will sadden his many friends in the sport but will have come as no great surprise.

Right from the start in 1978 as the Board's first full-time professional secretary, David encountered a lack of co-operation, in some cases even open hostility, from certain honorary officials and their associations. And, although it is a testimony to his perseverance and ability that he became so influential a figure in British and international athletics, it was ultimately the internecine struggle for power between the various factions and bodies that make up the British athletics administration that has led to his impending departure in November. It was well known to his friends that he was growing increasingly more disenchanted by the fragmentation of British athletics with so many bodies seemingly pulling in different directions, and the supreme frustration was that he found himself powerless to resolve the situation. His goal of a single governing body for the UK is, if anything, even further away.

Yet despite all the difficulties David can be proud of the job he has done over the past 3½ years, for he never lost sight of the fact that he was there first and foremost to help the athletes with their needs. Thanks to his vision and efforts, new life was injected into the international team set-up and for him the most pleasing of his achievements was "the radical change there has been in management and the way the national team is run and treated". Although he has had his well publicised differences with some of our biggest stars over what he saw as a lack of commitment to the team, even those athletes would concede that great changes for the better have taken place during the Shaw era and they themselves have benefitted. It was he who spearheaded British efforts towards scrapping outmoded amateur rules, although that is a fight others will have to take to its conclusion.

David insists he is not quitting; that "it's time to move on". That's fair enough. He has worked well for British athletics and now he has landed himself a super new job in another field which fascinates him. I wish him every success. Along with my press colleagues I shall miss his refreshingly open manner and good humour, and hope that his successor in the 'hot seat' will be as competent and approachable. Whoever that may be will have a lot to live up to.

THE ULTIMATE REFERENCE BOOK

Publication Date: September 24th

WHAT have best-selling authors Erich Segal and Jeffrey Archer, actors Jack Lemmon and Oliver Reed, and singers Paul Robeson and Johnny Mathis in common? They were all successful athletes in their day — as were President Kekkonen of Finland, Nobel Peace Prize winner Philip Noel-Baker, House of Lords Liberal leader Lord Byers, the current Prime Minister of Senegal and a former Prime Minister of Jamaica, High Court judge Mr Justice Kilner Brown, Field Marshal Earl Alexander of Tunis, TV actor Dennis Weaver and opera singer Anne Pashley.

Facts and figures about the athletic achievements of men and women distinguished in other spheres are among the new features of the latest edition of "Encyclopaedia of Track & Field Athletics" by Mel Watman, published next week by Robert Hale.

This fifth edition of a work universally acclaimed as the most complete reference book on the sport brings events up to date at the start of this summer, and the author has attempted to strike a balance in the content between British and international, historical and topical. Thus some 150 fact-filled biographies scattered throughout the book's 240 pages range alphabetically from Abebe Bikila to Zatopek (Emil) and include not only 1980 Olympic champions and current world record holders but also such 'greats' of earlier eras as Walter George, Paavo Nurmi, Jesse Owens, Fanny Blankers-Koen and Roger Bannister.

The book is a mine of information. Besides providing a concise history of each athletic event, there are lists of Olympic, European, Commonwealth, African, Asian, Pan-American, European Indoor, European Junior, AAA, Women's AAA and UK champions; a record section for which in some events no fewer than 13 different categories of performance are listed; tables showing how world and British records have evolved over the past 20 years; coverage of such events as the European Cup, World Cup, International Cross-Country Championships and World Veterans Championships. There are 32 photographs.

Of the previous edition, published in 1977, Cliff Temple wrote: "The book brings between its covers the most comprehensive story, in words and figures, of a constantly evolving sport . . . The entries put everything that is happening in athletics today into a new perspective".

The book is available from the Book Department, Athletics Weekly, 344 High Street, Rochester, Kent ME1 1DT at the published price of £8.95. We pay for the postage and packing.

Exclusive to 'AW' readers

As a special service to 'AW' readers, purchasers through the Book Department will receive — free of charge — a supplement containing important results (European Cup, World Cup etc) and changes to records which have occurred since the book went to press. This useful supplement, which updates the content of the book to mid-September, is not available with copies of the Encyclopaedia sold elsewhere. That's another good reason for ordering your copy from the Athletics Weekly Book Department whether it's for yourself or as a gift for another athletics enthusiast.

Walking Commentary

By Colin Young

WHAT A RACE AND WHAT A FINISH!

HAVING SEEN more than a few 'thrillers' in the 35 years I have been following race walking, a race that I put as the best ever I have witnessed must have been something special. Such was the AAA 3km race at Crystal Palace on August 7th.

This race had everything, with only a metre separating the two leaders from start to finish, a British record-breaking pace, a sub-90 second last lap and a 'winner' by four hundredths of a second, only for the 'winner' to be disqualified after finishing.

Steve Barry led through laps of 1:31.1, 1:34.4 (3:05.5) and 1:33.7 (4:39.2), having passed the kilometre in 3:52.4. Roger Mills then took over with 1:34.2 (6:13.4), 1:35.5 (7:48.9) and 1:37.3 (9:26.2) having zipped through the second kilometre in 3:56.5. With Mills, out for his ninth victory in the event, still leading at the bell in 10:15.2, it looked like Paul Nihill's 1971 CBP of 11:51.1 would survive, but neither Roger or Steve had shown their best speed yet!

With just under 300m to go, the Welsh holder of the title challenged strongly, but was repelled, and with the speed increasing, he tried again with 100m remaining. They battled shoulder to shoulder, with Barry edging ahead only for Mills

to dip expertly and viciously at the line to lose out by six inches at the most.

However, the drama was not finished as Barry was immediately disqualified, having had three cards against him on the final circuit. With the two men at their absolute maximum, there was some switching in the final 400m, but I feel the TV cameras confirmed that nothing too excessive took place in the circumstances.

Naturally, Steve was very upset at the final decision, but both men recorded times that must have both surprised and delighted them. There may be many 'walkers' who can clock faster times but one would have to go a long way to see a performer as technically efficient as Roger Mills at this pace.

Behind the blazing pace of the leaders there were some excellent performances, with Phil Vesty setting a UK Junior best after Gordon Vale, heading for a sub-12:10 clocking, was disqualified at the bell, having kicked away from the Leicester man on the fifth lap.

Brian Adams showed some of his old speed to take third, overtaking Richard Dorman in the closing stages. Both Ray Hankin and Andy Trigg had superb races as they slashed their pb's,

looking very sharp. Further back, Dave Hay and Steve Uttley excelled themselves in a race that will be remembered for a long time. What a pity there were so few to watch the racewalker's version of an Ovett v Coe duel. From an international point of view, let's hope it can be repeated over 20km and 30km in the coming years.

(Result in August 15th issue of 'AW')

Essex Police 3km Champs, at Chelmsford (May 28th). 1, R. Sheppard (Ang-Gst) 13:14.1; 2, P. Ryan (Sheff) 13:51.3; 3, J. Robinson (Ang-Gst) 14:16.3.

London Postal Region 9km Yacht Handicap, at Blackheath (July 28th). Fastest: G. Vale (Sy) 37:53; D. Jarman (Sy) 40:00; E. Crossingham (Bel) 44:15; S. Till (Sy) 45:33; J. Newnham (Bel) 46:02; D. Railton (Sy) 48:27; T. Hayes (Med) 48:55; D. Vale (Sy) 49:45. Teams: 1, Surrey 11; 2, Belgrave 31.

Sefton Brancker Trophy 3km, at Haringey. 1, A. James (Enf/Mx) 12:49.7; 2, M. Harper (RAF) 13:13.0; 3, S. Lightman (Sy/Mx) 13:14.8; 4, G. Nibrey (Ilf-Gst) 13:23.0; 5, S. Uttley (Ilf/CS) 13:51.9; 6, C. Bradley (Med/RAF) 14:22.5.

Manx 30km champs, at Sully (August 1st). Despite the hot weather, both Graham Young and Allan Callow got inside the Manx Commonwealth standard of 2:34. Young, just two weeks after his fine fifth placing in the National 50km, put in a fine even-paced effort, going through 10km in 50:05, with Callow and Lambert, and then reaching 20km in 1:40:45, leading Callow by eight seconds. He pulled well clear in the final stages, but it was unfortunate that Murray Lambden was absent injured. 1, G. Young 2:32:07; 2, A. Callow 2:33:45; 3, R. Lambie 2:35:26; 4, M. Karran 2:58:55.

Vets AC Jubilee 3km champs, at Enfield (August 2nd). 1, D. Fotheringham (Bel-2A) 14:58; 2, P. Fury (Enf) 15:09; 3, R. Powell (Enf) 15:16; 4, J. Dunsford (Bel-1B) 15:39; 5, H. Jacquest (Wat-2B) 16:17; 6, A. Goodwin (Sy-2B) 16:19 . . . 8, F. Nickolls (Sy-3A) 18:40; 9, A. Roberts (High-4B) 18:52.

Steve Barry all-the-way winner of the Bladen '7' with a fine 49:30, at Bladen (August 2nd). In his final race prior to the AAA 3km, Steve Barry put in a hard effort over a three lap undulating circuit, finishing with a rousing last mile. Graham Morris had second spot all to himself, while veteran clubmate, Dave Stevens, took third. Good to see ex-Ilford man, Geoff Hunwicks, back on the racing scene. 1, S. Barry (Roath) 49:30; 2, G. Morris (Stey) 51:56; 3, D. Stevens (Stey) 55:51; 4, S. Maidment (Stey) 56:29; 5, D. Jones (Wey) 57:12; 6, K. Baker (Wey) 57:56; 7, G. Hunwicks (Wey) 59:34. **(Boys, 3km):** 1, K. Kavanagh (Roath) 14:30; 2, M. Hesketh (Stey) 14:41; 3, G. Brown (Stey) 15:02. **(Colts, 3km):** 1, L. Taylor (Splott) 16:35; 2, R. Hutchins (Roath) 16:52; 3, D. 10km track walk, at Withdean (July 11th). Within a fortnight of his disappointing 35km for Britain against France and Spain, Roger Mills returned to Brighton. This time the 10km distance was more to his liking and, despite a wet track and the humid conditions, he won unopposed in 43:37.9. Two younger walkers had notable performances — Havering's Stewart Phillips removed over a minute from his best and David Buchanan (46:00 in 1979) showed he is regaining form in seventh place after an 18 month lay-off. 1, R. Mills (Ilf) 43:37.9; 2, A. James (Enf) 45:07.0; 3, D. Holly (Ang) 45:34.4; 4, D. Stevens (Stey-V) 46:50.2; 5, S. Phillips (Hav-J) 47:16.7; 6, A. Buchanan (B&H-V) 49:22.7; 7, D. Buchanan (B&H) 51:35.5; 8, K. Dale (B&H-V) 52:22.9.

Shoreham Cement Works Open 3km road walks (July 12th). The daughters of two of the Works' employees starred in their Open Sports Day at Small Dole. Sally Clark looked fluent and relaxed in winning the Girls race in 16:54 and English Schools' champion, Sarah Brown, was in a class of her own in the race for 13-17 year olds. The Youths/Boys race had the most excitement, with only six seconds covering the first three to finish. **(Youths/Boys):** 1, D. Bearman (Stey) 15:20; 2, M. Hesketh (Stey-B) 15:22; 3, G. Hubbard (Hants) 10:16.5; 6, S. Gretton (Sx) 10:23.3.

44th Hastings to Brighton 60.64km (August 1st). Former British 50km record holder, Bob Dobson, added his name to the distinguished list of past winners of Brighton and Hove AC's Hastings to Brighton walk. His time of 5:28:18 has only been beaten by Don Thompson in 1960, just prior to his Rome Olympic 50km victory, when he clocked 5:25:25. Dobson, who has now qualified for Wales, was never challenged, his 10km splits being 51:57, 1:45:22, 2:37:53, 3:32:29 and 4:28:08 at 50km. The final 10,640m took only 60:18, including the long drag over Falmer Hill.

Carl Lawton was second at 50km in 4:35:50, but came apart in the last section, being overhauled by Pete Ryan, who had rallied well after dropping back after 20km, John Newnham, who walked his best race to date, and Dave Boxall. Keith Halstead had a fine race, as did Peter Worth, who broke six hours, quite a performance for a man over 50! Other 50km times were Ryan 4:36:32, Newnham 4:44:46, Boxall 4:45:55, Halstead 4:53:16, Worth 4:54:42, Lightman 4:54:33 and Simmons 5:07:22.

Remarkably, all of the 35 starters, including Ann Sayer on a time trial, completed the course; the first time this has happened since the race began in 1930 and almost unique to any distance event. A credit to those on the roadside tending the walkers.

1, R. Dobson (Ilf) 5:28:18; 2, P. Ryan (Sheff) 5:40:26; 3, J. Newnham (Bel) 5:47:12; 4, D. Boxall (B&H) 5:53:00; 5, C. Lawton (Bel) 5:57:06; 6, K. Halstead (Cov) 5:58:26; 7, P. Worth (Enf) 5:59:13; 8, S. Lightman (Sy) 6:03:25; 9, N. Simmons (Sy) 6:16:35; 10, S. Elms (Stey) 6:19:50; 11, J. Dunsford (Bel) 6:29:11; 12, D. Ringshaw (Stey) 6:38:51; 13, I. McVittie (Lanc) 6:39:56; 14, V. Gretton (Stey) 6:39:58; 15, M. Barnbrook (Camb. H) 6:42:31. **Teams:** 1, Belgrave 7; 2, Steyning 14; 3, Cambridge H 34. **(Time trial):** Ann Sayer (Ex. B) 5:56:55.

N. Ireland Women's Champs

THIS YEAR'S Championships, at Antrim on August 1st, were graced not only by glorious sunshine but by the attendance of Linsey Macdonald and Mary Peters, both spectating. The Moscow bronze medallist, in fact, presented some of the trophies at the end of the meeting.

The performance of the day was undoubtedly that of British Junior International Helen Gourley who repeated the remarkable treble of 100m, 200m and 400m achieved last year by Linda McCurry. Of her three wins, the 400m duel with Michele Chambers had the crowd on its feet as the latter blasted through the first 300 to hit the home stretch five metres ahead. Helen, running her sixth race of the day, kept her lead and hit the front in the last few strides.

Carol Lightfoot, one of two Scots guests, left the domestic field at the gun and powered her way to a season's best of 2:05.9 to equal her own NI all-comers' record. The other Scot, Andrea Everett, also had a solo run to win the 1500m. The 3000m however, was a fiercely fought affair with Angela McCullagh, a former record holder, returning after a year out through injury, taking the field through 800m in 2:30 and thus setting up an almost certain new record. That record and title fell to Patricia Barr, an Intermediate, running her first 3000m.

On the field, Sharon McPeake, the NI record

holder at 1.83m, had to go to a tie-breaker to defeat Janet Boyle who entered the competition with a best of 1.70m. Jacqueline McKernan continued her improvement in the discus recording 38.68m for a new Intermediate record.

'World record' for Paula

Running the distance for the first time, Paula Fudge (29) established a world's best performance of 15:14.51 for 5000m at Knarvik in Norway on September 13th. The IAAF will recognise as an inaugural world record for the event the best performance achieved as at midnight on December 31st. Loa Olafsson of Denmark did clock 15:08.8 in 1978 but that was in a race against men and won't be considered for ratification. At the same meeting Henry Rono broke his own world 5000 record of 13:08.4 with the startling time of 13:06.2... startling both on its own account and because Rono had run 13:12.47 in Rieti (Italy) on September 9th and a UK all-comers record of 13:12.34 in the Coca-Cola Meeting at Crystal Palace on the 11th! Astonishingly, Rono was only 3rd in Rieti as Hansjorg Kunze (GDR) won in a European record of 13:10.40 and Valeriy Abramov (USSR) was 2nd in 13:11.99. Both men had been outkicked by Eamonn Coghlan in the World Cup 5000 three days earlier. Another extraordinary result from Rieti was the mile victory of Sydney Maree (USA), 5th in Rome, in 3:48.83 with Steve Ovett 2nd in 3:50.23 — his first mile defeat for six years! Maree came close to another world record in Hamburg on September 12th, winning over 1500 in 3:32.30. In Bologna the same day Lyudmila Vesselkova (USSR) set world mile figures of 4:20.89. Steve Cram shattered his pb for 800 at Knarvik with a 1:46.20 victory.

Among highlights of the Coke Meeting (full coverage next week), Kathy Smallwood made a resounding 'big time' debut at 400 by clocking 51.08 (2nd on UK all-time list) behind Jarmila Kratochvilova's all-comers record of 49.51; there were other all-comers records by Walter McCoy (44.99 400), Tessa Sanderson (68.72m) and Jolanta Januchta (2:35.56 1000), with Chris Boxer setting UK figures of 2:36:63 in 3rd place; and Julian Goater moved to 2nd on the UK all-time list with a splendid 13:15.59 behind Rono.

Theresa Purton's mother would like to express thanks to all those who called or sent cards to Theresa, following her accident during the World Modern Pentathlon Champs where she was thrown from her horse while it was being groomed and was trapped underneath. They were greatly appreciated and Theresa is recovering well.

The new fixture secretary of Crawley AC is C. Hickman, 25 Highdown Court, Forestfield, Furnace Green, Crawley, Sussex.

OCEANIA[®]

Upper

Navy Blue/White

Non-Stretch Nylon Upper: Provides support and good durability.

Conventionally Lasted: The fiber insole lends a stable base of support to the Oceania.

Curve Lasted: Shaped to maximize support to the outer portion of the foot.

Sockliner

Foam-Backed Canvas: Combines light weight and maximum foot comfort.

Midsole

Sponge Rubber: To provide excellent cushioning.

Outsole

Solid Rubber Herringbone Design

Outsole: More rubber in the heel and forefoot areas for increased wear.

Suitable for indoor and outdoor surfaces with its non-marking outsole.

Profile

The Oceania is recommended as a beginning jogging and casual shoe. The durable outsole gives long wear on many surfaces. Varied colour combinations are fashionable.

Fully illustrated broadsheet available on request.
